ANNUAL REPORT.

OFFICE OF CONTROLLER OF STATE,
Sacramento, Cal., November 6th, 1865. }

To His Excellency,
FRED'K F. LOW,
Governor of California :

SIR:—As required by law, I herewith submit the annual report of the financial condition of the State for the sixteenth fiscal year, ending June thirtieth, eighteen hundred and sixty-five, and a general statement of the condition of the Funds on the first day of November, eighteen hundred and sixty-five.

A detailed statement of receipts and expenditures and all transactions of this department are arranged under the following headings :

I.

Statement of the receipts by counties and from all sources of revenue for the sixteenth fiscal year, ending June thirtieth, eighteen hundred and sixty-five.

II.

Statement showing the amount of expenditures for the fiscal year ending June thirtieth, eighteen hundred and sixty-five, the amount of each appropriation made by law for said year, the amount expended under each, and the balance unexpended at the close of said year.

III.

Statement of the assessment of real and personal property from the organization of the State Government to the year eighteen hundred and sixty-five, inclusive.

IV.

Statement of the account of each county with the State during the sixteenth fiscal year, ending June thirtieth, eighteen hundred and sixty-five, showing the total amount collected for the State, the amount of

mileage, commissions, and allowances authorized by law, and the net amount paid into the State Treasury.

V.

Statement of the assessed value of real and personal property for the year eighteen hundred and sixty-five, and the amount of State and county tax due thereon, (incomplete.)

VI.

Statement of the condition of the several Funds, June thirtieth, eighteen hundred and sixty-five.

VII.

Statement of transactions in Stamps during the year ending June thirtieth, eighteen hundred and sixty-five.

VIII.

Statement of the Funded Debt of the State.

IX.

Estimate of receipts for eighteenth and nineteenth fiscal years.

X.

Estimate of expenditures for eighteenth and nineteenth fiscal years.

XI.

Statement of deficiencies in appropriations for sixteenth and seventeenth fiscal years.

XII.

Statement of the condition of General and other Funds on the first day of November, eighteen hundred and sixty-five.

The fiscal year embraced in this report has been one of more than ordinary importance in the financial transactions of the State, the gross amount of receipts and expenditures far exceeding those of any other year in its history. The large amounts paid to soldiers under the "Act for the relief of the enlisted men of the California Volunteers," and the "Act granting bounties to the volunteers of this State in the service of the United States," together with the costs of reclamation of Swamp and Overflowed Lands, have swelled the amount of payments to two million six hundred and three thousand and sixty-five dollars and eight cents (\$2,603,065 08.) The receipts have also been large, arising from the increasing value of real and personal property, the better enforcement of the revenue laws, the growth of business—as indicated by the increase in the sale of stamps and business licenses—and from the sale of State bonds issued for military purposes, amounting to two million

five hundred and ninety-four thousand three hundred and sixty-five dollars and twenty nine cents (\$2,594,365 29.)

For the first time in nearly five years the General Fund—out of which all the current expenses of the State Government are paid—has been free from the incumbrance of a large floating debt; enabling the directors and trustees of the several State institutions to employ assistants and purchase supplies at cash prices, and the creditors of the State to collect demands against it at maturity. This condition of the General Fund, after so long a period of obligation and embarrassment, must be gratifying to every citizen and creditor of the State, and will relieve those to whom the management and direction of our State institutions are intrusted from humiliation and annoyance.

REVENUE LAW.

As the present revenue law becomes thoroughly understood by the officers intrusted with its execution, it is found to be well adapted to the purposes intended by its framers; and I recommend that few, if any, changes be made in its provisions. It requires considerable study and experience to become familiar with all the provisions of a law so lengthy as a Revenue Act must necessarily be, and continual change in such a statute is more apt to confuse those intrusted with its enforcement than to improve and simplify the law.

ESTIMATE OF RECEIPTS AND EXPENDITURES.

The law requires the Controller to make "an estimate of the revenues and expenditures for the succeeding fiscal year;" but as it is impossible to anticipate the expenditures that the Legislature may authorize, or the resources provided to meet the same, such an estimate can be of little practical value. I have, however, made an estimate of the expenditures required by existing laws, which will be found under the proper heading, classified as follows: Ordinary expenses of the State Government; expenditures for which continuous appropriations exist, and which are *not* ordinary expenses of State Government; expenditures to meet which a specific tax is levied by the Acts authorizing the same.

RATE OF TAXATION.

In the estimate of expenditures for the eighteenth fiscal year the sum of five hundred and fifty-two thousand seven hundred and forty dollars (\$552,740) is for general expenses of State Government, and for the nineteenth fiscal year the sum of seven hundred and seventy-two thousand seven hundred and forty dollars (\$772,740) will be required for the same purpose. These expenditures are payable out of the General Fund. During the sixteenth fiscal year (the last for which complete returns have been received) there was received into the General Fund from all sources of revenue, exclusive of the *ad valorem* tax of forty-eight and three quarter cents on each one hundred dollars of taxable property, the sum of three hundred and eighty-eight thousand two hundred and forty-three dollars and eight cents (\$388,243 08.) The assessed value of real and personal property for the year eighteen hundred and sixty-four, (the last for which complete returns have been received at this office,) was one hundred and eighty million four hundred and eighty-four thousand nine hundred and forty-nine dollars and eighty-five cents (\$180,484,949 85.) After deducting twenty per cent for exemptions,

delinquencies, and costs of collection, an *ad valorem* tax of thirty cents on each one hundred dollars of taxable property will produce a revenue of four hundred and thirty-two thousand dollars (\$432,000.) This sum, added to the amount received from miscellaneous sources named above, will make the annual revenues of the General Fund eight hundred and twenty thousand two hundred and forty-three dollars and eight cents, (\$820,243 08,) an excess of two hundred and sixty-seven thousand five hundred and three dollars and eight cents (\$267,503 08) over the estimated expenditures for the eighteenth fiscal year, and of forty-seven thousand five hundred and three dollars and eight cents (\$47,503 08) over those for the nineteenth year. I therefore recommend that the rate of taxation for general purposes be reduced from forty-eight and three quarter cents to twenty-nine and three quarter cents on each one hundred dollars of taxable property; thereby reducing the total State tax from one dollar and fifteen cents to ninety six cents on each one hundred dollars valuation. Unless the Legislature imposes extraordinary burdens upon the General Fund, or levies taxes for objects not embraced in existing laws, this reduction may be made with entire safety to the credit of the State; for the estimated expenditures for the eighteenth and nineteenth fiscal years are in excess of the actual expenditures for the sixteenth, and the appropriations made for the seventeenth fiscal years; and there is every probability of an increase rather than a decrease in the revenues from miscellaneous sources and *ad valorem* tax.

MILITIA.

The Act of April fourth, eighteen hundred and sixty-four, leaving encampments of military instruction to the discretion of the Commander-in-Chief, has greatly reduced the expenses of the militia system of the State; but the revenues arising from the military poll tax are still insufficient to meet the expenditures. The warrants drawn on the Military Fund during the year amount to forty-six thousand three hundred and thirteen dollars and ninety-one cents, (\$46,313 91,) and the amount allowed by the Boards of Supervisors of the several counties for rents of armories to seventy-nine thousand seven hundred and one dollars and thirty-four cents, (\$79,701 34,) making a total of one hundred and twenty-six thousand and fifteen dollars and twenty-five cents, (\$126,015 25,) while the amount received from military poll tax is less than one hundred thousand dollars (\$100,000.)

In some of the counties the allowances for rents of armories are largely in excess of the receipts from military poll tax, and there is reason to believe that in some cases Boards of Supervisors audit claims to the full limit allowed by law without inquiring whether the whole or any part of the money thus allowed is paid for the use of armories for companies. I must renew the recommendation made by my predecessor, that the law be so changed as to require counties where the companies are organized to pay the rents of their respective armories; or, in the event that this is not done, that the law be so changed as to require these claims to be audited by the State Board of Military Auditors, and warrants for their payment drawn upon the Military Fund.

STATE DEBT.

The interest on the funded debt of the State has been paid at maturity, and the sum of two hundred and twenty-four thousand one hundred and

nine dollars and ninety-nine cents (\$224,109 99) applied to the redemption of civil bonds of eighteen hundred and fifty-seven; also, the sum of thirty-five thousand dollars (\$35,000) applied to the redemption of soldiers' relief bonds issued under the Act of April twenty-seventh, eighteen hundred and sixty-three. The sum of eleven thousand five hundred and fifty dollars (\$11,550) has been drawn from the State School Land Fund and applied to the purchase of soldier's relief bonds, which bonds, together with the civil bonds of eighteen hundred and fifty-seven, redeemed, were placed in custody of the State Treasurer, marked to the credit of the School Fund. The sum of two thousand four hundred and seventy-five dollars (\$2,475) has been drawn from the Seminary Fund, and applied to the purchase of soldiers' relief bonds, which bonds are held by the State Treasurer for the benefit of that fund.

The debt of the State on the first day of July, eighteen hundred and sixty-five, was as follows :

Civil Bonds of 1857 in private hands.....	\$3,121,500 00
Civil Bonds of 1857 in custody of State Treasurer for School Fund.	606,000 00
Civil Bonds of 1860.....	198,500 00
Soldiers' Relief Bonds in private hands.....	144,500 00
Soldiers' Relief Bonds in custody of State Treasurer for School Fund	59,000 00
Soldiers' Relief Bonds in custody of State Treasurer for Seminary Fund.....	10,000 00
Soldiers' Bounty Bonds.....	45,000 00
Total Funded Debt	\$4,184,500 00
Warrants outstanding on Capitol Fund	18,116 46
Warrants outstanding on Soldiers' Relief Fund.....	386,178 63
Warrants outstanding on Soldiers' Bounty Fund.....	236,040 00
Warrants outstanding on Line Officers' Fund.....	500 00
Warrants outstanding on Military Fund.....	61,518 72
Unfunded Scrip due School Fund.....	31,020 00
Due Swamp Land Fund.....	57,079 88
Grand Total.....	\$4,974,953 69
From which deduct :	
Balance in General Fund.....	\$153,852 38
Balance in Interest and Sinking Funds after payment of July interest.....	86,970 40
Total cash on hand.....	240,822 00
Net State Indebtedness July 1st, 1865.....	\$4,734,130 91

In addition to the debt above reported, there are bonds of the State issued under the provisions of an Act entitled "An Act authorizing the Treasurer of the State to issue bonds for the payment of the expenses of the Mariposa, Second El Dorado, Utah, Los Angeles, Clear Lake, Klamath and Trinity, and Monterey Expeditions against the Indians,"

approved May third, eighteen hundred and fifty-two, amounting to the sum of thirty-eight thousand one hundred dollars, (\$38,100,) and interest, and Controller's warrants not converted into bonds to the amount of two thousand one hundred and fifty-dollars and five cents, (\$2,150 05,) outstanding and unpaid. These bonds were issued upon the condition that if not paid within ten years by money appropriated by Congress, "or out of the proceeds of the sale of any public lands which may be donated or set aside by Congress for that purpose, and should no such appropriation or donation be made, or if an amount sufficient should not be appropriated or donated within the said ten years, then the bonds authorized to be issued by this Act shall be good and valid claims against the State, and shall be paid out of any money in the Treasury not otherwise appropriated to pay the expenses of the expeditions mentioned in this Act." These bonds and warrants have not been paid out of any moneys appropriated or otherwise provided by Congress, and are probably both a legal and equitable claim against the State, but as successive Legislatures have had these claims referred to them, and have refused to make provision for their payment, I have not included the amount in the State indebtedness.

Notwithstanding the very large amounts paid by the State for military purposes under the "Act for the relief of the enlisted men of the California Volunteers," and the "Act granting bounties to California Volunteers in the service of the United States," the total indebtedness of the State on the first day of July, eighteen hundred and sixty-five was only forty-three thousand eight hundred and forty dollars (\$43,840) greater than it was on the first day of January, eighteen hundred and sixty-four, twenty days after the commencement of your excellency's administration. It should be remembered, too, that almost the entire property tax of eighteen hundred and sixty-three had been paid into the State Treasury before the statement of State indebtedness was made on the first day of January, eighteen hundred and sixty-four, while not one dollar of the property tax of eighteen hundred and sixty-five had been received prior to July first, the date at which this statement of State indebtedness was made.

REVENUE FROM STAMPS.

The revenue derived from stamps has increased from one hundred and eleven thousand six hundred and eighty-five dollars and ninety-four cents, (\$111,685 94,) during the fourteenth fiscal year, to one hundred and ninety thousand two hundred and five dollars and seventy-one cents, (\$190,205 71,) during the sixteenth fiscal year. This extraordinary increase of over seventy-eight thousand dollars, speaks well for the prosperity of the State, and the efficiency of the Stamp Inspectors, Messrs. Lull and Deeth.

And here let me urge the importance of some improvement in the form and character of our State stamps. It is little short of an outrage upon the business men of the State, who use stamps in such numbers as the sales for the last fiscal year denote, to compel the use of such stamps as are now issued by the State, while the crudeness of their design and common appearance render them easy of imitation and counterfeit. I therefore earnestly recommend that a sufficient appropriation be made to procure dies, upon which stamps similar to the United States revenue stamps may be prepared.

SOLDIERS' RELIEF FUND.

The Legislature, in the year eighteen hundred and sixty-three, passed an Act providing that the sum of five dollars per month should be paid by the State to each and every enlisted soldier of the California Volunteers then in the service, or thereafter to enlist, from the time of their enlistment to the time of their discharge; and appropriated the sum of six hundred thousand dollars (\$600,000) to pay the same. To provide the money to pay those claims, the State Treasurer was authorized to prepare and sell seven per cent. coupon bonds of the State to the amount of six hundred thousand dollars, (\$600,000.) which bonds were not to be sold at a greater discount than fifteen cents on the dollar of the par value thereof. Of these bonds two hundred and forty-eight thousand five hundred dollars (\$248,500) have been sold, and three hundred and fifty-one thousand five hundred dollars (\$351,500) still remain unsold; notwithstanding they have been in the market under advertisement by the Treasurer since May fifteenth, eighteen hundred and sixty-four. Of the bonds sold, fifty-two thousand dollars (\$52,000) were purchased for the benefit of the School Fund and Seminary Fund, at a discount of ten cents on a dollar of the par value, and one hundred and ninety-six thousand five hundred dollars (\$196,500) by private parties, at a discount of fifteen cents on a dollar of the par value. The total amount received from the sale of bonds is two hundred and thirteen thousand eight hundred and twenty-five dollars, (\$213,825.) and the amount to be derived from the bonds remaining unsold at eighty-five cents on the dollar—the minimum price allowed by law—will be two hundred and ninety-eight thousand seven hundred and seventy-five dollars, (\$298,775,) leaving warrants to the amount of eighty-seven thousand four hundred dollars (\$87,400) unprovided for. As a matter of policy I was opposed to issuing warrants in excess of the amount that could be *realized* from the sale of the six hundred thousand dollars (\$600,000) of bonds, but the law was very clear as to the amount of the appropriation, (six hundred thousand dollars,) and notions of policy had to yield to a fair construction of the law.

In addition to the eighty-seven thousand four hundred dollars (\$87,400) of warrants for which the means of payment are not provided, there are claims now on file in the office of the Honorable Board of Examiners to the amount of one hundred and forty-nine thousand three hundred and eighty-six dollars (\$149,386) that are of as high obligation against the State as any that have been paid under the Act of April twenty-seventh, eighteen hundred and sixty-three; and to provide means for their payment is one of the duties that will devolve upon the next Legislature.

COLLECTION OF STATE AND MILITARY POLL TAXES.

In the City and County of San Francisco, and in nearly all the mining counties of the State, the number of State and military poll taxes collected nearly equals the number of voters in the respective counties, and in a few counties exceeds the number of voters; but in nearly all the southern counties, and in the agricultural counties in the central portion of the State, the number sold is so insignificant, compared with the number of inhabitants liable to the tax, as to practically exempt those counties from its payment. It would be difficult to frame a law more

stringent in its provisions than are the Acts providing for the collection and enforcement of these taxes; and I am inclined to think the fault is more in the officers intrusted with the execution of the law, than in the law itself.

RECLAMATION OF SWAMP AND OVERFLOWED LANDS.

The work of reclaiming the swamp and overflowed lands of the State has been entered upon with considerable zeal and energy, and from the best information I have been able to obtain, the reclamation of some of the districts has been attended with quite flattering results. The number of reclamation districts already established is forty-six, and as the law now stands an account must be kept in this Department with every engineer, contractor, chainman, and laborer, in each district, and warrants drawn on the State Treasurer for the amounts due each, as often as their several accounts are certified up by the Board of Swamp Land Commissioners, thereby increasing the duties of this office with the establishment of each additional district. I therefore recommend that the law be so amended as to place the money in the State Treasury applicable to the reclamation of any given district in the hands of the Swamp Land Commissioners, as soon as such district shall be established in conformity to law, and that the revenue accruing to said district after its establishment, be paid to the Swamp Land Commissioners, instead of the State Treasurer. All the guarantees for the safety and proper disbursement of the money that now exist may be thrown around its custody and disbursement by the Commissioners.

It is with much reluctance I recommend a change in any existing law, but the extraordinary amount of additional labor imposed upon this office by the Acts for the reclamation and segregation of the swamp and overflowed lands, the relief of enlisted men, and bounties to volunteers, renders it impossible to discharge the duties properly with the present number of assistants and amount of office room.

MISCELLANEOUS.

The "Act amendatory of and supplementary to an Act to tax foreign insurance companies," approved March second, eighteen hundred and sixty-four, provides that for each certificate of compliance with the provisions of said Act the sum of five dollars (\$5) shall be paid to the Controller, but fails to make any disposal of the moneys thus received. In the absence of all direction in the Act itself, I have paid the money into the State Treasury to the credit of the General Fund.

The nineteenth section of the Act of April twenty-seventh, eighteen hundred and sixty-three, entitled "An Act to provide for the sale of certain lands belonging to the State," provides that "In the event of any of the lands sold by the State proving to be within the boundaries of a grant, or otherwise not the property of the State, the holder or assignee of the certificate of purchase or patent shall be entitled to receive in exchange therefore a certificate from the Register of the State Land Office that such amount has been paid. This certificate shall specify the kind or class of land upon which the said amount was paid; and the locator may present, and the County Treasurer and State Treasurer shall receive, the said certificate as payment for its amount, either principal or interest, upon any lands of the same class which the same purchaser or assigns

may afterward desire to locate, or may already have located." The workings of this section produces continual disagreement between the books of the Controller and Treasurer, to reconcile which I have been compelled to give the Treasurer credits for which there is no specific warrant in law. These certificates of the Register of the State Land Office are generally presented to the State Treasurer by County Treasurers, in payment of interest on State School Lands, which interest constitutes one of the sources of revenue to the School Fund of the State. When a settlement is made with a County Treasurer by the Controller, the whole amount which the County Auditor's report shows to have been received by the County Treasurer (less his commissions) for interest on State school lands, is ordered by the Controller into the State School Fund, and carried to the credit of the said Fund upon the books of the Controller, and the State Treasurer charged with the amount; and when the Controller makes his semi-annual report to the Board of Education, on the fifteenth days of June and December of each year, of the amount of money in the State Treasury subject to apportionment for support of schools, his books show the full amount which the State Treasurer has been ordered to receive into the State School Fund; but a part of the amount which the Treasurer has been ordered to receive has been paid in these certificates of the Register of the State Land Office, and are neither money nor assets, available or unavailable, of the State School Fund; and in order that no greater amount should be apportioned than there has been *money* received into the State School Fund, I have been obliged to deduct from the amount which the books of this office show to have been paid into the State School Fund, the amount of the certificates which the State Treasurer reports he has received for interest on State School Lands, and without any authority of law, to credit the Treasurer with the amount of certificates of the Register of the State Land Office which has been paid to him under the said nineteenth section. The same difficulty is met in the case of the State School Land Fund, where certificates of the Register of the State Land Office are given for principal paid on State School Lands, and with the Swamp Land Fund where certificates are given for principal or interest paid on swamp and overflowed lands. I recommend that the said nineteenth section be repealed, or so amended as to obviate the difficulties above presented.

Permit me also to call your attention to the eighth section of "An Act to authorize the City and County of Sacramento to subscribe to the capital stock of the Central Pacific Railroad Company of California," etc., approved April twenty-fifth, eighteen hundred and sixty-three, which provides that *all* taxes paid by said railroad company shall be paid to the County Treasurer of Sacramento County and by him put into a "Railroad Fund," to be used solely in payment of principal and interest of certain bonds issued by the County of Sacramento, and exchanged with the said railroad company for shares of its capital stock. It was probably the intention of the Legislature to provide that all county taxes paid by the said railroad company in the County of Sacramento should be applied to the payment of interest and final redemption of said bonds, as a similar provision exists in the Acts authorizing other counties to subscribe to the capital stock of certain corporations, passed at the same session, and not to set apart the tax levied upon the property of the Central Pacific Railroad Company for State purposes, for the purpose of paying the

subscription to the capital stock of said company made by the County of Sacramento.

Believing that the different Exhibits hereunto annexed contain a full and explicit statement of the transactions of this department for the sixteenth fiscal year,

I have the honor to be,

Your obedient servant,

GEO. OULTON,
State Controller.

Report of Controller of State

FOR THE

FIFTEENTH FISCAL YEAR.

ANNUAL REPORT.

OFFICE OF CONTROLLER OF STATE, }
Sacramento, November 21st, 1864. }

To His Excellency,
FRED'K F. LOW,
Governor of California.

SIR:—In obedience to the provisions of the statutes, I have the honor to submit to you my Annual Report for the fiscal year ending the thirtieth day of June last; also, a report of the condition of the several Funds at the close of business on the thirty-first day of October, one thousand eight hundred and sixty-four.

I refer you to the tables annexed to this report for information touching the subject mentioned in each. The various items of the report may be found under the following headings:

A.

Statement showing the receipts into the State Treasury from all sources of revenue for the fiscal year (fifteenth) commencing July first, A. D. eighteen hundred and sixty-three, and ending June thirtieth, eighteen hundred and sixty-four.

B.

Statement showing the amount of expenditures for the fifteenth fiscal year, ending June thirtieth, eighteen hundred and sixty-four, and the amount of each appropriation made by law for said year, the amount expended under each, and the balance unexpended at the close of said year.

C.

Statement of the public debt on the first day of November, eighteen hundred and sixty-four.

D.

Recapitulation of receipts by counties and from all sources of revenue for the fifteenth fiscal year, ending June thirtieth, eighteen hundred and sixty-four.

E.

Recapitulation of expenditures for the fifteenth fiscal year, ending June thirtieth, eighteen hundred and sixty-four.

F.

Statement of the assessed value of property for the year eighteen hundred and sixty-four, and the amount of State and county tax due thereon, as fully as reported to this office on the first day of November, eighteen hundred and sixty-four.

Since the first day of November, the date of the statement of the public debt contained in table "C," the amount of warrants outstanding against the General Fund has been reduced from two hundred and fifty-six thousand three hundred and thirty-two dollars and eighty-one cents (\$256,332 81) to seventy-seven thousand two hundred and five dollars and thirty-two cents (\$77,205 32); the amount outstanding against the Capitol Fund from thirty-seven thousand seven hundred and fifty-six dollars and seventy-one cents (\$37,756 71) to twenty-two thousand nine hundred and twelve dollars and eighty-four cents (\$22,912 84); and the amount on the Military Fund from sixty-three thousand eight hundred and ninety-one dollars and fifty-seven cents (\$63,891 57) to sixty-two thousand and nineteen dollars and eighty-nine cents (62,019 89); while the amount of warrants outstanding against the Soldiers' Bounty Fund has been increased from thirteen thousand and seventy dollars (\$13,070) to eighteen thousand seven hundred and ninety dollars (\$18,790); and the amount against the Soldiers' Relief Fund from one hundred and fifty-six thousand and seventy-six dollars and ninety-eight cents (\$156,076 98) to two hundred and thirty-two thousand one hundred and fifty-nine dollars and eighty-seven cents (\$232,159 87.) In addition to the amount of warrants outstanding against the General Fund, the sum of one hundred and seven thousand and seventy-nine dollars and eighty-eight cents (\$107,079 88) is due from said Fund to the Swamp Land Fund: the sum of fifty thousand dollars (\$50,000) to be transferred from the General Fund to the Swamp Land Fund on the first Monday in January, and the further sum of fifty-seven thousand and seventy-nine dollars and eighty-eight cents (\$57,079 88) on the first Monday of July, eighteen hundred and sixty-five, which sum of one hundred and seven thousand and seventy-nine dollars and eighty-eight cents (\$107,079 88) is, in effect, a debt owed by the State. The entire indebtedness of the General Fund, including the first instalment of fifty thousand dollars (\$50,000) due the Swamp Land Fund, and the greater part of the indebtedness of the Military Fund, will be liquidated by the money received from County Treasurers at their January settlements, eighteen hundred and sixty-five. From the first of February to the first of October, eighteen hundred and sixty-five, the expenditures will considerably exceed the receipts, so that a debt will accumulate against the General Fund during that period; but the present rate of taxation continued for another year, will, by the first of December, eighteen hundred and sixty-five, place our State finances upon a cash basis, and leave a sufficient amount in the State Treasury to defray the expenses of the approaching session of the Legislature. This, after the long reign of financial embarrassment under which our State has suffered, must be a gratifying result to every citizen as well as creditor of the State.

In the table exhibiting the State indebtedness is included the warrants outstanding against the Special Reclamation Funds of the several swamp land districts; but this is not properly a part of the indebtedness of the State, as the payment of those warrants is provided for by means apart from State taxation.

I have left out of this report entirely the "Old Indian War Debt," as the best information I have been able to obtain leads me to the conclusion that but a very small portion, if any, of it is entitled to be ranked as State debt.

Owing to the failure of several County Auditors to comply with the law requiring them to report to this office on the third Monday in September, the assessed value of property, and the amount of State and county tax charged thereon, in their several counties, it is impossible to present a complete statement of the assessed valuation of the property of the State; but after deducting ten per cent from last year's assessment for depreciation of property in those counties from which reports have not been received, and adding an estimate for subsequent assessment in all counties that have not reported such subsequent assessment, equal to the subsequent assessment of last year, the assessment of the State will exceed that of last year nearly three million dollars (\$3,000,000.) The table marked "F" exhibits only original assessments—subsequent assessments are yet to be reported.

In the amount reported as received from sale of stamps for the fifteenth fiscal year, viz: one hundred and eighty-three thousand nine hundred and sixty-three dollars and twenty-eight cents, (\$183,963 28,) the sum of nine thousand nine hundred and fifty dollars and four cents (\$9,950 04) paid by the Treasurer of the City and County of San Francisco on a settlement delayed from February, eighteen hundred and sixty-three, until April, eighteen hundred and sixty-four, is included. This amount properly belonged in the receipts of the preceding (fourteenth) fiscal year. Also, the sum of ten thousand dollars—(\$10,000)—a part of the money recovered from the sureties of G. R. Warren, only a portion of which belongs to the receipts of the fifteenth fiscal year.

I have not considered it necessary to comply strictly with the letter of the statute by making an estimate of expenditures for the succeeding fiscal year, as the Legislature at its last session made the necessary appropriations for defraying the expenses of the State Government, and for such other objects as by usage have become a charge on the Public Treasury for such succeeding fiscal year.

I have the honor to remain,

Very respectfully,

Your obedient servant,

GEORGE OULTON,
Controller of State.

STATISTICAL TABLES.

FIRST BIENNIAL REPORT

OF THE

SECRETARY OF STATE,

FOR

THE YEARS 1864-65.

O. M. CLAYES.....STATE PRINTER.

REPORT.

STATE OF CALIFORNIA, DEPARTMENT OF STATE, }
Sacramento, November 1st, 1865. }

To His Excellency,

FREDERICK F. Low,

Governor of the State of California :

SIR :—In obedience to the requirements of the laws of this State, I have the honor to submit herewith a report of the transactions of this office for the period commencing December tenth, eighteen hundred and sixty-three, and ending November first, eighteen hundred and sixty-five.

B. B. REDDING,
Secretary of State.

STATE OF CALIFORNIA, }
County of Sacramento, } ss.

B. B. REDDING, Secretary of State, being duly sworn, on oath deposes and says, that the annexed report is true according to the best of his knowledge and belief.

A. A. H. TUTTLE,
Notary Public.

REPORT.

Since the report of my predecessor there have been received in this office and paid into the State Treasury, to the credit of the Library Fund, the following sums:

	Amounts.
From A. A. H. Tuttle, as fees received by him as Secretary of State, from October 1, 1863, to December 10, 1863.....	\$4,413 70
From fees, December 10, 1863, to December 31, 1863.....	1,265 00
From fees for quarter ending March 31, 1864.....	4,207 00
From fees for quarter ending June 30, 1864.....	3,045 50
From fees for quarter ending September 30, 1864.....	558 30
From fees for quarter ending December 31, 1864.....	573 90
From fees for quarter ending March 31, 1865.....	920 70
From fees for quarter ending June 30, 1865.....	789 90
From fees for quarter ending September 30, 1865.....	1,010 85
From fees for month of October, 1865.....	228 20
Total.....	\$17,013 05
Paid into the State Treasury.....	\$16,784 85
Cash on hand November 1, 1865.....	228 20
	\$17,013 05

The larger proportion of the revenue received in this office and paid into the State Treasury for the benefit of the Library Fund has been derived from the filing and recording of certificates of incorporation. It will be seen from the report of the receipts of each quarter that the revenue is a very exact record of the mining excitement that existed at the time. During the quarter ending September thirtieth, eighteen hundred and sixty-three, when the mania for forming incorporated companies for the working of silver mines was at its height, there was received in the Secretary of State's office, principally for filing and

recording certificates of incorporation, the sum of seven thousand five hundred and thirty-seven dollars and seventy cents (\$7,537 70.) For the quarter ending September thirtieth of the following year, (eighteen hundred and sixty-four,) the receipts were but five hundred and fifty-eight dollars and thirty cents (\$558 30.) For the quarter ending September thirtieth, eighteen hundred and sixty-five, the receipts were one thousand and ten dollars and eighty-five cents (\$1,010 85.) The increase for the corresponding period in eighteen hundred and sixty-five over that of eighteen hundred and sixty-four is attributable to the petroleum excitement which existed at the time.

Of the seventeen thousand thirteen dollars and five cents (\$17,013 05) reported as having been received, there was derived from filing and recording certificates of incorporation the sum of eleven thousand three hundred and fifty-nine dollars and seventy cents, (\$11,359 70,) the balance, five thousand six hundred and fifty-three dollars and thirty-five cents, (\$5,653 35,) being from commissions issued from the Executive Department, from the fees for making certified copies of public documents, and from other sources. Since the organization of the State Government, there have been formed five thousand seven hundred and seventy-three incorporated companies, certificates of which are now on file and of record in this office.

During the year eighteen hundred and sixty-three, certificates of incorporation filed for record had accumulated with such rapidity that my predecessor had not the clerical force with which to record them, and in his official report he recommended that he be allowed additional clerks. He also asked for an appropriation of one thousand dollars with which to classify and arrange the archives. From the time of the Constitutional Convention at Monterey, in eighteen hundred and forty-nine, up to eighteen hundred and sixty, the seat of government had been so often changed that the invaluable records of the legislative history of the State had, in their various wanderings, been reduced to about a ton of broken packages and loose papers. On the nineteenth of March, eighteen hundred and sixty-four, an Act was passed by the Legislature concerning the recording of certificates of incorporation, and the arrangement of the archives of State in the Secretary of State's office. This Act authorized the employment of one or more clerks to record certificates of incorporation which had accumulated since March fourth, eighteen hundred and sixty-three, these clerks to be paid from the Library Fund at the rate of ten cents per folio. It also made an appropriation of one thousand dollars as compensation for the services of a competent person "to collate and arrange the archives of a date prior to the year eighteen hundred and sixty." Under this Act all of the certificates of incorporation have been recorded in proper record books, and indexed. I have also caused the five thousand seven hundred and seventy-three certificates of incorporation to be alphabetically arranged, and placed in appropriate cases, so that any particular one of them may be readily referred to. The archives, including a census of California by the Spanish Government, in seventeen hundred and ninety-eight, the proceedings and records of the Constitutional Convention at Monterey, Executive documents, bonds of public officers, proceedings, reports, engrossed and original bills of the several sessions of the Legislature, and many thousands of miscellaneous documents and State papers, have been collated, arranged, folded, labelled, placed in appropriate cases, and marked with the proper year to which they belong. This work has been so thoroughly and faithfully performed that there is no document, book, or paper connected

with the legislative history of the State, that is on file in the office, that cannot be readily found. The system that has been adopted in the arrangement of the archives will, if followed, preserve these valuable documents and afford every facility for their examination.

The following is a statement of the value of stationery, lights, fuel, etc., delivered to the different departments :

Departments.	Amount.
Governor's office.....	\$1,154 13
Adjutant-General's office.....	1,577 16
State Treasurer's office.....	1,166 36
Attorney-General's office.....	775 13
State Printer.....	19 13
State Translator.....	46 10
State Library.....	831 69
Supreme Court.....	1,740 02
State Controller's office.....	1,368 67
Surveyor-General's office.....	476 00
Legislature of 1863-64.....	6,426 49
Total.....	\$15,580 88

The official acts of the Executive have been duly recorded in proper books as required by law. The laws of eighteen hundred and sixty-three and eighteen hundred and sixty-four in English and Spanish, the Journals and Appendices of the Senate and Assembly, and Volumes XXII, XXIII, XXIV, XXV, and XXVI of the Supreme Court Reports, have been received and distributed in accordance with the requirements of the statute. The duties devolving upon this department under an Act to provide for the support of the privilege of free suffrage during the continuance of the war, approved April first, eighteen hundred and sixty-four, and an Act amendatory of and supplemental to an Act in addition to an Act entitled an Act to regulate elections, approved March twenty-third, eighteen hundred and fifty, and all acts amendatory thereof and supplemental thereto, approved April twenty-fifth, eighteen hundred and sixty-three, approved April fourth, eighteen hundred and sixty-four, have been performed, and the volunteers of the State in the service of the United States were, at the presidential, general, and judicial elections, supplied with "lists of electors" and blanks for election returns. These returns of the soldiers' votes were, as rapidly as received, certified to the various County Clerks. If these Acts are to be continued in force, I would recommend that they be amended so that their provisions be made consonant, so far as may be, with each other, and less discretion left to the officers who perform duties under them.

Under an Act to provide revenue for the support of the Government of this State, approved May ninth, eighteen hundred and sixty-one, it is made the duty of the Secretary of State to take charge of all the seals, paper, and other material used in printing the State stamps, and furnish the Controller with as many stamps as may be required, keeping an account thereof. From December eleventh, eighteen hundred and sixty-

three, to October twenty-third, eighteen hundred and sixty-five, there were furnished the Controller stamps representing four hundred and nineteen thousand four hundred and twelve dollars and fifty-six cents. The sale of stamps is constantly increasing, and so many impressions have been taken from the dies that they are too much worn for future use. Much complaint is made by the persons who are required to purchase the stamps in consequence of their inconvenient shape, and the lack of clearness in that part of their printing which designates their character and value. Of many of the dies there are so few representing one value, that to obtain an impression on a sheet of paper of those wanted, other dies have to be used of which there may be at the time a surplus of stamps in the office. I would recommend that all the dies at present in use be destroyed, and that eight dies of each value be procured, so that of those thereafter printed one sheet of paper will contain only stamps representing one value. The dies now in use are circular—a form inconvenient for cutting. The new dies should have the shape which the General Government has found to be most convenient—that of postage and internal revenue stamps. I would respectfully ask that an appropriation be made for the purpose of procuring new dies.

I received from my predecessor:

Balance in the Fund of Contingent Expenses for this office...	\$31 30
Appropriation, sixteenth fiscal year.....	150 00
Appropriation, seventeenth fiscal year.....	150 00
Total.....	\$331 30
Of this, there has been expended to date.....	\$256 41
Balance on hand.....	74 89
Total.....	\$331 30

All of which is respectfully submitted.

B. B. REDDING,
Secretary of State.

ANNUAL REPORT

OF THE

Surveyor-General of California,

FOR

THE YEAR 1864.

O. M. CLAYES.....STATE PRINTER.

ANNUAL REPORT.

SURVEYOR-GENERAL'S OFFICE,
Sacramento, November 1, 1864. }

To His Excellency,
FRED'K F. LOW,
Governor of California:

SIR:—In compliance with the requirements of the law defining the duties of this office, I have the honor to submit for your consideration the following report, from November twentieth, eighteen hundred and sixty-three, to November first, eighteen hundred and sixty-four.

I am, very respectfully,

Your obedient servant,

J. F. HOUGHTON,
Surveyor-General, and Register of State Land Office.

REPORT.

STATE LANDS.

The increasing importance of this subject will continue to claim for it the front rank in the annual reports of this office, until such time as the State secures from the General Government and gives to every purchaser under the laws of our State the title which has been promised, and yet so long delayed

In the case of school lands, the proper course to obtain such titles from the General Government is, for the State authorities, immediately upon the selection of any portion of the public domain, to notify the local United States Register of the district in which the land is located that such selection has been made by the State in part satisfaction of the sixteenth and thirty-sixth section grant, the five hundred thousand acre grant, or the seventy-two section grant for the use of a seminary of learning, as the case may be, and here the duty of the State should end.

The United States local Register is required by instructions from the Commissioner of the General Land Office at Washington to note all such selections upon his maps, and report them to that office for examination and approval or rejection, and, in case of approval, to be certified over to the State.

The duties of the officers of the State in this matter have, for nearly thirteen years, since first any of these lands were offered for sale by the State, been faithfully and promptly performed, and the United States Registers have been duly notified of every selection made.

I have reason to believe that as a general thing the Registers have performed their duties so far as instructed by the General Land Office, yet not a single acre of land of any description has been listed or patented to the State. The first systematic attempt to perfect the title to the swamp and overflowed lands granted to the State by Act of Congress of September twenty-eighth, eighteen hundred and fifty, was by an Act of the Legislature, approved May thirteenth, eighteen hundred and sixty-one, creating a Board of Swamp Land Commissioners, to take charge of the segregation and reclamation of all the swamp and overflowed land within the State which was conveyed by the grant. It was made the duty of the Board to forward to the County Surveyors blank affidavits of the form required by the General Land Office, which affidavits, after a survey of the land, the County Surveyors were to have

sworn to and subscribed by respectable witnesses who lived in the vicinity of and were well acquainted with the land, thus proving the swampy character of all the land claimed by the State under the grant. Segregation surveys were made in nearly all those counties in which any considerable quantities of swamp land occur, and the affidavits procured. Duplicate maps were made, and one copy, with the required proof, forwarded by the Governor to the Department at Washington.

If any reply came to the request to have the lands so claimed certified to the State, I have not been made acquainted with it. During the session of the Legislature of eighteen hundred and sixty-two, after consultation with the United States Surveyor-General Beale, in regard to the best method of presenting the claim of the State to these lands before the General Land Office, I recommended the passage of an Act requiring the Register of the State Land Office to prepare lists of all lands claimed by the State under the several Acts of donation; also, certified copies of all affidavits, or other evidence that the lands so claimed are the property of the State, within the meaning of the several Acts making the donations, and to file such lists and affidavits with the Surveyor-General, or Register, as may be required by the rules of the United States Land Department.

Under this Act, in addition to other duties required by the Act, I prepared full copies of all the segregation affidavits, and all other evidence on file in this office proving the character of the land, together with full lists of the land, and took them in person to the United States Surveyor-General at San Francisco, who forwarded them to the department. After a long delay he reported to me that the department were not satisfied with certified copies, but must have the original papers. I immediately took him the originals, returning to the files of this office the certified copies, which originals he forwarded, and again he reported that the Commissioner objected to the form of the affidavits procured, inasmuch as the State Agent in his affidavit did not state the reason why the affidavit of the swampy character of the land was not made by the United States Deputy Surveyor and his assistants who made the survey of the adjoining high land in the township.

It is hard to see the force of this objection when we consider the fact, that of the townships in which the State claimed swamp and overflowed land, not one in ten had ever been surveyed by authority of the United States, of which fact the Commissioner could easily have informed himself by a glance at the map accompanying the United States Surveyor-General's report.

In all those townships in which no United States survey had been made, the instructions of the Commissioner of the General Land Office to the United States Surveyor-General for California, dated December thirteenth, eighteen hundred and fifty-nine, had been fully complied with, yet, for the reason that in the few townships which had been so surveyed, the State Agent did not procure the affidavits of the United States Deputy and his assistants to the character of the land so claimed, nor state any reason why he did not so procure them, the whole proof, which has cost the State so much time and money to procure, is rejected.

These affidavits were procured at the time of making the segregations, before my advent into the office, but as soon as this objection, which was pertinent only so far as related to those townships which had been surveyed by the United States was raised, I notified the Swamp Land Commissioners, requesting them to procure new proofs not subject to

this objection, and notified County Surveyors of the new form of affidavit required.

In Townships five, six and seven north, Range four east, of Mount Diablo meridian, embracing those narrow strips of land, a few rods in width, on the banks of the Sacramento River, which had been settled upon and reclaimed by enterprising settlers, by constructing levees and drains, stopping the mouths of the smaller sloughs, and by other methods, rendering them susceptible of cultivation, although it was no part of my duty, as an initiative step I prepared affidavits of a form to answer the last objection, and had them duly sworn to and filed with the United States Surveyor-General.

Ten months have elapsed since these affidavits were filed, and I believe they were at once forwarded to the department; yet I have heard of no reply having been received.

The difference between the Commissioner of the General Land Office and the State authorities in construction of the sixteenth and thirty-sixth section grant, in regard to the right of the State under the law to select unsurveyed lands in lieu of such sections where they are covered by grants, or have been taken for public uses, and also the instructions of the Commissioner to the local Registers, that where a township falls wholly within a private claim, the State is not entitled to lands in lieu of the sixteenth and thirty-sixth sections, has been fully discussed in the reports of this office for the years eighteen hundred and sixty-two and eighteen hundred and sixty-three, and will not be repeated here.

During the session of eighteen hundred and sixty-two, the Legislature, by concurrent resolution, selected the Honorable William H. Parks as a Commissioner to proceed to Washington, for the purpose of adjusting all questions relating to the title of the State to the lands claimed under the several grants. The Commissioner thus selected was furnished by this office with ample proofs of the claims of the State to all lands claimed by her, involving much labor in their preparation, and with them he proceeded to Washington and laid the case before the Commissioner, but failed to obtain any definite result to his mission, with the exception that the Commissioner at his request forwarded instructions to the United States Surveyor-General to give the State the same privileges as settlers under the Act of Congress of May thirteenth, eighteen hundred and sixty-two, which provided that the settlers upon any township could have a survey of said township made by the United States Surveyor-General at their own expense.

The State Commissioner at the close of his report to the Governor says: The State of California "has a right to complain that owing to the peculiar views of the Commissioner she has not been able to obtain that to which she is justly entitled."

Soon after the report of the Honorable W. H. Parks, Commissioner above referred to, taking into consideration the many and total failures of the State to obtain a recognition of its titles in the usual way, notwithstanding it would seem that every duty of its officers had been faithfully and fully performed, I drew up and presented to the Legislature at its session in eighteen hundred and sixty-three, the concurrent resolutions adopted April twenty-fourth, eighteen hundred and sixty-three, requesting our Senators and Representatives in Congress to procure the passage of an Act which should provide that wherever the proper authorities of the State had in good faith selected any portion of the public domain in part satisfaction of any grant made to the State by Act of Congress, and had in the same good faith sold the same to

purchasers under her laws, the same should be confirmed; also pledging the State, that if upon final investigation and decision it should appear that the State had selected any land to which she was not entitled, she should pay into the Sub-Treasury of the United States the sum of one dollar and twenty-five cents per acre for each and every acre so determined to have been improperly selected.

Agreeably to the instructions contained in the last of the resolutions, I prepared certified copies of them, and forwarded one, each, to the Honorable Secretary of the Interior, and the Honorable Commissioner of the General Land Office, accompanied by a long communication proposing to make the resolutions a basis of settlement of all questions of difference between the United States and the State, in regard to the several donations of land to the State.

In that communication I presented all questions of difference, as understood by the State authorities, briefly setting forth the effects of those differences upon the State, and the grounds upon which the State relied, the form of affidavit required of State purchasers, and other witnesses, that the lands claimed were unoccupied and unimproved, except by the applicant to purchase of the State, and that no valid claim existed upon said land adverse to the claim of the said applicant, requesting them to answer if the plan suggested by the resolutions met their approval, and respectfully solicited their co-operation with our congressional delegation for the purposes therein indicated; which resolutions and communication will be found in the report of this office for the year eighteen hundred and sixty-three.

To this communication I had hoped to receive a reply before the departure for Washington of our congressional delegation in the fall of eighteen hundred and sixty-three, but neither before nor since that time has any reply been received.

Previous to the departure of the delegation at that time, I conferred with most of them on the subject, and promised to draw up a bill embodying the essential points of the resolutions, and forward it to them for presentation to Congress. Agreeably to such promises, and actuated by no other motive than to do equal and exact justice to all, as nearly as at this late day it could be done, I drew up, and forwarded to the delegation, the following bill:

“AN ACT to confirm to the State of California, and purchasers under her laws, selections of land made in part satisfaction of various Acts of donation by Congress.

“SECTION 1. Be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled, That it shall be the duty of the Secretary of the Interior to certify over to the State of California all lands, whether surveyed or unsurveyed—which have been sold by the State to purchasers in good faith—which have been selected by the authorized agents of said State in part satisfaction of the grant of five hundred thousand acres made by Act of Congress, approved September fourth, eighteen hundred and forty-one, for purposes of internal improvement; all lands, so located, as part of the grant of seventy-two sections, for the use of a seminary of learning, made by Act of Congress of March third, eighteen hundred and fifty-three; all lands so selected, as part of the ten sections granted by the last named Act, for the purpose of erecting the public buildings of the State of California; provided, the amount so certified to said State shall in no case

exceed the amount embraced in said grant; also, all lands selected in lieu of the sixteenth and thirty-sixth sections of any township in the State, where such sections were covered by private grants, reserved for public uses, or settled upon previous to such selections; *provided*, that at the time of such selection, the lands so selected by the State were unsold, unoccupied, and unimproved, except by the parties seeking to purchase of the State; and, *provided*, further, that no selection of land by the State Agents shall be confirmed upon which any valid pre-emption or homestead right existed at the date of such selection.

"SEC. 2. *And be it further enacted*, That immediately upon presentation, by the authorities of said State to the Register of the United States Land Office, of any list of lands within his district, selected as provided in section one of this Act, with the dates of selection, it shall be the duty of such Register to add his certificate, whether there is in his office any evidence of occupation, pre-emption, homestead, or other right acquired to such land, at the date of such selection; which certificate shall be deemed sufficient evidence upon which to certify over to the State all lands embraced in such lists upon which no such rights existed as aforesaid; and the Register shall be authorized to charge and collect of said State a fee of one dollar for examination of each location and certificate.

"SEC. 3. *And be it further enacted*, That whenever the proper authorities of the State of California shall furnish the Secretary of the Interior with lists of swamp and overflowed lands surveyed by authority of said State, with affidavits, taken before an officer qualified to administer oaths, of not less than two respectable witnesses, in the following form, or to the following effect, to wit:

"We, ———, residents of ———, in the vicinity of the lands hereinafter described, lying in the County of ———, State of California, being duly sworn, depose and say, that we are well acquainted with the mode and manner of surveying and marking the public lands; that we have made a personal examination, on the ground, of each of the several tracts hereinafter described, to wit: ——— and from such personal examination on the ground, have ascertained and know, and hereby make oath that the greater part of each one of the quarter-quarter sections of the foregoing tracts is swamp and overflowed land, made unfit thereby for cultivation, and is in fact unfit for cultivation without necessary drains and levees to reclaim the same; that they are made so by reason of the overflow of ———, in such manner that no crops could be raised thereon by reason of its overflowed and swampy condition; that they are not shallow lakes or ponds, which by natural causes may become dry, and that, to the best of our knowledge and belief, such was the character thereof on the twenty-eighth day of September, eighteen hundred and fifty, the day of the passage of the Act. And further, that we have no interest, direct or indirect, present or prospective, in the issue, or in any parcel of the land herein described, save and except ———.

"It shall be the duty of the Secretary of the Interior to certify over to the State all lands embraced in said lists, as part of the swamp and overflowed lands donated to said State by Act of Congress, approved September twenty-eighth, eighteen hundred and fifty; *provided*, that no lands shall be so certified to which any patent of the United States may have been issued at the date of the passage of this Act."

This draft of a bill was accompanied by the following letter, and subsequently the next letter upon the same subject was forwarded :

STATE OF CALIFORNIA, OFFICE OF THE SURVEYOR-GENERAL, }
Sacramento, January 5th, 1864. }

HON. JOHN CONNESS,
U. S. Senate, Washington, D. C. :

DEAR SIR :—In compliance with my promise made before your departure for Washington, I send you herewith inclosed a draft of a bill, which, if it can be passed in its present form, will protect all purchasers under the laws of our State, and at the same time will protect all homestead, pre-emption, or other rights which may have been acquired upon any of the public domain by actual settlers.

It will be very necessary to the success of any bill disposing of public lands, in my opinion, to first obtain the approval of the Land Office at Washington, and this, since it is careful to select only such lands as were unoccupied and unimproved at the time of selection, I have no doubt would meet their approval. The form of affidavit required by the bill to prove the character of the swamp lands, is the form which we have obtained in all the segregations now made, and can be furnished at a very short notice; in fact, I think Surveyor-General Beale has already forwarded them to the department.

If it is deemed necessary to add a section authorizing the Secretary of the Interior to appoint a Commissioner, to act in conjunction with one from the State, to determine if any selections have been improperly made, and in case of such improper selections, for the State to pay one dollar and twenty-five cents per acre for the land so improperly selected, you may add it.

The concurrent resolutions passed by the last Legislature seem to require such a clause, but, if not essential to the passage of the Act, it had better be omitted.

I will in a few days find leisure to explain more fully the bill.

With my best wishes for the success of the delegation in securing the passage of this bill,

I am, very truly, your obedient servant,

J. F. HOUGHTON,
Surveyor-General.

STATE OF CALIFORNIA, OFFICE OF SURVEYOR-GENERAL, }
Sacramento, March 28th, 1864. }

HON. JOHN CONNESS,
U. S. Senate, Washington, D. C. :

DEAR SIR :—I send you herewith inclosed, certified copy of Senate Concurrent Resolution Number Twenty-Three (23) on the subject of swamp lands which are claimed by State and United States.

I also send a copy of a letter of Commissioner Edmunds of the Land Office at Washington to the Register and Receiver of the United States Land Office at Stockton, dated January fourth, eighteen hundred and sixty-four, in which he asserts that the State has no rights in any swamp land until the same are reported as such by the United States Surveyor-General, and virtually instructs him to disregard a State patent for

swamp and overflowed lands, and to permit homestead filings upon such lands.

The constant stream of letters received at my office upon this subject from the persons interested in this class of lands is an index to the great interest which they feel in securing good and unimpeachable titles to their lands, and I am satisfied that no Act which can pass Congress affecting the interests of the citizens of this State would meet with more universal approbation than one which would give such titles to purchasers under the State laws. On the fifth day of January last, agreeably to my promise to the delegation, I framed and forwarded to your address such a bill as, in my judgment, would best tend to bring about such a result, and which at the same time I thought would meet with least objection at the General Land Office.

I have not heard of its receipt. If that bill can become a law, all disputed questions between the State and the United States in regard to lands already sold by the State are forever set at rest.

I desire in this connection that the attention of the Honorable Commissioner may be called to the decisions of our Supreme Court upon the question of the State title to the swamp and overflowed land, in order that he may see that we are honest in our opinions, even if, as he declares, we are wrong.

Our Court decides as follows, in the case of *Owens v. Jackson*, (9 Cal., page 322): "This State has the right to dispose of the swamp and overflowed lands granted to her by Act of Congress prior to the issuing of a patent by the United States so as to convey to the patentee a present right as against a trespasser." And in *Summers v. Dickinson*, (9 Cal., page 554.) that: "Immediately upon the passage of the Act of Congress of September twenty-eighth, eighteen hundred and fifty, this State became the owner, with absolute power of disposition, of all the swamp lands within her limits which had not been disposed of. The title of the State in no way depends upon a patent. The Act itself operates as a conveyance."

Under these decisions, which have been universally respected, you can readily see that persons who have purchased of the State will resist to the last extremity of the law any other title which may be obtained, and I ask in candor if the decision of the Honorable Commissioner will not tend to lead into trouble, strife, and litigation, any person who may endeavor to obtain title from the United States to lands which, nearly fourteen years since, were donated to the State?

I think it would be well in this connection to call the attention of the Honorable Secretary of the Interior to provisions of section two of the Act of donation, which makes it the duty of the Secretary of the Interior, *as soon as may be practicable after the passage of the Act*, to make out an accurate list and plats of said lands, and transmit the same to the Governors of the several States, and, at the request of the Governor, shall cause a patent to issue to the State for said lands. I presume the decisions of our Courts are based upon the well settled principle of common law, that the neglect or refusal of the Secretary would not deprive the State of the grant. Nearly fourteen years have elapsed since the passage of the Act of donation. Large quantities of these lands have been returned by the United States Deputy Surveyors as swamp and overflowed lands, and many years have elapsed since many of such returns were made, and yet not a single acre has been listed to the Governor of this State, as the Act requires.

Our Court holds that the words of the Act "shall be and the same

hereby are granted," made it an immediate present grant on the passage of the Act, and so decided in *Summers v. Dickinson*, before quoted.

In the year eighteen hundred and fifty-nine, H. A. Higley, as agent of the State, went to Washington to agree with the Commissioner of the General Land Office upon the testimony which the State would be required to furnish of the character of the land claimed by the State as swamp and overflowed, under the Act. After much correspondence on the subject, forms of affidavits were given by the Commissioner, requiring the affidavits of two respectable witnesses, the State Agent, and also the United States Deputy and his assistants who made the survey of the township in which the lands claimed were situated, and in case the affidavits of the United States Deputy or his assistants could not be procured, from any cause, the affidavit of the State Agent was to state the fact.

The State Agents went to work with the segregation surveys, carefully taking testimony of the character of the land at the date of the grant, but as there were but few townships containing swamp and overflowed lands which had been surveyed by the United States, the affidavits of the United States Deputy and his assistants could not of course be obtained, and the State Agents did not give any reason why, thinking that the United States Surveyor-General would know the fact that no United States survey had been made. These affidavits were properly forwarded to the General Land Office, and were all rejected, because the State Agent did not in his affidavit state why the United States Deputy did not make the affidavit, when no survey had ever been made by the United States.

Now, the State must be put to the expense of obtaining all these affidavits over again, unless the Commissioner will modify his decision in such a manner as to accept the affidavits as they are, in such townships as, at the time of obtaining them, no United States survey had been made.

The State, in asserting her rights to these lands under an absolute and present grant of Congress, must not be regarded as placing herself in an attitude hostile to the General Government, but simply as resisting and protesting against the decisions of a subordinate officer, whose decisions, without judicial force, are, as our own Supreme Court has shown, contrary to law, depriving us of our rights by placing himself in hostility to positive congressional enactments. The trouble is that our communications on this subject seldom or never reach headquarters. I doubt very much if the Secretary of the Interior is aware that a duty so plainly defined as his, under section two of the Act, has been so long neglected, and think if he could understand the difficulties which are daily arising from such neglect he would order the lists of all lands which have been returned to be made out and certified to the State.

The State waited five years after the donation for the lists before any law was passed providing for the sale of these lands.

The bill which I drafted and forwarded to you January fifth would, if it could become a law, obviate all difficulties, not only in this class of lands, but in all others; or any bill drawn in conformity with the resolutions passed by our Legislature April twenty-fourth, eighteen hundred and sixty-three, will cover all cases. In conclusion, allow me again to call the attention of yourself, and through you that of all our delegation in Congress, to the inclosed copy of the letter first referred to, and all other matters herein contained, and to say that I know of no measure particularly affecting the interests of our State which would merit and

receive more universal approbation than this which I have herein advocated for the settlement of land titles in this State.

I have the honor to be, sir, very respectfully,

Your obedient servant,

J. F. HOUGHTON,
Surveyor-General.

Upon the return of the delegation, I learned that owing to a press of other business, considered by them (erroneously, I think) of more importance, nothing had been done with the bill.

Renewed exertions will be made during the next session to secure the passage of this or some other bill, which, if successful, will bring joy to the homes of the nine thousand purchasers of lands under the State laws, who have paid their money, improved their lands, and anxiously and patiently awaited the full and perfect title which the State for the past twelve years has promised them. At this late day it would be a miracle if any bill could be framed which should do equal and exact justice to all; but I respectfully submit that there is greater injustice in permitting the titles of nine thousand pioneer purchasers, loyal American citizens, to remain in an imperfect and inchoate state, subject to attack, a fruitful source of litigation and consequent distress and poverty, for the convenience of a hundred or so contestants, coming subsequently, than there is in any Act which, with an apparent attempt at justice, settles forever the title to such lands.

It has been suggested by leading journalists that the greatest drawback to an increase of population, and consequent material prosperity, of all the interior portion of our State, is the uncertainty and insecurity of land titles; if, indeed, a positive falling off has not been the result.

To a great extent this is true. There is nothing which tends in an equal degree to attach a man to the place in which he lives as a proprietary interest in the soil on which he treads; something immovable and fixed, which he owns, and where he is at home; and I know of no service which our congressional delegation can render the people of this State which would be more fully and universally appreciated than that which would settle the land titles of the State in the manner suggested.

STATE LAND LAWS.

In view of the fact that the Commissioner of the General Land Office did not recognize the right of the State to select unsurveyed school lands, and with a desire that the difficulty might not be further increased until some method of adjustment had been arrived at, I drew up, and caused to be presented to the Legislature at its last session, a bill, which became a law, suspending the sale of unsurveyed lands in lieu of sixteenth and thirty-sixth sections, and immediately upon its passage issued instructions as required by the Act, to the State agents to receive no new applications for such lands, but permitting such applications as had been formally accepted by them to be perfected. The effect of this law will be very

beneficial. The only class of unsurveyed upland which can now be purchased of the State under any of its laws, is a portion of the five hundred thousand acre grant by location of school land warrants.

At the time of the sale of these warrants by the State, they were permitted to be located by the owners upon any public land, whether surveyed or unsurveyed, and it was argued that it would be an act of injustice for the State to dispose of these warrants, saying to the purchaser, "you may locate them either upon surveyed or unsurveyed public land," and afterward to take away or impair that privilege.

Not wishing to jeopardize the passage of the bill in relation to lieu lands, in which the greater part of the difficulty arose, the location of school land warrants upon unsurveyed lands was not suspended.

I desire again to call your attention to the subject of the State laws in regard to the sale of salt marsh and tide lands within five miles of the Cities of San Francisco and Oakland, and within one mile and a half of the State Prison, which was referred to in my letter of June second, accompanying the certificate of the State Register for a patent to be issued to Albert Lusk for a tract of such land within the five mile limit of the City of Oakland.

By a casual or a careless reading of the statutes upon this subject, it would appear that all such lands were exempted from sale: but by a careful reading it appears that such is not the case, and that the laws providing for their sale stand upon the statute book unrepealed.

If the State desires to reserve from sale what there may be remaining of these lands, an immediate repeal of the statutes referred to is necessary. My attention was first called to this matter by receiving from the County Surveyors of Alameda and San Francisco surveys of such lands for applicants to purchase them, and by demand of the attorney of Mr. A. Lusk, one of the applicants, for a certificate of purchase.

This certificate of purchase I refused to issue except upon the opinion of the Attorney-General, which opinion the attorney for Mr. Lusk obtained, and the certificate issued; and upon full payment the certificate for a patent, before referred to, was also issued.

The views contained in this opinion of the Attorney-General were sustained by the Honorable Judge Southard, of the District Court for the Seventh Judicial District, in the case of *The State v. Simms*, a suit brought by the State to set aside a patent issued under the same statutes for tide lands within one mile and a half of the State Prison, which suit was decided against the State.

Regarding these cases as sufficiently indicative of my duties, all similar cases have been treated in a similar manner to that of Mr. Lusk.

COUNTY BOUNDARIES.

For many years past a controversy has been going on between the Counties of Sacramento and El Dorado—sometimes appearing in the Courts—in regard to the starting point upon the South Fork of the American River of the boundary between the two counties.

Upon application of the Board of Supervisors of El Dorado, and with notice to the Board of Sacramento County, this point has during the past summer been definitely established.

In order that the opinion of the Surveyor-General in this case may be used as a precedent by County Surveyors, when called upon to run county boundaries in cases where a similar wording of the statute occurs, it is herewith submitted :

STATE OF CALIFORNIA, SURVEYOR-GENERAL'S OFFICE, }
Sacramento, March 14th, 1864. }

In the matter of the application of the honorable Board of Supervisors of El Dorado County for a survey of that portion of the boundary line between said county and the County of Sacramento, so as to define and mark the point, on the South Fork of the American River, in dispute between said counties, and described in the Act of March thirtieth, eighteen hundred and fifty-seven, as follows :

"Thence up the middle of the principal channel of the South Fork to a point one mile above the head of Mormon Island, so as to include Mormon Island in Sacramento County."

The Supervisors of the County of El Dorado, by their attorney, J. J. Williams, contending that the point one mile above the head of Mormon Island should be determined by measurement of the *meanders of the river* a distance of one mile ; and the Supervisors of the County of Sacramento, by their attorney, H. H. Hartley, contending that the point should be established by running *a direct line* in such a manner as to strike the river one mile distant.

The fourteenth day of March, instant, was set for a decision upon briefs to be filed by both parties with the Surveyor-General. Briefs were filed by both parties, and, after careful examination and consideration of all the authorities therein referred to, the Surveyor-General is of opinion that the principles and rules laid down in the case of Banta's Heirs vs. Calhoon, in the Kentucky Court of Appeals, (2 A. K. Marshall, p. 291,) have a more direct bearing upon the points in controversy in this case than any other authority cited.

In that case the question occurs on the validity of an entry of land, which reads as follows :

"Sixteenth December, seventeen hundred and eighty-two, Josiah Watson enters one thousand two hundred acres of land, on a branch of Brashears's Creek, beginning half a mile below a *lick* known by the name of *Cany Lick*, and running up the west side of the creek about half a mile above the lick, then turning an east course across the creek for quantity.

"Also, one thousand two hundred acres, beginning at the north corner of the west line of his last entry, and running up the west side of the creek about one and a half miles, then turning an east course across the creek for quantity."

Also, another entry bounding upon and referring to the last entry.

In this case, the Honorable Judge Owsley, delivering the opinion of the Court, says :

"The first entry in the chain of entries should begin on the west bank of the creek, one half mile below the lick, and from thence extended up the west side of the creek, with its meanders, to a point one half mile above the lick, on a direct line, and from thence an east course for quantity. The second entry should begin at the half mile point on the

creek above the lick, and extend up the creek, with the meanders, on the west side *one mile and a half when reduced to a straight line*, and thence east for quantity."

The Surveyor-General therefore decides that the principles enunciated by the Honorable Court in deciding the above case, should govern in the case in controversy, and that the point in dispute should be located in the middle of the principal channel of the South Fork of the American River, distant one mile in a direct line from the head of Mormon Island, the middle of said principal channel being the boundary line of the counties between the points referred to.

By an Act of the Legislature, approved April first, eighteen hundred and sixty-four, the boundaries of Sutter County were defined, and upon application of the Board of Supervisors, that part of the new line dividing Sutter from the Counties of Sacramento and Placer has been run and marked with enduring monuments. The rules laid down in the above decision were also applied to this survey.

Maps and field notes of the above named surveys are on file in this office.

Information has reached the office of a survey by the County Surveyor of Stanislaus of the line between that and Tuolumne County, and of one or two other surveys in different parts of the State, but no plats or field notes relative to them have been received.

In the various reports of this office, complaints made by the Assessors of several counties in regard to indefinite boundary lines, by reason of which many persons contrive to escape taxation, have been noticed; the suggestions contained in such reports are here renewed.

After the adjournment of the Legislature at its last session, my attention was called to the fact that in the creation of the Counties of Alpine and Mono a considerable tract of land had been separated from the principal portion of Amador County, and had not been attached to either of the above named counties.

The following letter explains the whole matter:

STATE OF CALIFORNIA, OFFICE OF SURVEYOR-GENERAL, }
Sacramento, August 2d, 1864. }

To the Honorable BOARD OF SUPERVISORS,
Amador county:

GENTLEMEN:—By a careful reading of the original Act defining the boundaries of your county, and of the Acts creating the Counties of Mono and Alpine, you will see that all that portion of your county as originally defined lying east of the Sierra Nevadas and east of the ridge dividing the waters of the East Carson and West Walker Rivers is still in your county.

In this district is embraced Antelope Valley, part of Hundred Spring Valley near an alkali lake, and many ranches on the West Walker.

The property holders in these localities very properly claim to be neither in Alpine or Mono, and will escape taxation unless taxed in your county.

Will you please attend to it and notify your Assessor?

I am, gentlemen, very truly,

Your obedient servant,

J. F. HOUGHTON,
Surveyor-General.

This territory should be joined either to Mono or Alpine at the next session of the Legislature. I desire to call your attention to the report of the Assessor of Tehama County, recommending that a small fraction of Plumas County, which he says escapes taxation for want of knowledge of lines, should be joined to Lassen or Tehama. If the Assessor of Plumas attends to his duties, I cannot see the force of the suggestion.

SWAMP AND OVERFLOWED LANDS.

By reference to the table showing the amount of this class of lands applied for during the past year, it will be seen that in seasons of extreme drought, like the past, it is in high favor. The opinion which has been previously expressed in the reports of this office of the value of this land for the production of the cereals, has been more than sustained in every instance where trials have been made. During the past season, crops of wheat and barley have been raised upon the swamp lands near the mouths of the Sacramento and San Joaquin Rivers, by persons with whom I am personally acquainted, and whose statements are entitled to full credit, and they report to me that they have raised crops of seventy, eighty, and in one case, one hundred, bushels to the acre, and this in some cases with much less labor than is required upon upland; the process of cultivation after reclamation being, first, to burn the sod to a depth of four, six, or eight inches, during the dry season, then sowing the seed and brushing it in with a brush drag, no plowing being required, after which it requires nothing more until harvest.

They report to me that barley does much better than wheat, the latter being liable to rust. Upon these lands there have been cut large amounts of hay, which, although not equal in quality to the wild oat hay of the upland, furnishes a very good substitute in years like this of extreme scarcity, and in many counties, total failure of the oat hay crop, and without it this product would have been entirely inadequate in quantity to the wants of the State.

When we add to this the fact that a larger portion of the horned stock of the central portion of the State, and many of the largest and best flocks of sheep, have been driven to it for subsistence, its value will be appreciated.

That it is practicable to raise upon it tobacco, rice, and many other crops which have not yet been tried, I have but little doubt, and the State will hail with pleasure the accounts of the first successful experiments in these or other untried products.

STATE LAND FUNDS.

The condition, in the State Treasury, of the several funds arising from the sale of State lands, and the causes from which this condition arose, has been fully treated in the reports of this office for the past two years.

Since the Act of April twenty-seventh, eighteen hundred and sixty-three, commonly known as the General Land Act, went into effect, no County Treasurer can pay one dollar into the State Treasury from the sale of any State lands, except upon the certificate of the Register of the State Land Office that such payment is properly reported; and the consequence is, that since that time no errors can have occurred. As is shown by the report of this office for eighteen hundred and sixty-two, the several funds up to that time were in a confused condition, which can only be remedied by the suggestions contained in the reports of eighteen hundred and sixty-two and eighteen hundred and sixty-three, which suggestions are here renewed.

EASTERN BOUNDARY SURVEY.

By an Act of the Legislature, approved April fourth, eighteen hundred and sixty-four, the survey of the eastern boundary of the State was discontinued, and the Surveyor-General was directed to advertise and sell, within twenty days, at public auction, to the highest bidder, for gold or silver coin, all animals, equipments, and fixtures, (with the exception of instruments,) remaining on hand from said survey.

He was further directed, within six months from the passage of said Act, to erect or cause to be erected such additional monuments as were actually necessary, and to mark with suitable monuments the termination of said line near the White Mountains in such manner as to enable the survey to be continued at some future time.

Agreeably to the provisions of this Act, an advertisement was published in the Sacramento Daily Union for the time prescribed, and on the twenty-third day of April were sold, at public auction, all said animals, equipments, and fixtures; from which sale the net sum of one thousand eight hundred and thirty-three dollars and fifty cents was realized and paid into the State Treasury, the instruments purchased being reserved in this office.

On the seventeenth day of May I addressed a letter to John F. Kidder, Esq., then at Ione City, Nevada Territory, who had from the commencement been associated with me in the survey as engineer in charge of party, directing him, as soon as possible after the receipt of my letter, to proceed to the point where the survey was suspended last year and mark the line as required by the Act, and to run connecting lines to the adobe house in the Adobe Meadows. This service was faithfully performed by him, as will be seen by the following report and field notes, at an expense to the State of six hundred and sixty-one dollars.

IONE CITY, N. T., June 14, 1864.

HON. J. F. HOUGHTON,

Surveyor-General, Sacramento, California :

SIR:—I have the honor to submit the following report of work done in connection with the survey of the eastern boundary of the State of California.

In accordance with communication of May seventeenth, containing directions from you that I should organize a party and proceed to the

lower end of the line as established last year, and mark exactly, by drilling two small holes in the rock and erecting over them monuments of stone, two points on the line sufficiently far apart to form a suitable base from which to resume operations at some future time, and likewise to run a connecting line to house in Adobe Meadows, etc., I proceeded, and on the twenty-eighth day of May I started from this place directly to the point, the White Mountains being distinctly visible, and there being apparently a succession of lower passes through the mountain ranges on the course necessary for us to travel.

The first day everything worked favorably and we camped at night at a spring some sixteen miles from here, having started at noon. The next day we were in the saddle by four o'clock, A. M., and rode until three o'clock, P. M., over a desert of mountain and plain, without any show of water—not even an Indian trail or footprint of any description did we cross—when I felt satisfied that to proceed was mere foolhardiness, and returned to the spring, arriving at half-past ten, P. M.

The next day we went to the Hot Springs on the Wellington road, far off of our own course, and there learned that there was a spring on the mountain twenty-eight miles south of there, to which we went on the third day.

On the fourth day we got an early start, descended the mountain and rode some thirty miles without finding any sign of water, and returned to camp, arriving there after midnight with our animals badly used up.

We deemed it best to stay there one day and let our animals recruit, and on the sixth day we made another attempt, and after riding some forty miles in a course varying a little to the left of our former one, we struck an Indian trail and arrived at an alkali spring.

On the seventh day we arrived at an alkali spring at noon, and at night camped on the top of a mountain near a mud puddle formed by a smart shower, where there was good bunch grass; at night it rained continually, making it excessively uncomfortable for all hands, but in the morning there was no water in sight, the pool of the preceding evening having soaked completely away; at noon, however, we arrived at a small spring, and late in the evening camped upon the old Indian camping ground, the scene of the treaty with Joaquin Jim.

In the morning we were visited by several Indians "heap hungry," very glad to see us, remembered us perfectly, said "Capt. Tom" was only two miles from there, etc. We were by this time almost completely out of provision, so we hurried to the point where we left the line last fall, found the last two points completely undisturbed, and as they came upon solid rock, thought it best to drill holes at those points.

Upon measuring the distance carefully between those points we found that there had been an error made last fall, and that the distance was actually thirty-seven chains forty-four links, instead of thirty-five chains seventy-one links, as given in the printed report. After concluding our work at those points, which I can assure you was exactly in accordance with instructions, we ran line to the adobe house at the Meadows; arriving at that point we were unable to procure provision, and the next day went to Aurora, stopping there over night, and returning to this place by Indian trail, crossing the desert near the south end of Walker Lake, and arriving here on the twelfth of June instant, having been absent just fifteen days. I was accompanied on this trip by Mr. James

S. Lawson, assistant on the survey of the boundary line, who performed the work with me, and who will vouch for the accuracy of the same.

I submit with this a copy of the field notes.

I have the honor to remain, very respectfully,

Your obedient servant,

JOHN F. KIDDER, C. E.

FIELD NOTES

Of Survey made June 6th, 1864, to permanently designate points on Eastern Boundary Survey of the State of California.

At one hundred and one miles forty-four chains and seventy-seven links found stake and point, as designated in report of boundary survey; drilled hole one half inch in diameter and four inches deep, two links in advance of stake, directly on boundary line; hole drilled in solid rock forming portion of monument; said monument built five feet high, with base eight feet in diameter; from which a nut pine tree, fifteen inches in diameter, (double tree,) south part, bears south, sixty and one half degrees west, one hundred and thirteen links distant, blazed facing monument; also, a nut pine tree, twelve inches in diameter, bears south, eighty-two degrees east, seventy-two links distant.

From which hole drilled in rock, measured south forty-eight degrees six minutes east, on boundary line, thirty-seven chains forty-four links; and drilled hole in solid rock, one half inch in diameter, and four inches deep; left drill in hole, and built monument of stone four feet high; said monument stands on the northwest edge of a bluff of rocks. Magnetic variation at this point, nineteen degrees east.

From which last hole drilled, a nut pine tree, twenty inches in diameter, bears south, sixty-seven degrees twenty minutes east, fifty-five links distant.

From hole first mentioned, viz: at point one hundred and one miles forty-four chains and seventy-seven links, ran south, fifty-three degrees fifty minutes west, magnetic variation sixteen degrees east, over rolling hills covered with piñon or pine nut trees. One mile forty-eight chains, leave hills and enter Adobe Meadows. Three miles sixty-six chains, alkali lake, course northwest and southeast. Three miles sixty-seven chains twenty-five links, leave lake. Six miles sixty-three chains seventy-three links, northeast corner of adobe house in Adobe Meadows.

JOHN F. KIDDER, Engineer.

On the fifteenth day of August I, having previously corresponded with him upon the subject, wrote to E. R. Nichols, Esq., County Surveyor of Lassen County, who was with the party upon a considerable portion of the line to Oregon, directing him to have cut three stone monuments, six feet in length, four feet of which was to be dressed eight inches square at base, tapering to six inches square at top, with the initials C and N cut upon opposite sides, and to set them at the following points: One at the crossing of the Henness Pass Road, near Bull's Station; one near the Antelope Ranch, and one near John Robinson's, in Long Valley; and, subsequently, learning that the appropriation would permit it, I ordered one to be set at the crossing of the Humboldt Road, near Rush Creek

Station, and one in the southeastern part of Honey Lake Valley, near Coral Rock Springs.

These five monuments were cut ten inches square at the base, instead of eight, as directed, in order to bear transportation, and Mr. Nichols reports them all set at the points indicated for a total cost of two hundred and ninety-five dollars (\$295.)

The field notes of this work, I regret to say, have not reached this office; but as directions were given him to set them, as near as possible, to the temporary monuments at the points named, which are located in the first report of the progress of the work, I apprehend that no difficulty will be experienced in finding them from the description therein contained. Should they be received they will be attached to this report.

The amount permitted to be expended in marking the line was limited by the Act suspending the further survey of the line to one thousand dollars (\$1,000,) of which the work before referred to had exhausted nine hundred and fifty-six dollars (\$956,) and the stone monuments cut and distributed in Lake Valley last year had not been set.

Under the circumstances I addressed a communication to Butler Ives, Esq., the Commissioner on the part of the Territory of Nevada, stating the fact that there was but forty-four dollars (\$44) remaining in the fund for that purpose, and requesting him, as a special favor, to set the monuments for that sum, as I desired to present no bill for deficiency.

The State is under obligations to him for accepting my proposition, and for the faithful performance of this duty, as the following description of the work performed will testify:

DESCRIPTION OF THE CUT STONE MONUMENTS

Established in Lake Valley, on the Boundary Line between California and Nevada Territory.

At thirty-seven chains on the seventeenth mile north from the initial point in Lake Bigler, and in the place of the cedar post set on the north shore of the lake, at the time of the boundary survey, set a monument of Sienitic granite, four feet and eight inches long, with a shaft three feet above ground, dressed ten inches square at base, and eight inches square at top, marked "Cal." on west, "Nev." on east, and "1863" on south side.

On the southern portion of the line, at thirty-two chains and sixty links on the fifth mile from the initial point in Lake Bigler, and in the place of the pine post set on the south side of the lake, set a monument of Sienitic granite, five and a half feet long, with a shaft three and a half feet above ground, dressed ten inches square at base, and eight inches square at top, marked "Cal." on west, "Nev." on east, and "1863" on south side.

At fifty-two chains and fifty links on the fifth mile, on the south side of the road leading from Lapham's Station to the Lake House, and ninety links from the wooden monument erected at time of survey, set a monument of Sienitic granite, six feet long, with a shaft four feet above ground, dressed ten and a half inches square at base, and nine inches square at top, marked "California" on west, "Nevada" on east, and "1863" on south side.

At seventy-three chains and forty links on the fifth mile, two chains and eighty links from the pine post set at time of survey, set a monument of Sienitic granite, six feet long, with a shaft four feet above

ground, dressed ten and a half inches square at base, and nine inches square at top, marked "California" on west, "Nevada" on east, and "1863" on south side.

BUTLER IVES.

EXPENSES OF SURVEY.

The total cost of the survey to the State, as will be shown by the annexed exhibit, is twenty-three thousand and sixty-five dollars and seventy-cents.

Amount of appropriation.....		\$25,000 00
Amount remaining in Treasury.....	\$1,372 30	
Value of instruments on hand.....	562 00	
		1,934 30
		\$23,065 70

EXPENDITURE

Of Five Thousand Dollars placed in hands of Surveyor-General for Contingent Expenses of Survey.

Amount of appropriation.....		\$5,000 00
To which is to be added bill of Rockwell, Coye & Co., twice paid by mistake and returned to me.....		76 00
Expenditures accounted for in last report.....	\$3,800 80	
<i>Since, expended as follows:</i>		
John F. Kidder, feed for train for November, 1863,	70 00	
John F. Kidder, salary for February, 1864.....	350 00	
A. D. Rightmire, bill for stabling.....	32 50	
Rockwell, Coye & Co.'s bill.....	14 25	
Balance unexpended—paid to State Treasurer.....	808 45	
	\$5,076 00	\$5,076 00

STATE LANDS.

The amount of land which has become the property of the State under the various grants is as follows:

Description.	Acres.
Grant of sixteenth and thirty-second sections, about.....	6,755,000
Grant of swamp and overflowed lands, about.....	1,500,000
Grant for internal improvements.....	500,000
Grant for a seminary of learning.....	46,080
Grant for public buildings.....	6,400
	8,807,480
Grant for an Agricultural College.....	150,000
	8,957,480

To this amount must be added the salt marsh and tide lands belonging to the State by virtue of her sovereignty, but their quantity cannot, for obvious reasons, be known.

Up to the date of the present report, these lands have been disposed of as follows:

SCHOOL LANDS.

GRANT OF FIVE HUNDRED THOUSAND ACRES.

How sold.	Acres.
By school land warrants issued prior to the Act of April 28, 1858.....	237,760.00
For cash since that time.....	261,197.83
Total.....	498,957.83

Leaving a balance of one thousand and forty two and seventeen one-hundredths acres, which is reserved as a margin to correct errors in the final adjustment of the grant.

There have been no relocations of any of these lands since the date of the last report.

GRANT OF SIXTEENTH AND THIRTY-SIXTH SECTION.

Amount located upon Sixteenth and Thirty-Sixth Sections proper.

District.		Acres.
Stockton, surveyed..	21,154.73	26,534.73
Stockton, unsurveyed.....	5,280.00	
Marysville, surveyed.....	21,386.73	24,983.73
Marysville, unsurveyed.....	3,597.00	
Humboldt, surveyed.....	3,630.46	4,870.46
Humboldt, unsurveyed.....	1,240.00	
San Francisco, surveyed.....	4,240.00	15,860.00
San Francisco, unsurveyed.....	11,620.00	
Visalia, surveyed.....		5,939.10
Los Angeles, unsurveyed.....		200.00
		78,388.02
Locations unapproved in above districts.....		4,160.00
Total located.....		82,548.02

The amount of sales of these lands by the Boards of Supervisors, under the Act of April twenty-sixth, eighteen hundred and fifty-eight, so far as they have been reported to this office, is eighteen thousand seven hundred and twenty acres.

LANDS TAKEN IN LIEU OF THE SIXTEENTH AND THIRTY-SIXTH SECTIONS
RESERVED OR DISPOSED OF BY THE UNITED STATES.

Districts.		Acres.
Stockton, surveyed.....	19,140.00	53,312.92
Stockton, unsurveyed	34,172.92	
Marysville, surveyed	32,894.61	38,343.11
Marysville, unsurveyed	5,448.50	
Humboldt, surveyed.....	10,533.64	18,133.64
Humboldt, unsurveyed	7,600.00	
San Francisco, surveyed	26,340.00	206,120.00
San Francisco, unsurveyed.....	179,780.00	

Visalia, surveyed	80.00
Los Angeles, unsurveyed	6,228.40
Locations unapproved in the above named districts	9,860.00
Total	332,078.07

Adding the preceding amount of land located upon the sixteenth and thirty-sixth sections proper, the total amount located under this grant through the Surveyor-General's office is four hundred and fourteen thousand six hundred and twenty-six and nine one-hundredths acres.

The amount relocated during the past year is one thousand four hundred and forty acres.

SEMINARY LANDS.

GRANT OF SEVENTY-TWO SECTIONS.

Locations.	Acres.
Amount of grant.....	46,080.00
Total located at date of last report..... 42,526.82	
Total located since date of last report..... 1,439.00	
	43,965.82
Balance unsold.....	2,114.18

The amount relocated is three hundred and twenty acres.

PUBLIC BUILDING LANDS.

GRANT OF TEN SECTIONS.

Locations.	Acres.
Amount of grant.....	6,400.00
Total located at date of last report..... 5,618.02	
Total located since.....	
	5,618.02
Balance unsold.....	781.98

The amount relocated is one hundred and sixty acres, making the total unsold nine hundred and forty-one and ninety-eight one-hundredths acres.

STATE SCHOOL LAND WARRANTS.

LOCATED UNDER THE ACT OF APRIL 23d, 1858.

Locations.	Acres.
Located at date of last report.....	22,412.00
Located since date of last report.....	160.00
	22,572.00

Under this head should be included the locations of warrants not approved by the Surveyor-General. These amount to a total of six thousand seven hundred and twenty acres, of which five thousand one hundred and twenty acres are within the limits of the City and County of San Francisco. Legal protest has been entered against the approval of all of these locations, and a case referred to one of the District Courts. No approval can now be given except upon a decree of the Court so referring.

STATE SCHOOL LAND WARRANTS.

Located upon unsurveyed lands under Act of April 18th, 1859.

Location.	Acres.
Located at date of last report.....	61,600.00
Located since date of last report.....	3,600.00
Total amount located	65,200.00
Deduct amount floated.....	6,240.00
Total located at date of this report.....	58,960.00

The amount floated embraces some cases in which title had been issued and the original warrants cancelled before the float was made. Under the provisions of the twenty-sixth section of the Act of April twenty-seventh, eighteen hundred and sixty-three, the Register of the State Land Office issued his certificates for duplicates of four warrants for

three hundred and twenty acres each, and four for one hundred and sixty acres each, which duplicates were issued by the Governor, and have been delivered to the owners.

SWAMP AND OVERFLOWED LANDS.

Sales.	Acres.
Sold at date of last report.....	687,768.42
Sold since date of last report.....	65,937.21
Total to date of present report.....	753,705.63
Sold during past year.....	65,937.21
Applied for, but not approved.....	12,926.00
Total taken up during the year.....	78,863.21
Resurveys of forfeited claims.....	15,078.65
Original surveys.....	63,784.56

SALT MARSH AND TIDE LANDS.

Sales.	Acres.
Sold at date of last report.....	3,732.04
Sold since date of last report.....	8,866.20
Total sold.....	12,598.24

Under the provisions of the nineteenth section of the Act of April twenty-seventh, eighteen hundred and sixty-three, certificates of transfer have been issued to locators of lands which have since proved to be not the property of the State. The amount of these issued up to the date of this report is as follows :

On account of unsurveyed sixteenth and thirty-sixth sections	\$2,516 00
On account of swamp and overflowed lands.....	1,676 90

Some portion of the last has already been received by County Treasurers for purchases of lands of the same class.

The Act of eighteen hundred and sixty-three makes it the duty of the Register to publish lists of such purchasers of State lands upon a credit as are thirty days in arrear for interest, preparatory to bringing suits to annul their certificates of purchase; but there being no appropriation out of which the expense of advertising can be defrayed, no such lists have, until recently, been made out. In June last, one was prepared of the delinquent purchasers of swamp and overflowed lands in Sacramento County, the District Attorney having arranged for its publication. A similar list for Tulare County was published by the parties having charge of the improvement now going on under authority of the Act of March fifteenth, eighteen hundred and sixty-four. At the request of the Board of Swamp Land Commissioners, who will provide for the publication, lists have been already made up for the Counties of Yolo and Solano, and that for San Joaquin is nearly completed. The lists named, although embracing but a portion, and not a very large one, of the cases of default, contain nearly nine hundred names, and as they give in each case the numbers of the survey, and the certificate of purchase, the name of the purchaser, a full description of the land, the amount due, and the number of years default, the preparation and publication involve much labor and expense; and it is much to be desired that at the next session of the Legislature some less cumbrous and more effective form of notice may be legalized.

STATEMENT

Of the Expenditure of all Appropriations (other than salaries) for the Offices of the Surveyor-General and Register, from the 1st of December, 1863, to the 1st of November, 1864.

For What Purpose Expended.	Amount.
Office rent.....	\$605 00
Postage and expressage.....	310 20
Binding books, and contingents.....	189 87
Purchase of maps and plats.....	98 00
Total	\$1,203 07

J. F. HOUGHTON,
Surveyor-General, and Register State Land Office.

Sworn to and subscribed before me, this twenty-eighth day of November, A. D., eighteen hundred and sixty-four.

[SEAL.]

SAMUEL CROSS,
Notary Public, Sacramento County, Cal.

* No report from County Assessor. Valuation for this year taken from Controller's Report made up since the subsequent assessment, and the comparison with the former years, gives an excess of increased value.

APPENDIX.

REPORTS OF COUNTY ASSESSORS.

COLUSA COUNTY.

E. McDANIEL.....County Assessor.

ASSESSOR'S OFFICE,
Colusa, September 26th, 1864. }

Hon. J. F. HOUGHTON,
Surveyor-General:

SIR:—Herewith I submit my report as County Assessor of Colusa County for the year A. D. eighteen hundred and sixty-four.

It has been almost a matter of impossibility for me to obtain a correct statement of the agricultural interest of the county this year, or a correct statistical report, on account of the extreme drought in this county. It was nearly impossible to find a man at home on his ranch this season; they were all on the hunt for their stock; feed was failing, and they were obliged to move them to localities where it was more abundant. There was not feed enough in this county to keep the stock till June; consequently, it has nearly all left the county, and if it does not return in the spring, our assessment will be smaller next year than it ever was in this county before. You will see from the report that I assessed about all the stock before it got out of the county. You will see there is not much difference from last year. There have been no improvements since last year, in this county, and there will be none this year.

I do not think the people will be able to more than pay their taxes and buy their seed and feed this year, without making any improvements; there are very few farmers in the county who raised seed and feed; I do not think there was more than twenty thousand bushels of grain threshed in the county this year. All the soil in the county is susceptible of the highest cultivation, and all that is wanting to make this one of the best agricultural counties in the State is irrigation; and I think that is a matter of great importance, and one which the people of this great Sacramento Valley should look to hereafter for their

own good and that of the State. There has been a great deal said about irrigating this valley, and I think there might be great improvements made in it. There are multiplied thousands of acres of the best quality of land in this county lying waste for want of irrigation, and the land all lies so that it can be irrigated from some creek or river. There is a large strip of Colusa County, about thirty miles long and from five to twelve miles wide, lying between the Sacramento River and Butte Creek, that contains some of the best land in the county, and there are scarcely one hundred and sixty acres but what could be easily irrigated, either from the creek or the river; and on the west side of the Sacramento River is some of the best farming and grazing land in the State, which might be irrigated either from Stony Creek or the Sacramento River. And all the land of this large section of country might be made worth from five to ten dollars per acre if it had irrigating privileges.

There is not much of this county that can boast of timber land, although we have some that is very good in some portions of the county. On each side of the Sacramento River there is a strip of timber from one to two miles wide that might be called tolerably good; and on the extreme western border of the county there is some of the best of timber, such as pine and cedar. There is one sawmill in that portion of the county which cuts considerable lumber, but I could not ascertain the amount cut annually.

There is not much mining done in this county yet; but we think we will have one of the richest copper mining counties in the State when we get our mines thoroughly opened. There is a large strip of this county, some forty or fifty miles in length, in which rich copper ore has been found, and there have been thirty or thirty-five companies incorporated, and are at work taking out some very rich ore. I think the richest copper ore I ever saw came from these mines; and from the present prospect, I think Colusa County will have the richest copper mines in the State when they are properly opened.

In relation to the swamp and overflowed land, I cannot say much about it this season; the land is all dry, or nearly so. There is some land in the southern part of the county called swamp land, which is very good, and, I presume, has all been surveyed. The County Surveyor's report will give you more information in regard to it than I can.

Sir, I subscribe myself yours, truly,

E. McDANIEL,
County Assessor of Colusa County.

BUTTE COUNTY.

J. D. GIVENS.....County Assessor.

ASSESSOR'S OFFICE,
Oroville, October 12th, 1864. }

Hon. J. F. HOUGHTON,
Surveyor-General:

SIR:—I herewith inclose statement of agricultural and other statistics of Butte County, compiled from the assessment books for the year

eighteen hundred and sixty-four; as also an abstract of the assessed value of real and personal property, with the amount of taxes levied thereon.

Farmers, generally speaking, have not reaped over half a crop, owing to the dry season. The several branches of industry, to wit: agriculture, mercantile, and mining, appear to be in a prosperous condition.

Fruit growing increases gradually every year; the facilities for the cultivation of the grape vine in this county, in many localities, are good, and some of the different classes are as good as any raised in the State.

The mercantile business in this county is in a prosperous condition, and the trade with Oroville is still progressing; and, as we have a railroad completed to Oroville, connecting with tide-water, we have no doubt of future prosperity.

Within the last year we have had considerable improvements made in the county, in good buildings, the most of which have been in the Towns of Oroville and Chico.

The principal seats of mining enterprise are at Thompson's Flat and Cherokee Flat. In quartz there are but few claims being worked with success.

The number of miles of boundary necessary to be run is about twelve, being the line between Butte and Colusa counties.

Of electro-magnetic telegraph we have but one, length about fifty-four miles, valued at three thousand dollars.

We have thirteen miles of railroad in this county, valued at one hundred thousand dollars.

Of the timber in the county the greater portion is cedar and pine; oak is to be found in the valleys.

The assessment the present year you will see has been decreased since eighteen hundred and sixty-three, owing to a great deal of stock being driven to other counties by the passage of a fence law by the last Legislature.

I am, sir, yours, very respectfully,

J. D. GIVENS,

Assessor Butte County.

CONTRA COSTA COUNTY.

PHILIP SAGE County Assessor.

PACHECO, Contra Costa County, }
October 7th, 1864. }

Hon. J. F. HOUGHTON,
Surveyor-General:

SIR:—Inclosed please find my statistical report of this county for the year eighteen hundred and sixty-four. There has been a great loss of stock of all kinds in this county the past year, on account of the prevailing drought. Also the grain crop for this year is not more than one fourth the usual crop in ordinary seasons. The coal interest in this county is one of our most important interests, the relative importance of which for the State, in a manufacturing and commercial point of view,

are of the greatest importance. The coal field of this county is about twenty miles in length by one mile in breadth. There are at the present time five companies engaged in extracting the coal, who shipped last year about seventy thousand tons—which will be largely increased this year. And there are three more companies that have reached the coal, and are preparing to take out coal and ship it. You will observe that there is a marked increase in the value of property in this county, which may in good part be attributed to the development of our coal fields.

I shall make a supplemental assessment for this county, which I will transmit to you as soon as the same shall be equalized by the Board of Equalization.

Yours, very truly,

PHILIP SAGE,
Assessor of Contra Costa County.

DEL NORTE COUNTY.

GEO. W. RUSSELL.....County Assessor.

OFFICE COUNTY ASSESSOR, }
Crescent City, Del Norte County, August 6th, 1864. }

Hon. J. F. HOUGHTON,
Surveyor-General:

SIR:—Herewith I forward you my report as Assessor of Del Norte County for the year eighteen hundred and sixty-four. My report is as full as I could possibly make it, owing to the difficulty of obtaining the information required, and have given you such figures as can be relied upon. Our assessment list shows a slight increase over the figures of last year, and although dull times are upon us at present, we have hopes of a brighter future.

Very respectfully, yours,

GEO. W. RUSSELL,
County Assessor.

LAKE COUNTY.

NICHOLAS PHELAN.....County Assessor.

LAKEPORT, Lake County, }
November 2d, 1864. }

Hon. J. F. HOUGHTON,
Surveyor-General:

SIR:—In compliance with your circular, I submit this, my first annual report, for the year eighteen hundred and sixty-four, which is as full as

I have been able to ascertain by diligent investigation, although not as full as desired. Still, it is not far from correct. There has been considerable increase in the various products of the county over last year; and one fact is noticeable, that property in this county has not been assessed higher this year than last, and in some cases not so high.

The total valuation of property for the year eighteen hundred and sixty-three was two hundred and fifty thousand six hundred and forty dollars; that of eighteen hundred and sixty-two was three hundred and thirteen thousand two hundred and forty-six dollars, while that of the present year amounts to three hundred and sixty thousand eight hundred and seventy-three dollars, being an increase for eighteen hundred and sixty-four to the amount of one hundred and ten thousand two hundred and twenty-four dollars over eighteen hundred and sixty-three, and forty-seven thousand six hundred and twenty-seven dollars over eighteen hundred and sixty-two.

Most of our farmers are turning their attention to raising American horses. Among those I may mention J. P. Thompson and Washington Warden.

There is a very rich quicksilver mine in this county, but the exact amount of ore which it produces per day, I am not able to state, for the simple reason that I could not get the desired information.

There are also several copper leads in the county, which, for want of capital, cannot be properly developed at present.

This county has many disadvantages to labor under at present. The best portion of it is supposed to be covered by a grant, which keeps most of the settlers from improving their farms in a more thorough manner.

I am, sir, yours, most respectfully,

NICHOLAS PHELAN,
County Assessor.

MERCED COUNTY.

L. P. WILSON..... County Assessor.

ASSESSOR'S OFFICE, SNELLING, July 26, 1864.

Hon. J. F. HOUGHTON,
Surveyor-General:

SIR:—In complying with the requirements of the circular sent me from your office, I would suggest the improvement of the boundaries of our county by extending it on the north to the Tuolumne River.

The present line between Merced and Stanislaus Counties, is "on the dividing ridge between the Merced and Tuolumne Rivers," which is supposed to be some four or five miles from the latter river. This dividing ridge can be followed in the foot hills, but on the plains it is impossible to define it, consequently we have no established line between the two counties. The proposed change would extend our county only four or five miles further north, taking in the Village of Lagrange, and some fifteen ranches situated on the south side of the Tuolumne River.

The inhabitants of that portion of Stanislaus County which the pro-

posed change would place in this county, are favorable to the proposition. They now have to travel from eighteen to twenty-five miles, and cross two rivers—the Tuolumne and Stanislaus—to get to Knight's Ferry, the county seat of their county. Whereas, if they were annexed to this county, they would have no rivers to cross, and not more than two thirds the distance to travel to attend to their county business.

This proposed change would be a great advantage to our county, could be no injury to Stanislaus, and would give us a natural instead of an artificial boundary. By reference to the map you will not fail to see the advantages of this change.

At a late day of the last session of the Legislature, many of our citizens petitioned that body for an appropriation to survey and report upon the feasibility of running a canal for irrigating purposes, from a point on the San Joaquin River, some fifteen miles above the Lone Sycamore in Fresno County, along the foot hills, to near the Merced River, a distance of about fifty miles. That body failed to make any appropriation, and I have thought proper to call your attention to the proposed improvement. A canal through the section of country mentioned, would irrigate some two hundred thousand acres of now worthless lands, making it as valuable as any of the lands of this county.

Some thirty thousand acres of this land belong to the State; the remaining one hundred and seventy thousand belonging to the General Government. The country through which the canal would pass is naturally well adapted to such a project, being almost a level plain; and it is believed that the expenditure necessary for such improvement would be but small compared with the advantages to be derived from it, and that it is only necessary that the attention of the proper authorities should be directed toward it, and an examination and survey made, to insure its being regarded favorably.

Such an improvement would be of almost incalculable value to this portion of the State, and a source of much revenue; for without irrigation, this land must remain barren and worthless, when it could be made to produce equal to the best lands in the State, and nearly every acre of the two hundred thousand could be cultivated.

You will see by reference to the accompanying documents that the cultivated land in this county is twenty-eight thousand acres, and the total value of property a little more than three quarters of a million, giving to the State a revenue of more than nine thousand dollars. Now, if this proposed canal would add say one hundred thousand acres to the arable lands of the county, and our wealth increase in proportion—and I see no reason why it would not—our valuation of property would be about four millions of dollars, and we would pay a State tax of near fifty thousand dollars.

The past dry seasons have proved to the farmers in this section of the State that they cannot depend upon rains, and must resort to irrigation, or abandon their farms, which many are already doing. Nearly all the grain, fruit, etc., which I report to you as having been raised in this county, is the product of farms situate on the Merced River which have irrigating privileges. Though the lands in other portions of the county are equally as rich and productive in favorable seasons, yet in such a season as the present they produce nothing, and are being abandoned. Many of the best improved farms in this county, and which are, in seasons like this, worthless, would be benefited by this proposed canal.

Unless some steps are taken to secure irrigation, the agricultural wealth

of this portion of the State must diminish instead of increase, and many well improved farms be again returned to the commons.

I am satisfied that if you could have an examination of the country through which this canal would pass, you would be impressed with the importance and feasibility of the project.

INTERNAL IMPROVEMENTS

There are some thirty-six miles of the San Francisco and Los Angeles telegraph in this county. Of its cost, value, etc., I know nothing. Further than this, there are no internal improvements in the county, except those already reported in the accompanying documents.

I am, with much respect,

Your obedient servant,

L. P. WILSON,
Assessor Merced County.

MARIN COUNTY.

DANIEL SMITH.....County Assessor.

COUNTY ASSESSOR'S OFFICE, }
San Rafael, Marin County, October 3d, 1864. }

Hon. J. F. HOUGHTON,
Surveyor-General:

SIR:—I herewith inclose a statement of the agricultural and other statistics of Marin County, compiled from the assessment books for the year eighteen hundred and sixty three.

Farmers, as a general thing, have reaped an average crop in this county. A good part of the county is better adapted for grazing than tillage, but the northern end cannot be surpassed in the State for farming purposes, and farmers this year have made fortunes.

We have had considerable improvements within the last year, but we are still sadly deficient in roads; it is hoped, however, that this will soon be obviated.

Fruit growing has not had much attention as yet, and but one good sized orchard is to be found in our county.

Butter and cheese making is carried on extensively and with remunerative results.

Mining has, for the last year, occupied the attention of some of our people. The mines are situated near the coast, and a fair prospect of copper is obtained.

But of these matters the County Surveyor, no doubt, will make you acquainted. The statistics are as near as I could get them, but they, probably, are not perfect.

The schools in this county are well attended, and a manifest improvement is to be seen.

The amount levied for State purposes is twenty-two thousand six hundred and ninety-one dollars and fifteen cents. The amount levied for county purposes is twenty-seven thousand two hundred and thirty dollars and fifty-four cents.

Your humble servant,

DANIEL SMITH,
Assessor of Marin County.

MONTEREY COUNTY.

WM. J. McGARVEY.....County Assessor.

ASSESSOR'S OFFICE,
Monterey, October 18th, 1864. }

Hon. J. F. HOUGHTON,
Surveyor-General:

Sir:—In compliance with the requirements of your circular directed to the County Assessors, I herewith transmit to you my statistical report for the current year, containing such information as I could, by due diligence, collect from reliable sources, and as taken from the assessment roll, with some general observations tending to show the condition of this county and develop its resources.

In order to avoid repetition I have omitted to mention matters reported on before, and having undergone no change; if any information is wanted on such, I refer to the report of some previous year, viz: eighteen hundred and fifty-nine or eighteen hundred and sixty.

AGRICULTURAL PRODUCTS.

Description.	Acres.	Bushels.
Land inclosed.....	101,797
Land inclosed, used for pasture.....	86,472
Land cultivated	14,238
Wheat.....	2,524	31,494
Barley.....	8,200	137,854
Oats	50	910
Corn.....	180	3,324
Potatoes.....	314	6,478
Peas, Beans, and Vegetables.....	157	2,179
Buckwheat.....	2	32
Hay.....	1,104	2,707
Alfalfa	38

The above table of agricultural products is for the year eighteen hundred and sixty-three.

The time and compensation allowed to the Assessors for performing their official duties being rather insufficient to enable them to collect material for a report as detailed and correct as could be desired on this interesting subject, they must content themselves with compiling from very incomplete, and sometimes erroneous, information, (true and exact statements not being on all occasions cheerfully given to them,) and make returns that will not convey much useful knowledge nor be of interest to the State at large—aware of the fact that the aim proposed by the legislation demanding from them statistical reports is not attained.

FRUIT TREES.

Description.	Number.
Apple	1,682
Peach.....	1,799
Pear.....	1,732
Plum.....	388
Cherry.....	247
Nectarine.....	312
Quince.....	114
Apricot.....	470
Fig.....	67
Olive.....	28
Almond.....	96
Pomegranate.....	9
Walnut.....	38
Prune.....	183
Grape Vines.....	85,275
Total Fruit Trees.....	7,165

The yield of fruit last year has not been unsatisfactory. This article is chiefly cultivated for our own use, but a small quantity of fruit is raised for the market; I have, therefore, not been able to determine its value. Much fruit is imported from other parts.

LIVE STOCK, &C.

Description.	Number.
American stallions.....	22
American horses.....	145
American mares.....	124

Hogs.....	2,239
Turkeys.....	66
Geese.....	54
Ducks.....	78
Chickens.....	6,423
Bee hives.....	365

CATTLE SLAUGHTERED.

Description.	Number.	Value.
Beef and stock cattle.....	9,535	\$47,025
Sheep.....	1,110	2,975
Hogs.....	370	2,940

The foregoing account of live stock is taken from the assessment roll of the present year. The cattle slaughtered is for the year eighteen hundred and sixty-three. The small value set on the same may be accounted for by the fact that a "matanza" has been established in the vicinity of Monterey City, where eight thousand head of cattle have been slaughtered for hides and tallow. These were valued, at an average, at three dollars per head. A large number of said cattle were in bad condition, owing to the scarcity of pasture, and had to be sacrificed in order to save some other stock. I make no mention of the cattle killed in the country by the stock raisers for their own use, neither of a large number of cattle, in a starving condition, killed in order to save the hides.

During the two last years, owing to the prevailing drought, the cattle have considerably diminished in this section of the country; and although the loss has not been so severely felt here as in the more southern counties, where, according to report, the cattle have almost all died, the

amount of stock that will hold out till next spring will be very small. The hills and valley lands are already entirely destitute of pasture; on the mountains alone some browsing is still left, and there the cattle and horses are now ranging.

Horses have held out better than cattle, and the distemper called the Salinas horse disease (somewhat like the blind staggers) has not made its appearance this year; but there are still several horses suffering from the effects of this distemper, contracted last year, or even before that. They never recover altogether therefrom.

The loss of sheep has not been great until now, but it is expected that they also will suffer considerably next winter. Since the last five years sheep have increased, and if the cattle perish this winter, as is expected, their place will be supplied with sheep. This country possesses some of the best localities for raising them. Considerable pains have been taken during these last years for improving their breed, by persons having at command the means to import rams at a heavy cost of price, and the result has been such as to reward them amply for their trouble and outlay.

The following shows the decrease or increase of live stock since the year eighteen hundred and sixty:

Description.	Number.
American horses.....	38 increase.
Spanish horses.....	2,549 decrease.
Half-breed horses.....	228 decrease.
American mules.....	6 decrease.
Spanish mules.....	45 decrease.
American cows.....	569 decrease.
Spanish cows.....	2,164 decrease.
Half-breed cows.....	298 decrease.
American stock cattle.....	3,356 decrease.
Spanish stock cattle.....	31,643 decrease.
Half-breed stock cattle.....	6,138 increase.
Sheep.....	72,360 increase.
Hogs.....	2,077 decrease.

GENERAL PRODUCTS—1863.

Description.	Quantity.
Butter.....	11,950 lbs.
Cheese.....	11,540 lbs.
Honey.....	1,817 lbs.
Wine.....	1,200 galls.
Wool.....	540,835 lbs.
Eggs.....	19,906 doz.
Pear brandy.....	600 galls.

ASSESSMENT OF PROPERTY—1864-65.

Description.	Amount.
Value of real estate.....	\$457,182 55
Value of improvements.....	133,318 00
Value of personal property.....	544,345 21
Total value of property assessed.....	\$1,134,845 76
Deducted for widows.....	9,000 00
Value of taxable property.....	\$1,125,845 76
Value of taxable property in 1863.....	1,256,797 00
Decrease.....	\$130,951 24

FARMING.

The crops in eighteen hundred and sixty-three, with few exceptions, have been very light, and the harvest has generally been considered as far below the average; but still there is a great difference between then and the present year. The country everywhere presents a desolate appearance; much land has been left without cultivation for want of sufficient moisture to render it fit for ploughing, and in the Pajaro Valley, one of the most fertile spots in this State, the farmers this year did raise about the necessary grain for seed.

Much inclosed land has been used for pasture, and some hay has been cut on such places, which has brought a good price. Barley hay at present is sold at thirty dollars per ton.

No lumber has been produced last year; the only steam sawmill in Monterey has stopped working; the export of cord wood has likewise greatly diminished. There is at present on the stocks one vessel, in progress of construction. She is about one hundred and fifty tons burden.

FISHERIES.

There are four whaling companies in the Bay of Monterey. They number some sixty men. Each company mans two boats. Last year, sixty-four whales were caught, which produced one thousand nine hundred and thirty barrels of oil. Whales have been rather scarce this season. The whalers consider these last two years as the worst ever had here.

One whaling schooner belonging to this port is cruising on this coast between latitude twenty-nine degrees and thirty-seven degrees.

Several companies of Chinese are established here, who occupy themselves in curing and salting fish for exportation. They yearly send to China large quantities of dried fish, and a certain univalve shellfish, (*Haliotis Occidentalis*), commonly called in the Spanish language, "Aulon." This shellfish, formerly in great abundance, was a certain resource for the indigent to fall back on, supplying them in case of need with nutritious and wholesome food. But the Chinese have almost

exhausted the same along the whole coast between Monterey and San Diego. The want of this supply will be felt severely this year in some of the lower counties.

The mode of fishing of the Chinese is likewise so destructive that the rockfish, cod, etc., are also fast disappearing.

FERRIES, TELEGRAPHS, ETC.

There are three ferries over the Salinas, and one over the Pajaro River. But of these only one is permanent, and this is at the mouth of the Salinas, on the line of travel from Monterey to Watsonville; the others are not needed during the dry season.

One toll bridge crosses the Pajaro River on the line of travel from San Juan to San José.

The telegraph line connecting Monterey, Watsonville, San Juan, etc., is of the extent of forty-nine miles in this county.

Two newspapers are published in this county—one in Monterey City, the Monterey Gazette, and one in the town of San Juan, the Monterey County Journal. Both are weekly.

MINERAL LANDS.

Since the last two years many mining claims have been taken up, and some companies incorporated, among them the Gabilan, Saragoza, Soberana Maria, and Buri-Buri. The two first named are located on the Gabilan Range, the third in the San Antonio Mountains, and the last among the hills on the southern slope of the Gabilan. The results of the working have until now not been such as to deserve notice, and therefore I will pass this matter over, and leave the same for my next year's report, when perhaps I will be able to state some positive facts in relation to the working and yielding of the mines aforesaid. The general impression is that the Gabilan (silver mine) and Buri-Buri (copper mine) hold forth the best hopes. A mill has been erected, and great activity prevails at the former. At the last named the works have for the present been suspended.

All of which is respectfully submitted,

WM. J. MCGARVEY,
Assessor, Monterey County.

Per J. RUNEDS, Deputy.

METEOROLOGY.

Abstract of Meteorological Observations, by Dr. C. A. Canfield, at the City of Monterey, from October 1, 1863, to September 17, 1864.

PLACER COUNTY.

WALTER B. LYON.....County Recorder.

RECORDER'S OFFICE, Placer County, }
Auburn, October 19, 1864. }Hon. J. F. HOUGHTON,
Surveyor-General:

SIR:—Inclosed you will please find report, filled up as per blank form sent to this office for County Assessors to compile. This county being divided into ten Assessor Districts, and some of the Assessors having been very remiss in the discharge of their duties, I found it very difficult to obtain anything like a correct data to go by in making this report. I am of the opinion that it is very nearly correct, although not as full as it should have been.

Very respectfully, &c.,

WALTER B. LYON,
Recorder of Placer County.

SANTA BARBARA COUNTY.

AUGUSTIN TANSENS.....County Assessor.

September 30, 1865.

Hon. J. F. HOUGHTON,
Surveyor-General:

SIR:—The County of Santa Barbara has probably suffered more than any other from the excessive drought of eighteen hundred and sixty-three and eighteen hundred and sixty-four. The horned stock and horses have died in great numbers, and in the present month of October at least two thirds of that class of animals have perished from want of pasture and the ravages of bears and lions. How many more may die before the grass becomes sufficiently sustentative in the spring of eighteen hundred and sixty-five, depends on the early rains of the incoming season. Nearly all the young under a year old have already perished. The mortality and loss among sheep has not been so great, but the increase nearly all died. It is estimated that one third of the numbers existing in eighteen hundred and sixty-three have been lost by hunger, nostologia, removals, and the destructive animals, who have been unusually bold and daring during the last twelve months. The clip of wool has also been much inferior to that of eighteen hundred and sixty-three or eighteen hundred and sixty-two. The losses entailed on the rancheiros have been ruinous, as the affliction of the drought came at a time when the market was in a terribly depressed state from over-abundant supplies, combined with the debts of preceding years, the great scarcity of money, and the great fall in price of all animals. From a combination of these causes, stock owners were obliged, at immense sacrifice,

to pay off debts contracted when cattle were selling at from twenty dollars to twenty-five dollars, by selling the same animals at from four dollars to six dollars; in consequence of which many persons have been reduced from comfort, or comparative affluence, to great distress and even, in many cases, want. Very little land has been in successful cultivation, as the winds and storms of sand prevailing in the spring and summer, combining with the drought, in almost every instance blasted the hopes of the cultivator. Even fodder for horses has been obliged to be brought from abroad; and, except in a few choice localities, not even garden vegetables have escaped. Near San Buenaventura the old irrigating ditch of the Mission, laid out before eighteen hundred and twenty-five, has been repaired for several miles, which enabled the settlers in that vicinity to cultivate successfully some four hundred or five hundred acres of land with barley, corn, potatoes, and other crops, which yielded abundantly, and remunerated the farmers handsomely.

There are over fifty thousand bearing vines in the Old Mission and private vineyards of the county, which were planted before eighteen hundred and twenty-five, and have always yielded an exceedingly fine red wine of excellent body and quality. If these vineyards were in the hands of capitalists and competent cultivators, there can be no doubt that their product of wine and brandy would be equal to the best of Spain, France, or Italy. The fruit is very abundant, sweet, and easy of growth; and there are large quantities of land admirably adapted in soil and climate to compete with the vine lands of Southern Europe.

The olive succeeds admirably; there are now, at least, not less than one thousand trees forty years old in the gardens of the founded Missions of the county. The oil and olives they yield are, in every respect, equal to those of Spain. The fig, peach, pomegranate, quince, walnut, almond, pear, plum, cherry, and, indeed, every fruit and vegetable of the Mediterranean, succeed as well in this county as in their native soil—some of them greatly improve. The maguey, or American aloe—so common in Mexico as producing the liquor called pulque, and the leaves of which are there so extensively used in the manufacture of rope and paper—grows luxuriantly wherever planted, and comes to perfection in six years, and not, as it does in the Northern States and Europe, in a hundred; hence its vulgar name of century plant. The root of this plant, when washed and fermented, furnishes the Mexican spirit called mescal, which is the same as our whiskey in flavor, and greatly improves by age. The common cactus plant, or nopal tuna, of Mexico, also grows very abundantly here, and yields excellent fruit. It is very desirable and its growth should be encouraged in the mining counties, as it is hardy and is not effected by drought. Cotton and tobacco, wherever planted here, have grown admirably, and large tracts of land could be cultivated in those products.

There is a large extent of very fine land in the valley of the Staticos, or Santa Clara River, which is now occupied by pasture ranchos; and, also, equally as much in the lower part of the Valley of Santa Inez, near the sea. Several large tracts have been disposed of at very low prices, and there is no doubt the investments are amongst the most secure and certain of any in the State. The low prices at which ranch lands can now be bought offers great inducement to capitalists who have large flocks of sheep. No other county in the State offers a climate superior to Santa Barbara for this valuable class of stock, and the pastures are excellent in quantity. Indeed, for many years cattle will be so few in number that the county will be able to maintain with ease several million head of

sheep at very little expense or trouble. Nearly all the county is underlaid with asphaltum or mineral pitch, which exists in all forms and consistencies—from that of liquid oil to the consistency of tar or putty, or the hardness of stone. There is not a district or county in the State where it is so abundant, or so easy to work, or for the purpose of export. Much of it lies immediately on the ocean coast, half a mile from ship anchorage. A wealthy company of San Francisco capitalists made large investments in asphaltum deposits in eighteen hundred and sixty-four, which it is designed soon to work on an extensive scale.

AUGUSTIN TANSENS,
County Assessor of Santa Barbara.

SANTA CLARA COUNTY.

D. M. HARWOOD.....County Assessor.

ASSESSOR'S OFFICE, San José, }
Santa Clara County, October 27th, 1864. }

Hon. J. F. HOUGHTON,
Surveyor-General:

SIR:—Inclosed please find my statistical report for this year. There has been some falling off in live stock since last year—as much has been driven from the county in search of grass, while some has died for want of the same.

AGRICULTURE.

There is in this county a large proportion of arable land, which, in favorable years, produces most abundantly of the cereal crops, but the two past seasons have been so dry and unfavorable that many farmers are becoming disheartened and farming interests are being somewhat neglected; but as a portion of the valley produced largely, even this year, (the dryest of all) by irrigating by means of artesian wells, or otherwise, where such means were available—and where such means were not at hand, by the process of summer fallowing the ground, which latter process is rapidly gaining in favor on the uplands of the valley.

IN FRUIT AND VINE GROWING

There is even more interest manifest. It has been ascertained that the climate of this valley is as well adapted to fruit culture as any of the coast valleys. Also, the culture of the vine, so far as it has been tested, has proved a remarkable success.

MINERALS

In minerals, we have not much to boast of, except quicksilver, of which there are in this county three mines tolerably well developed. Standing

first and foremost is the famous New Almaden mine, which is turning out weekly large amounts of the valuable metal, and still the mine improves in richness and product. The second in importance is the Guadalupe mine, situate only four miles from New Almaden, which was lately transferred by the Baltimore Mining Association to a New York company, who are now prosecuting the work vigorously, under the superintendence of Dr. J. E. Mayo. They have lately struck very rich ore in their sixth level, four hundred feet below the bed of the creek, which is worth sixty-five per cent in quicksilver, together with a slight sprinkle of copper and silver. They have also found good ore in a hill near their town and works. The company expect soon to realize dividends. The third in order is the Enriquita mine, situated half way between Gaudalupe and New Almaden, and owned by the same company as the latter, viz: the Quicksilver Mining Company of Pennsylvania, all of which they purchased last year, together with the two mountain ranchos of San Vicente and Las Capitancillos, for the sum of one million seven hundred and fifty thousand dollars, gold coin of the United States.

There has been of late considerable excitement caused by the discovery of copper and silver mines near Almaden. The silver mines are not far enough developed to ascertain their worth, but the copper mines have been well tried by at least one company, and found to be good, some of the ore being worth thirty to forty per cent of copper. Copper is also found in other parts of the Santa Cruz mountains, but the mines are not being worked to any extent or advantage.

MINERAL SPRINGS.

There are also known to be two good mineral springs in this county, one of which, the soda spring at New Almaden, has a high reputation at home and abroad. Another mineral spring has been discovered in the mountains west of the Town of Saratoga, (formerly McCartysville,) where a San Francisco firm are about erecting a fine hotel. This spring is said to contain the proper medicinal qualities for the cure of many of the troubles to which the human body is subject.

BOUNDARY LINES.

In regard to boundary lines, there is a few thousand acres of land in dispute between this county and San Mateo, which lies between two different branches of the San Francisquito Creek, which we are in hopes will be adjusted without any serious legal troubles.

With much respect, I remain your obedient servant,

D. M. HARWOOD,
Assessor Santa Clara County.

SAN DIEGO COUNTY.

JOHN L. McINTIER.....County Assessor.

SAN DIEGO, September 10th, 1864.

Hon. J. F. HOUGHTON,
Surveyor-General:

SIR:—In compliance with your request and with the law, I have the honor to submit my report for the current year. I find it almost impossible to comply strictly with the requirements of the law, but have done so to the best of my ability.

The fruit culture is on the increase, but the value of all kinds is much less than in former years. The grape culture is improving yearly.

All kinds of live stock have depreciated in value about one half, yet many of the stock raisers, having seen the necessity of improving the quality of their stock, have introduced fine blood American stallions, bulls, and rams.

Lands have depreciated in value since last year. This being a stock raising county, and so remote from market, not much attention is paid to agriculture further than for domestic use.

As a wool growing county, I think it will compare with any other in the State. It is worth while to remark, that in the future this branch of industry promises to be the most lucrative of any other in our midst.

We have one school, which will compare favorably with other country schools throughout the State.

For full particulars please refer to schedule inclosed.

Very respectfully, your obedient servant,

JOHN L. McINTIER,
Assessor San Diego County.

SHASTA COUNTY.

A. P. LADD.....County Assessor.

ASSESSOR'S OFFICE, SHASTA COUNTY, }
Shasta, October 13, 1864. }Hon. J. F. HOUGHTON,
Surveyor-General:

SIR:—In compliance with your order I herewith transmit to you my annual report of statistics, etc., of Shasta County.

AGRICULTURE, ETC.

This county heretofore has made few reports, if any, as regards the agriculture and other products.

Farmers, generally speaking, have reaped first rate crops this year; and, in fact, will realize more clear cash than they have for any two years previous.

The several branches of industry in this county, viz: agriculture, mercantile, and mining—I am happy to inform you, are in a very prosperous condition. The breed of stock is improving as well as we could expect, considering the excitement we have had for the past year in “feet.” Fruit growing in this county seems of late to occupy the attention of a number of our farmers and gardeners, and, I think, they meet with good success, or they would not pay so much attention to the business. There is a first rate market for all early fruits in Trinity and Siskiyou Counties. Shasta County, situated as it is, has the advantage in raising early fruits; and, in fact, I think the flavor and quality of our fruits are equal to any on the Pacific coast. The facilities for the cultivation of the grape vine in this county, I think, cannot be excelled in this State.

MINES AND MINING.

Our mining interests are still occupying the attention of much the larger portion of our population. In fact the excitement has been so great for the past two years, consequent upon the discovery of copper and silver lodes in the different sections of this county, that most of our citizens have money invested in the development of the mines; and you will notice in my report that the capital stock of incorporated companies in this county which are now working, amounts to the sum of four million two hundred and twenty-nine thousand five hundred dollars. Several of the companies have commenced to ship ore, and others are about to erect mills. There are quite a number of moneyed men from San Francisco and elsewhere who are interested in these mines. I think in a few years Shasta County will be ahead of any county west of the Sierra Nevadas, as far as gold, silver, and copper mining is concerned. There is no question of this; but it takes money and time to make such mining profitable. Nevertheless, when capitalists take hold, everything goes along well. I believe that Professor Whitney has remarked that Shasta County was ahead of any county in this State as regards minerals; and from all appearances I have no doubt it will turn out to be true. We have five quartz mills in this county for crushing gold-bearing quartz, three of which are now running and paying the stockholders heavy dividends; two are under repair; and, I think, in another year we will have several more in running order, as there is gold-bearing quartz in abundance to keep any number of mills running for centuries.

The taxable property, real and personal, of this county, amounts to one million eighty-four thousand two hundred and ninety-three dollars and fifty-six cents. It may amount to a little more or less, as the Board of Supervisors have not acted on the subsequent assessment roll yet. I have given you the figures as near as I can ascertain up to the present time.

Respectfully, your obedient servant,

A. P. LADD,
Assessor of Shasta County.

SISKIYOU COUNTY.

D. C. STEVENS.....County Assessor.

ASSESSOR'S OFFICE, SISKIYOU COUNTY, }
Yreka, October 12th, 1864. }Hon. J. F. HOUGHTON,
Surveyor-General :

SIR:—In compliance with the law, and agreeably to your request, I beg leave to submit the following general report: You will see by the report that I have not entered into a detailed account of the different varieties of fruit trees and vegetables, since it would be almost impossible to furnish anything near a correct list. People seldom keep an account of what they produce, so that in furnishing such statistics one has many difficulties to contend with, and must frequently rely upon his own judgment. What I have furnished, I have endeavored to give as nearly correct as possible. You will also perceive by the report, that there is a falling off in property in this as well as in most other mining counties, owing principally to the Northern excitements which, enticed away many of our citizens, thereby causing a general depreciation in real estate. As regards pasturage, our county has been much favored. A great portion of the beef cattle having been driven to the northern markets, the prospect for cattle growing was never better; the pasture is good, and cattle can be raised with little or no attention during the entire year. Crops this season have been rather light, which may be in part attributable to the drought, frost, and the negligence of the farmers to put in full crops. Grain has been so cheap for two years past, that many had become partially discouraged, and did not put in a full crop. There never was a time in this county that the farmer was not, if industrious, diligent, and economical, amply remunerated for his labors. Farmers have frequently stated to me that land that was summer fallowed, has produced from two to five times the crop that it does by ordinary cultivation.

Siskiyou County can boast of fine scenery, fertile valleys, streams abounding in fine trout, the mountains with all kinds of game, and the best stock range in the State. For health it is unsurpassed. We also claim to stand high in point of morality. The educational situation of the county is much better than at any previous period. We have sixteen public schools and one academy, with an aggregate attendance of four hundred scholars. Grapes, peaches, plums, apricots, apples, strawberries, raspberries, blackberries, and all kinds of garden vegetables thrive and produce abundantly, and it will not be long until we shall have an abundance of all kinds of fruits mentioned.

Our quartz mills have been doing but little during the past year, yet there are many leads that prospect well. Owing to the great scarcity of water this season, our placer mines have not yielded near the amount usually obtained. The river claims are being worked with very good success. The Chinese population of the county is large, and constantly increasing. The amount of revenue derived from them for license is over four thousand dollars per month. We have three breweries and six churches. Our county abounds in plenty of timber common to California—pine, oak, cedar, and fir. There never was a time when the people were generally more prosperous and contented than the present.

There is no doubt but that our county will increase in wealth considerably the ensuing year.

Respectfully,

D. C. STEVENS,
County Assessor Siskiyou County.

STANISLAUS COUNTY.

E. D. GIDDINGS.....County Assessor.

KNIGHT'S FERRY, }
September, 1864. }

Hon. J. F. HOUGHTON,
Surveyor-General:

SIR:—Inclosed you find the statistics compiled from the Assessor's books of Stanislaus County for the year eighteen hundred and sixty-four.

Respectfully, yours,

E. D. GIDDINGS,
Assessor Stanislaus County.

ANNUAL REPORT

OF THE

Surveyor-General of California,

FOR

THE YEAR 1865.

THE UNIVERSITY OF CHICAGO

LIBRARY OF THE UNIVERSITY OF CHICAGO

1900-1901

ANNUAL REPORT.

OFFICE OF SURVEYOR-GENERAL,
Sacramento, November 1st, 1865. }

To His Excellency

FRED'K F. LOW,
Governor of California :

SIR:—In compliance with the requirements of the law defining the duties of this office, I have the honor to submit for your consideration the following report from November first, eighteen hundred and sixty-four, to November first, eighteen hundred and sixty-five.

I am, very respectfully,

Your obedient servant,

J. F. HOUGHTON,
Surveyor-General, and Register of State Land Office.

REPORT.

STATE LANDS.

The subject of State lands and the differences between the Commissioner of the General Land Office and the State authorities, in regard to the construction to be placed upon the several Acts of donation to the State, is one which has been so frequently and thoroughly discussed in the previous reports of this office, that were it any other subject it would be exhausted; but these differences, and the various questions of the practice of the office at Washington, and of the State Land Office, in relation to them, will ever be a fruitful and inexhaustible subject of discussion until such time as they are definitely settled.

The principal questions of difference between the United States Commissioner and the State, may be briefly stated as follows :

First—The State claims the right to select other lands in lieu of sixteen and thirty-six sections, which previous to the survey have been covered by grants or other private claims, or reserved for public uses, agreeably to the provisions of section seven of the Act of Congress, approved March third, eighteen hundred and fifty-three.

The Commissioner denies this right so far as applied to sections covered by Mexican grants.

Second—The State claims the right to select unsurveyed as well as surveyed lands in lieu of sections so covered, granted, or reserved, on the ground that the Act of donation was an Act treating generally of unsurveyed lands, and that no restriction was made in the Act confining such selections to surveyed lands; and in answer to the statement so often used, that the United States permits and recognizes no selections of unsurveyed lands, we refer to the fact that pre-emption rights are permitted to be acquired upon unsurveyed lands by the same law which made this donation to us, and that Sioux or half-breed scrip locations on unsurveyed lands are made, and approved by the department.

The Commissioner denies this right. It may be well to observe that the Legislature of our State, during the session of eighteen hundred and sixty-three and four, at my suggestion, in view of the denial of this

right, and in order no further to complicate the difficulties arising therefrom, suspended the sale of unsurveyed lands in lieu of such sections, without in the least abandoning the question of right.

Third—The State claims that “immediately upon the passage of the Act of Congress of September twenty-eighth, eighteen hundred and fifty, this State became the owner, with absolute power of disposition, of all the swamp lands within her limits which had not been disposed of,” as decided in *Summers v. Dickinson* (9 Cal., 554.) The Commissioner denies this, and directs the United States Surveyor-General, in reporting lists of these lands, to “exclude therefrom all tracts which may have been reserved or in any manner disposed of by the Government, or upon which there may exist *inchoate rights*, either under the *pre-emption*, *homestead*, or other laws of the United States. In a word, you should respect none but vacant and unencumbered tracts.”

Section one of the Act of donation reads as follows :

“That to enable the State of Arkansas to construct the necessary levees and drains to reclaim the swamp and overflowed lands therein, *the whole of those swamp and overflowed lands made unfit thereby for cultivation, which shall remain unsold at the passage of this Act, shall be and the same are hereby granted to said State.*”

Section four extends the provisions of the Act to each of the other States.

Under this law the State contends that after the passage of the Act of donation no pre-emption, or homestead, or other right could be acquired to any of these lands except under the laws of the State.

It would seem under the wording of the Act, which makes it an immediate and present grant, that all the lands which were found upon segregation to be of the class indicated became at once the property of the State, and that the power of disposition by the United States ceased from that date, the Act having fully disposed of them.

The Commissioner also contends that the proof furnished by the State of the character of the swamp and overflowed lands is insufficient—which question was fully discussed in the report of this office for the year eighteen hundred and sixty-four, and will not be repeated here.

By the Act of donation of September twenty-eighth, eighteen hundred and fifty, it is made the duty of the Secretary of the Interior, as soon as may be practicable after the passage of the Act, to make accurate lists and plats of the land, and transmit them to the Governor, and, on his request, to issue to the State patent therefor; and although more than fifteen years has elapsed since the grant was made, not an acre has been patented to the State, although lists, proofs, and maps of nearly all the swamp and overflowed lands in the State have been duly forwarded to the department.

The State authorities claim that in acquiring title to selections of school lands, the duty of the State ceases when the State Agent notifies the United States Register of the State selection, yet the Commissioner has rejected and ordered cancelled several lists of locations for which we have the Register's acceptance in due form, on the ground that the lists are made out upon blanks which refer to the wrong Act of donation.

These are clearly errors of the local Registers, and should be corrected by them.

Many other differences of less magnitude, but still of much importance, regarding the rights acquired by State selections before final approval by the Secretary of the Interior, acceptance by United States Registers of State locations, and other matters of detail, which, owing to the great delay attending adjustment by correspondence at so great a distance must wait a long time for adjustment or be settled by an agent appointed to visit Washington for the purpose.

These differences may be settled by either of the following methods:

First—By the abandonment of the position and principles which the State has assumed to be correct in its construction of the laws of donation referred to, as fully indicated and expressed in the various Acts of our Legislature providing for the sale of the different classes of lands.

Second—By a modification of the views of the General Land Office, and of the instructions of the Commissioner to the United States Surveyor-General and the Registers of the local land offices in this State.

Third—By securing the passage of a law in Congress which shall clearly define the rights of the State beyond doubt or dispute, and which shall also define the duties of the several officers of the United States in listing to the State the lands donated.

Fourth—By obtaining the decisions of our highest tribunals upon a number of cases, each involving one of the points of difference, until all are decided.

The adoption of the first of these propositions, viz: the abandonment on the part of the State of the position we have assumed, is a matter involving so seriously the honor and plighted faith of the State toward the various purchasers in good faith under her laws, that it seems to me it cannot for a moment be entertained.

To illustrate the position of the State in the event of the adoption of such a policy, I desire to call your attention to the following extract from a letter from the Honorable Commissioner of the General Land Office at Washington to the Register of the United States Land Office at San Francisco, dated July sixteenth, eighteen hundred and sixty-five, which presents a difficulty never before known to exist:

“The pre-emption case in contest between James Brown and Titus Hale has been received. Hale claims right derived from the State of California under a school selection made in substitution for a section thirty-six which was covered by a private grant.

“The State having no right to such a section thirty-six, and no right to substitute other lands therefor, Hale has no right which gives him standing as a contestant in the case.”

Section seven of the Act of Congress of March third, eighteen hundred and fifty-three, in which Act is contained the grant of every sixteenth and thirty-sixth section in the State, and which has been quoted so often in the reports of this office, reads as follows:

“SEC. 7. *And be it further enacted*, That where any settlement by the erection of a dwelling house, or the cultivation of any portion of the land, shall be made upon the sixteenth or thirty-sixth sections before the same shall be surveyed, or where such sections may be reserved for

public uses, or taken by private claims, other land shall be selected by the proper authorities of the State, in lieu thereof."

The Legislature of this State at its session in eighteen hundred and sixty-one—in the homographic chart of which may be found the names of Burbank, Campbell, Clark, Conness, Curtis, De Long, Edgerton, Heacock, Parks, Porter, Phelps, Rhodes, Shafter, Sharp, Thornton, and many others of distinction in the legal profession—passed an Act authorizing and directing the sale of all sixteenth and thirty-sixth sections proper, and in all cases where such sections were covered by *private claims or grants*, the selection and sale of other lands in lieu thereof.

Lists were obtained from the United States Surveyor-General, or the United States Registers of the different districts, of the sixteenth and thirty-sixth sections which were so covered by grants, and as purchasers made applications to purchase of the State lands in lieu of such sections, applications were made by the State Locating Agents to the respective Registers for such lands in lieu of sections so covered, and the applications were accepted.

Of this class of lands alone, the State has sold about three hundred thousand acres to some twelve hundred purchasers, who have in good faith paid the original twenty per cent required by law, and have continued in the same good faith to pay upon the deferred payment of the balance the annual interest in advance upon the promise from the State of eventual title.

The question is, shall the State dishonorably break its promises, so solemnly made and spread upon its statute books, acknowledge that she has led all these persons into error—that her eminent public servants and representatives before named did not understand their duties, and were in error in passing such a law—that the law of Congress does not mean as it reads? or shall she firmly maintain that the position she has assumed is correct, and endeavor, at least by all honorable means, to sustain that position and protect the numerous class of industrious agriculturists who have relied upon the State for titles to their homes?

By adopting the second proposition for the settlement of these differences much may be accomplished, although it can hardly be expected that by conference or argument the Commissioner can be induced to abandon all the positions assumed by him which are held to be wrong by the State.

Matters of detail, regulations for and instructions to the local Registers, and all those rulings and office practices which are not regulated by law, and which are of great importance to the State, may be so changed. For instance: It has been the practice of the Registers of the several United States Land Offices, in all cases where they believed the State selections were made in accordance with law, and no pre-emption, homestead, or other right to the land existed at the date of selection, to give a written consent—commonly known as the "Register's acceptance"—to such selection. This practice has continued from eighteen hundred and fifty-eight to the present time.

The Commissioner of the General Land Office, in a letter to the United States Register at San Francisco, under date of September fifteenth, eighteen hundred and sixty-five, writes as follows:

"The attention of this office has been called to a paper given by you to Leander Ransom, a Locating Agent of the State of California, a copy of which is herewith inclosed." [Inclosed was a regular Register's

acceptance of a State location.] "You are advised that the action of your office, in certifying to the agent of the State that selections had been made or accepted, was unauthorized, and is disapproved. You will discontinue the practice in future, and will inform Locating Agents of the State that the only evidence of title given by the United States to selections made under the different Acts of Congress granting land to the States, is the certificate of approval of the Secretary of the Interior to the clear lists of such locations."

Assuming this to be correct, as the State has received no certificate of approval from the Secretary of the Interior, we have no "evidence of title" from the United States to any land under any of the several grants.

Under the laws of our State, no patent can be given to the purchaser of any except swamp and overflowed land, unless the acceptance of the selection by the United States Register has first been obtained; and as, under the above instructions, Registers cannot accept, no patents can be given purchasers for any future sales, excepting swamp and overflowed lands. It is probable that the Commissioner may be induced to allow the Registers to furnish the State with some evidence that the lands selected are covered by no pre-emption, homestead, or other right, at the date of the State selection; but, as the principal questions of difference are questions of constructions of laws, this plan cannot fully answer the purpose—but for the other, it is well worth the trial. This is given as an example of many other questions, which may be settled in this way.

The plan contained in the third proposition—that of congressional legislation, so far as concerns the difference of construction of the laws—I regard as more likely to accomplish the desired result than any other proposed. As before shown, the Commissioner denies the right of the State, under the law, to select lands in lieu of sixteenth and thirty-sixth sections covered by Mexican grants. Conceding, for the purpose of adopting this plan, that the Honorable Commissioner is correct in his construction, the following numerous instances of precedents may be urged in justification of the passage of a law permitting such selections:

An Act of Congress, approved March second, eighteen hundred and seven, providing for the disposal of the public lands south of the State of Tennessee, provided that where a school section had been granted by any Act of Congress, or covered by a *British grant*, other sections should be located in lieu thereof for the use of schools.

An Act, approved April eighteenth, eighteen hundred and eighteen, authorized the selection in the Illinois Territory of other lands in lieu of school sections, where, from any cause, such sections had been disposed of.

An Act, approved May seventh, eighteen hundred and twenty-two, authorized the selection of lands in Indiana in lieu of school sections covered by the Clark grant, which covered entire townships; and the same provision was made in regard to the Vincennes donation.

An Act of May twentieth, eighteen hundred and thirty, provides that whenever a school section in the Territory of Arkansas, "either wholly or in part is now or may hereafter be included in private claims held by titles confirmed or legally declared valid, other lands equivalent thereto may be selected."

An Act of June fifteenth, eighteen hundred and forty-four, authorized the selection, in the Territories of Florida, Iowa, and Wisconsin, of other lands in lieu of school sections included in private claims.

Upon the admission of Missouri, similar provisions were made.

An Act, approved February twenty-sixth, eighteen hundred and forty-five, provided for the selections, in the States of Alabama and Mississippi, of lands in lieu of school sections covered by the lands disposed of by treaty between the United States and the Chickasaw Indians.

The State of Ohio was granted other lands in lieu of every school section covered by the Connecticut Western Reserve, although this large tract of land was owned by the State of Connecticut, and was not public land.

With all the precedents above quoted, and many others which might be given to show that no policy of our Government is more firmly established or has been more strictly and faithfully followed than that of making liberal donations for the support of common schools in every habitable township in the land, as a foundation for a system of universal education, upon which the stability and true greatness of a nation mainly depend, a bill which would give to our State the same privileges ought to meet with no opposition.

I have but little doubt that the Commissioner of the General Land Office would heartily join with our delegation in securing the passage of a bill of this nature.

If this plan is adopted, which I most strongly recommend, other matters may be adjusted in the same bill.

The bill contained in the last annual report of this office, and forwarded to our congressional delegation on the fifth of January, eighteen hundred and sixty-four, was drawn with reference to confirming to purchasers in good faith from the State the titles to all such selections, provided that at the time of such selections there existed no pre-emption, homestead, or other valid right to such land, the object being to transfer the contest from the individual to the State; and this provision should be contained in any bill which is passed.

Other provisions, regulating the listing and patenting of lands to the State upon proper evidence, should be contained in the same bill.

The fourth proposition, I believe, should be used only as a last resort.

If, with the reasons we can bring to bear why it should be done, no modification of the views and instructions of the Commissioner can be had by conference, and with all the precedents before us we cannot secure the passage of an Act which shall permit selections of school lands in lieu of such sections covered by grants, and other relief, I am still convinced that, with the plain, and, as I think, unmistakable meaning of our present laws, the right to make such selections will be accorded us by the Courts.

In view of all the facts set forth in the foregoing discussion, the plan which I would recommend for the disposal of all these differences would be that the Legislature, at its next session, should select an agent who is perfectly familiar with all the laws of donation, with all the questions of difference between the United States and the State authorities, with the instructions of the department to the local Registers, and with the details of our State laws, and their application in detail to the sales of State lands, and send him to Washington with no other duty than to confer with the United States Commissioner in regard to all these questions of difference, setting forth the dishonorable position in which the State will be placed if she fails to perfect the titles promised purchasers under her laws, the embarrassing position in which the purchasers themselves will be placed, and the vexatious and ruinous litigation which such an event will involve. He should make the Con-

neetient Resolutions, adopted by the Legislature on the twenty-fourth of April, eighteen hundred and sixty-three, the basis and groundwork of his efforts, and urge the justness of the proposition therein contained.

These resolutions simply confirm to the State, and the purchasers under her laws, all lands which have been selected as part of either of the donations to the State, and which have been sold in good faith to purchasers; and provides that if it shall be found, upon final investigation, that the State has selected any lands to which she was not entitled, she shall pay to the United States one dollar and twenty-five cents for each and every acre so determined to have been improperly selected. Of course it would not be asked to confirm any selections upon which any right under the laws of the United States had attached at the date of selection. With such reasonable requests as the above, it is believed that the co-operation of the Land Office can be obtained, not only to the passage of a bill which will confirm such sales, and permit selections in lieu of school sections covered by grants, but also to such modification of instructions to Registers as the law will permit, and will be least oppressive to claimants under State law, while it does full justice to all claiming under the United States.

GRANT OF SIXTEENTH AND THIRTY-SIXTH SECTIONS.

Since the foregoing on the subject of State lands was written, the following letter from J. S. Murray, Esq., State Locating Agent for the Humboldt Land District, has been received, which shows another source of difference between the honorable Commissioner and the State :

STATE LOCATING AGENT'S OFFICE,
Ureka, Humboldt County, California, Oct. 23d, 1865. }

Honorable J. F. HOUGHTON :

SIR:—Yours of October thirteenth has been received, requesting me to ascertain from the United States Register the nature of the defect of form in location Number Forty-Nine, sixteenth and thirty-sixth sections, made for S. L. Shaw, and cancelled by the Commissioner of the General Land Office. Upon application to the Register, and an examination of his books, I can only find on record the words "cancelled for want of form" marked opposite the application in the tract book. The records of my office are fuller, and from that source I have to inform you that Mr. Shaw's application was made for lands, in lieu of others, in Township seventeen north, Range one west—the two tracts being eighty or ninety miles apart, but both in the same meridian and land district. At this time the Commissioner had not issued his letter of instructions nullifying or restricting the grant made by Congress for educational purposes, and therefore there was no known obstacle at the date of the selection.

After the issuance of the Commissioner's instructions, when it was found that he restricted the State to lands in the same township, if there were any vacant, if not, to the nearest vacant lands, I was notified that these selections, together with numerous others in Mendocino County,

were cancelled; and I was requested to select other lands in the various townships where the sixteenth or thirty-sixth sections lay, in lieu of which the lands had been sought.

To this I replied, that the original selections were made strictly in accordance with the grant and the laws of the State, and that, even if otherwise, I had no power under the law to select, except upon application of a purchaser, accompanied by certain affidavits, and that there was no officer of this State authorized to make such selections. Upon this, the officer immediately, and acting under the instructions of the Commissioner, selected or set apart certain lands in lieu of the cancelled selections, knowing, as he confessed, absolutely nothing of the lands so set apart, nine tenths of which are not worth ten cents per acre, to my knowledge.

In conclusion, every selection in this county, and the lands in lieu of which they were made, I was personally acquainted with, and I kept the two as near together as possible. Shaw's was the last before the land sale, and the school sections in Township seventeen north, Range one west, were the only ones then unappropriated.

I have only to add that I protested against these selections by the Register, and notified the State Land Office of the fact. Mr. Keleher was not then Register, and knows nothing of the matter except from his records.

I am, sir, your obedient servant,

J. S. MURRAY,
Locating Agent.

It will be seen from the above as well as from the circular issued from the General Land Office August twenty-first, eighteen hundred and sixty-two, that the Commissioner claims that the State is restricted in making selections in lieu of sixteenth and thirty-sixth sections which have been pre-empted, to the same township, or if there are no vacant lands within the township, then to the nearest vacant lands; and also, that the selections may be made by the Secretary of the Interior.

This claim of the Commissioner is made under the Act of Congress of February twenty-sixth, eighteen hundred and fifty-nine, which refers to the Act of May twentieth, eighteen hundred and twenty-six.

A careful reading of the two Acts referred to, and the Act under which we claim these lands and the power of selection, (that of March third, eighteen hundred and fifty-three,) will satisfy you that both these claims cannot be correct. The State has been selecting lands within the same *district*, as that course is permitted by the Act of eighteen hundred and twenty-six, and is not refused in the Act of eighteen hundred and fifty-three, and the latter Act gives the State authorities alone the right to select lands in lieu, and no subsequent Act impairs that right.

It is certain that all selections made by the State in lieu of sixteenth and thirty-sixth sections covered by grants, or in lieu of such sections covered by pre-emptions before survey, which have not been made upon the nearest vacant land, will be, if they have not already been, rejected by the General Land Office. And as the State has not authorized its agents to select land until an applicant to purchase has indicated it and come forward with the necessary affidavits, the several local Registers will be, as in the case at Humboldt, instructed to select lands in lieu, which may be, as Mr. Murray says, not worth ten cents an acre.

Again: I do not think the State desires, without a hearing in the Courts, to abandon its purchasers.

This subject presents another strong reason for sending an agent to Washington, as before suggested.

AGRICULTURAL COLLEGE LANDS.

I desire to call your attention to the Act of Congress of July second, eighteen hundred and sixty-two, entitled an Act donating public lands to the several States and Territories which may provide colleges for the benefit of agriculture and the mechanic arts, under which Act the State will be entitled to one hundred and fifty thousand acres of public land, conditioned upon compliance with the provisions of the Act.

Section four of the Act provides: "That all moneys derived from the sale of the land aforesaid by the States to which the lands are apportioned, and for the sale of land scrip hereinbefore provided for, shall be invested in stocks of the United States, or of the State, or some other safe stocks yielding not less than five percentum of the par value of said stocks, and that the moneys so invested shall constitute a perpetual fund, the capital of which shall remain forever undiminished, (except that ten per cent may be used in purchase of lands for sites, or experimental farms,) and the interest of which shall be inviolably appropriated by each State which may take and claim the benefit of this Act, to the endowment, support, and maintainance of at least one college where the leading object shall be, without excluding other scientific and classical studies, and including military tactics, to teach such branches of learning as are related to agriculture and the mechanic arts, in such manner as the Legislature of the States may respectively prescribe, in order to promote the liberal and practical education of the industrial classes in the several pursuits and professions in life."

The third division of section five of the Act provides that "any State which may take and claim the benefit of the provisions of this Act shall provide within five years, at least not less than one college, as described in the fourth section of this Act, or the grant to such State shall cease, and said State shall be bound to pay to the United States the amount received from any lands previously sold."

It will be seen from the above extracts from the law of donation that the State has less than two years in which to provide at least one of these colleges, therefore unless at the next session of the Legislature provision is made for such a college, the grant will be lost. The State is restricted in its selections to such lands as are subject to sale at private entry, at one dollar and twenty-five cents per acre, or, in other words, to such lands as have been offered at public outcry by President's proclamation, at one dollar and twenty-five cents per acre, and no purchaser found.

As all lands of this description may be purchased from the United States at that rate, and paid for in United States legal tender notes, while under the State law they are only offered at the same price in coin, it will be readily seen that no sales by the State will be likely to be made.

It is possible that upon representation to Congress, that in conse-

quence of the large quantity of mineral land within our State, and the fact that the greater portion of our best agricultural lands are covered by Mexican grants, but little of the public land has been surveyed, and but very little is subject to private entry, the law might be changed so as to permit this State, under the peculiar circumstances named, to select these lands from any public land after survey.

If such selections were permitted, the whole grant could be converted into money in one or two years, and a respectable fund derived for support of a college of the class designated in the grant.

TIDE LANDS.

The subject of the sale of marsh and tide lands within five miles of the Cities of San Francisco and Oakland, and one mile and a half of the State Prison, seems to have assumed an importance which I had not given it one year ago, when your attention was called to it in my annual report, nor does its importance seem to have been appreciated by the Honorable Board of Swamp Land Commissioners in May, eighteen hundred and sixty-four, when, in an official report to this office, they certified that the lands of this character sold by an Act of the Legislature (under an appraisal, to be made by them) to the Golden City and North San Francisco Homestead Associations, were worth three dollars per acre; nor could it have been appreciated by them in June of the previous year, when, in an official report to this office, they certified that the lands sold by an Act of the Legislature (under an appraisal, to be made by them) to the South San Francisco Homestead Association, were worth one dollar per acre.

The importance which has since been given to this subject induces me to give more fully than in my last report the circumstances under which certificates of purchase for some of this class of lands, in the vicinity of San Francisco and Oakland, were issued. The first demand since I have been in this office for a certificate of purchase of any marsh and tide lands within five miles of the Cities of San Francisco and Oakland, or one mile and a half of the State Prison, was made by the attorney of Mr. A. Lusk, for one hundred and twenty acres of land surveyed by the County Surveyor of Alameda county.

Although, after careful consideration of the laws, I agreed with him that either by design or careless legislation the lands were not exempted from sale, I refused to issue the certificate unless sustained by some other authority, that it was my duty to do so, and the question was referred to the Attorney-General by letter, referring him to all the laws on the subject, and stating fully the case, as follows:

STATE OF CALIFORNIA, STATE LAND OFFICE, }
Sacramento, February 23, 1864. }

To Hon. J. G. McCULLOUGH,
Attorney-General:

Albert Lusk has made application for a certificate of purchase for one hundred and twenty acres of salt marsh and tide land in Alameda County. It has been regularly surveyed, the survey approved, and

the twenty per cent and the first year's interest paid to the County Treasurer. There is no counter claimant, and no person making opposition. The law for the purchase of this land has been strictly complied with. I have heretofore refused to issue certificates of purchase of marsh and tide lands within five miles of the Town of Oakland, upon the supposition that they, as well as swamp and overflowed lands, were excluded from sale. This piece of land is at the outer limit, but within the five miles of Oakland. Lusk contends that section thirteen of the Act for the sale of swamp and overflowed lands, passed April eighteenth, eighteen hundred and fifty-eight, (on which I have relied as excluding these lands from sale,) expressly provides in terms that they may be sold. He also contends that the legislation providing for their sale continued in force and was reconfirmed in express terms by sections twenty-six and twenty-seven of the Act for the segregation and reclamation of swamp, marsh, and tide lands, and approved May thirteenth, eighteen hundred and sixty one. He further contends that the Act of May fourteenth, eighteen hundred and sixty-one, providing for the sale of salt marsh and tide lands, did not repeal former Acts, but ratified and confirmed sales made under them, and continued their provisions in full force, its prohibitions being intended to apply only to any attempt at purchase under its own provisions, leaving unrepealed the Acts of eighteenth of April, eighteen hundred and fifty-nine, and May thirteenth, eighteen hundred and sixty-one, providing for the sale of these lands. The only other Act having any bearing upon the subject is the Act of April twenty-seventh, eighteen hundred and sixty-three, and by reading section thirty it will be seen that these lands are entirely excluded from its provisions. A critical reading of the law has convinced me, that while my rulings have been correct in relation to swamp and overflowed lands within the boundaries mentioned, I should be doing injustice to applicants in making this ruling apply to marsh and tide lands. I certainly ought not to continue to refuse to issue this certificate, if not clearly sustained by the law; for I have no wish to invite litigation and personal expense, to have the Courts decide that my rulings are what the law should be, and not what it really is.

Shall I issue the certificate of purchase, or refuse and contest the case in the Courts?

Very respectfully, etc.,

J. F. HOUGHTON, Register,

By A. S. BENDER, Deputy.

Early in the month of March, no answer having been received to the above, at the request of Mr. Lusk's attorney I went with him to the office of the Attorney-General, who told me that he had examined the subject, and that the laws did not seem to exclude from sale the marsh and tide lands within five miles of San Francisco and Oakland and one mile and a half of the State Prison; but that he did not like at that time to give a full written opinion to that effect, as he was then engaged on behalf of the State in a suit to set aside a patent issued by Governor Downey for tide lands covering part of the prison brick yards, and such an opinion would be equivalent to an abandonment on the part of the State of her position in that case.

Upon examination of the records of my office, I found that while

Mr. Higley was Surveyor-General, Governor Downey had issued patents to the following persons for tide lands near the State Prison :

Date.	To Whom.	Acres.
April 18th, 1860.....	J. F. McCauley, for.....	40.35
August 8th, 1860	George N. Cardwell, for.....	50.33
October 23d, 1860.....	Martha Buckelew, for.. ..	11.84

All of which tracts were in close proximity to the State Prison, and the first named conveyed part of the brick yards.

The fact was also brought to my notice that in a suit brought at the instance of the Board of State Prison Directors, to set aside the first named patent, the Honorable Judge Southard, of the Seventh Judicial District Court, rendered a decision against the State, and sustaining the validity of the patent. (This case was subsequently abandoned on the part of the State, and the land purchased from the claimant under the tide land patent, for the use of the prison.)

On the twenty-third day of May I received from the Attorney-General the following reply to my letter of February twenty-third :

STATE OF CALIFORNIA, ATTORNEY-GENERAL'S OFFICE, }
Sacramento, May 23d, 1864. }

Hon. J. F. HOUGHTON,
Surveyor-General, Register, etc. :

DEAR SIR :—In reply to your question contained in a communication to me of February twenty-third, eighteen hundred and sixty-four, (which would long since have been answered, as I have explained to you verbally, had not the State's interests been involved in a similar case,) whether you were authorized to issue to one Albert Lusk a certificate of purchase to certain lands situate within five miles of the Town of Oakland, and belonging to the quality of salt marsh and tide ; reserving still a full answer to the general question involved in your letter, for the same reason that I have so long delayed this reply, and *only* for that reason, I advise you in this particular case to issue the said certificate to Mr. Lusk, upon his full compliance with the other provisions of the law.

I remain truly,

J. G. McCULLOUGH,
Attorney-General.

Upon the receipt of this letter, Mr. Lusk's certificate was delivered, and on the second day of June, evidence of full payment having been received with an application for a patent, it was made out and sent with the proper certificate, inclosed with the following letter fully explaining the case :

STATE OF CALIFORNIA, STATE LAND OFFICE, }
 Sacramento, June 2d, 1864. }

His Excellency FRED'K F. LOW,
 Governor of California :

DEAR SIR:—In February last Mr. Albert Lusk made application to this office for a certificate of purchase for salt marsh and tide lands situate between four and five miles from the City of Oakland. Up to that time it had been the practice of this office to regard such lands as exempt from sale under section thirteen of the Act of April twenty-first, eighteen hundred and fifty-eight, but upon a careful consideration of that Act, and the Acts of May thirteenth, eighteen hundred and sixty-one, (sections twenty-six and twenty-seven,) May fourteenth, eighteen hundred and sixty-one, and April twenty-seventh, eighteen hundred and sixty-three, I became satisfied that such practice was contrary to law, but refused to change the practice unless upon the opinion of the Attorney-General.

On the twenty-third of February, I stated the case to the Attorney-General, asking him what my duty was in the premises. A copy of this letter, with his reply, dated May twenty-fifth, is herewith inclosed, and in accordance with it I have issued the certificate.

Mr. Lusk has made payment in full and applied for his patent, certificate for which I send herewith. As this is the first instance in which a certificate has issued to any lands heretofore regarded by me as exempt under the Act first referred to, I desire to call your attention to it, that you may satisfy yourself before signing the patent.

I am, very truly,

Your obedient servant,

J. F. HOUGHTON,
 Register of the State Land Office.

On the seventh day of June the patent was returned to my office, signed by the Governor. Up to this time no certificates of purchase of any of the lands in question had been delivered from this office, except the one referred to as delivered to Mr. Lusk; but actuated only by a desire to know and perform my duty according to law, as bound by my oath of office to do, and regarding the accumulated evidence herein presented as sufficiently conclusive upon this point, from that time until the tenth day of December of that year certificates of purchase were issued to applicants who had in all respects complied with the law.

On that day I received a letter from the Attorney-General advising me to stay all proceedings in regard to the sale of the lands in question just where they were, which advice I have strictly followed.

On the twelfth day of December, two days later, the Attorney-General wrote me, referring me to the decision of the Supreme Court in the case of *The People, ex rel. Pixley, Attorney General v. Morrell*, which he regarded as settling the question against the sale.

Between the seventh day of June and tenth day of December, certificates of purchase were issued to twenty-seven applicants, for one thousand three hundred and thirteen and sixty-five one-hundredths acres within five miles of San Francisco, and to forty-four applicants for four thousand six hundred and eight and twenty-six one-hundredths acres within five

miles of Oakland, upon surveys and applications forwarded to this office by the County Surveyors of the respective counties.

Thirteen surveys and applications have been returned by the County Surveyor of San Francisco, embracing five hundred and ninety-five and forty-two one-hundredths acres more of these lands, which, under the last letter of the Attorney General, have been refused any action whatever in this office.

Three patents were, upon application, prepared for lands in Alameda County, and forwarded to the Governor, which have not been returned or issued.

No patents for any of these lands within five miles of San Francisco have been applied for, and consequently none have been prepared, and will be refused if applied for.

In concluding this subject, I desire to renew the recommendation contained in my last report in regard to the repeal of the laws relating to the sale of the lands in question.

MEXICAN GRANTS.

It is a subject of much regret that the State did not, in the settlement of the boundaries of the several grants bordering upon the bays and seashore, intervene in the different Courts of the United States, as a party in interest, to definitely determine and adjust the principle upon which the lines of such grants should be run with reference to the marsh and tide lands which are the property of the State by virtue of sovereignty.

It is represented that instances are not rare where grants have been confirmed, and surveys approved, and in some instances patents issued by the United States covering lands which are undoubtedly the property of the State, and which the action above suggested would have secured to her. These grants being made under the laws of the Mexican Republic, the grantees could only acquire title to such lands as were permitted to be or could be granted by Mexican law.

In the case of *Pollards v. Hagen* (3 Howard, 212,) it is held that "the shores of the sea passed to the State on her admission into the Union as incident to her sovereignty;" and in the Roman or civil law, from which the Mexican law is derived, the doctrine is well established that by the shores of the sea is meant the extreme tidal wave. In law (4 Tit. 28 of Partida, 3,) it is said: "By the seashore is understood all that space of ground covered by the waters of the sea in their highest annual swells, whether in summer or winter."

This position is sustained by various decisions of the Roman tribunals, one of which was rendered by Cicero in a cause in which he was arbiter. The civil law of the State of Louisiana has adopted the definition of the Roman law to fix the shore of the sea, and Article IV declares that, "By seashore we understand the space of land upon which the waters of the sea are spread in the highest water during the winter season."

The principles which should govern in defining boundaries of the kind referred to do not seem, in the many cases before the United States Courts, to have frequently engaged their attention, or to have been very strongly presented, from the fact that the State, who was chiefly the

party in interest to sustain the doctrine of the civil law, has entirely neglected to appear in these cases.

In the case of the *United States v. Thomas Pacheco*, before the United States Supreme Court, at the December term for eighteen hundred and sixty-four, on appeal from the decree of the United States District Court for the Northern District of California, which decree was in substance as follows :

“Where the sea or a bay is given as the boundary of a grant made by the Mexican authorities in California, the line of ordinary high water mark is intended.”

Mr. Justice Field, in rendering the opinion of the United States Supreme Court, uses the following language :

“By the common law, the shore of the sea, and of course of arms of the sea, is the land between ordinary high and low water mark—the land over which the daily tides ebb and flow. When, therefore, the sea or a bay is named as a boundary, the line of ordinary high water mark is always intended, where the common law prevails.” (3 Kent, 427.)

“And there is nothing in the language of the decree which requires the adoption of any other rule in the present case.

“If reference be had to the rule of the civil law because the bay is given as a boundary in the grant from the Mexican Government, the result will be equally against the position of the appellants.”

It will be noticed that Mr. Justice Field says that *when* the common law prevails, the ordinary high water mark is intended.

He also says that if reference be had to civil law, (which, as before shown, places the shore at the extreme tidal wave,) “the result will be equally against the position of the appellants,” without directly and positively declaring which law should govern in these cases.

In view of all these facts, I think it would be well to consider whether the interests of the State would not be subserved by intervening in all cases of grants which have not already been definitely settled and patents issued. Where they have been so settled, the evils arising from the disturbance of titles once regarded as perfect would doubtless be greater than any benefits which could possibly accrue to the State by securing the lands in question.

In all cases where the State has sold lands of this description to purchasers in good faith prior to the location of the grant, I believe it to be the duty of the State to maintain its honor by defending the purchaser in his title to the extent of the law.

Another case has come to the notice of this office in which I believe it to be the duty of the State to bring a suit to determine and quiet the title.

Soon after the passage of the first laws providing for the sale of the swamp and overflowed lands of the State, surveys were made by the County Surveyor of Sacramento County for applicants to purchase lands of that class lying a few miles below the City of Sacramento, and entirely outside of the boundaries of the grant known as the Sutter Grant, as then surveyed. Approvals were made, certificates of purchase, and in some instances, patents were issued by the authorities of the State for such lands.

The character of these lands is fully established by the segregation, affidavits, and surveys made under the direction of the Honorable Board of Swamp Land Commissioners.

A recent survey of the grant has included the lands embraced in many sales made by the State, and the purchasers contend that even the patent from the United States could not give title to the grantee for any lands of this description, for the reason that it is expressly stipulated in the grant to Sutter, "that lands overflowed by the swelling and current of the rivers shall not be included in said grant."

I have been shown what purports to be a printed copy of the grant, in which the above exception is made; and the purchasers from the State represent that they do not desire to be put to the expense and trouble of defending individual suits in ejectment, nor to abandon the land which in good faith they purchased of the State with promise of title; and they further claim, with much reason, I think, that the State should assume their position and defend them in title. I submit this for such action as will do them justice.

A narrow strip of land lying on the east bank of the Sacramento River, between the mouth of the American River and the Old Ford near the Town of Nicolaus, in Sutter County, was included in the original survey of this grant, and known upon such survey as Lot Number Five. After confirmation by the Land Commissioners, and survey embracing this land, Sutter and his agents sold, in small parcels, all, or nearly all, of this land to purchasing farmers. Subsequently it was rejected from the survey, and as it included some swamp and overflowed lands, applications were made in some instances by other persons to purchase from the State, but protest having been filed by the purchasers of the grant title, no certificates of purchase have issued to such other persons.

I suggest that, inasmuch as the purchasers have, in most instances, made valuable improvements upon such swamp and overflowed lands, that legislative action permitting them to enter such lands in preference to persons who have made no improvements, would be but an act of justice.

STATE LAND LAWS.

In consequence of the position which the Commissioner of the General Land Office had assumed with reference to State selections upon unsurveyed lands, I prepared a bill, which at the last session of the Legislature became a law, suspending the sale or selection of any unsurveyed lands in lieu of sixteenth or thirty-sixth sections.

This law has been productive of much good, and I desire again to recommend the passage of an Act which shall suspend or prohibit the location of school land warrants, and the sale or location of sixteenth and thirty-sixth sections proper, except upon lands which have been duly surveyed by authority of the United States.

After the passage of such a law, no sales of any class of unsurveyed lands donated by Congress would be authorized by law, except swamp and overflowed.

Considering all the difficulties which have grown out of the legislation which authorized such sales, it is a subject of much regret that any such laws were ever passed, and it is a serious question if the State will not

be liable in damages to the purchasers, in the event she fails to perfect their titles.

The State has in many instances sold and given certificates of purchase of lands which have been rejected by the General Land Office, and if any legislative protection can be given to the purchasers until the matter may be adjusted with the United States, I suggest that it be done. A few cases occur wherein land which has been segregated and returned to this office as swamp and overflowed, by the several County Surveyors acting under authority of the Board of Swamp Land Commissioners, as sold to purchasers as such, has, upon subsequent survey by the United States Deputy Surveyor, been returned as sixteenth or thirty-sixth section high land.

In either event the land is the property of the State, and I have informed the parties that I regarded their title sufficient, but as the parties have some doubt of the title thus obtained, I have, upon consultation with the Attorney-General, decided to recommend the passage of a law confirming all such titles. The law of April fifteenth, eighteen hundred and sixty-two, requires that any person making application for a duplicate certificate of purchase, the original of which has been lost or destroyed, shall publish in a newspaper in the county in which the land is situate, or in the paper published nearest the land described in the certificate, for four consecutive weeks, a notice of his intention to apply for a duplicate.

This law is regarded as oppressive by many, since the law for issuing the original requires no advertisement; and it is believed that an affidavit that the applicant was the owner of the certificate—describing it—and that he had not assigned or transferred the same, or the land described therein, would be all that is necessary, and less burdensome upon purchasers.

By an Act of the Legislature, approved April twenty-sixth, eighteen hundred and fifty-eight, the Supervisors of the several counties were authorized to sell the sixteenth and thirty-sixth sections of each congressional township within their respective counties.

In many instances, the Supervisors of several counties, proceeding under the law, sold at prices far in advance of the rates at which these lands were subsequently offered, and took bonds for deferred payments. Many instances have come to my knowledge where parties purchasing at these sales have asked to be released from their bonds, and to be permitted to purchase at the same rate as other purchasers of sixteenth and thirty-sixth sections, because the State, on the twenty-second of April, eighteen hundred and sixty-one, changed the price of these sections to one dollar and twenty-five cents per acre—the same as it was before the passage of this Act.

In a few instances, the Supervisors of San Joaquin County, regarding the eighteenth section of the Land Act of April twenty-seventh, eighteen hundred and sixty-three, as sufficient authority for the proceeding, directed the bonds of the purchasers to be cancelled, and the same parties applied to purchase under the Act of eighteen hundred and sixty-one, at one dollar and twenty-five cents per acre.

Not being satisfied that the authority was conferred by the section referred to, I refused to issue certificates of purchase under the last Act, until authorized by the Legislature to do so.

If it is desirable to permit purchasers at Supervisors' sales to abandon and purchase under subsequent Acts, the Legislature should pass an Act to that effect.

IRRIGATION.

This subject, which has been so often discussed in the annual reports of this office, has begun to engage the serious attention of the people of the State, as will be seen by reference to the report of the County Surveyor of Colusa County, to which I desire to call your attention.

About one year since, the residents of that portion of Colusa County lying near the Sacramento River, desiring to satisfy themselves of the practicability of constructing a large canal for the purpose of irrigating the arid plains of that county, secured the services of a thoroughly competent engineer, who, with the assistance of the County Surveyor of the county, ran a preliminary line of levels for a canal one hundred feet wide at the bottom, four feet deep, with side slopes of two to one, and from the line thus run, and an examination of the ground, an approximate estimate of excavation, and detailed estimates of head-gates, culverts, and waste-weir, were made for a first class work, the summary of which will be found in the report referred to.

The practicability of the work was fully demonstrated by the survey, and it only remains to present the plan to the public in a form which will secure profitable returns to secure its construction.

Along the line of the proposed canal, and its distributing branches, are hundreds of thousands of acres of public lands, rich in soil, but comparatively worthless for want of means of irrigation, without which it can hardly be expected that the General Government can ever dispose of them. Government surveys of many of the lands proposed to be watered have been made, and they are open to pre-emption, yet for want of irrigation crops cannot be matured, and but very few settlers have located there, and those only upon the choice spots. If the character of these lands was properly represented to Congress, the projectors of the enterprise believe that a grant might be made of them to aid in its construction, and I therefore present the subject as one of great interest to the State for such action as may be deemed proper.

Another company has been incorporated under the general law of the State for the purpose of diverting the waters of Putah Creek into a canal for purposes of irrigation. The exceedingly favorable topography of the country in the vicinity permits the construction at very light cost of a canal which will irrigate a very large body of land.

This work is exceedingly small in comparison with the proposed Colusa canal; but its small cost, the great advantages to be derived, and the large returns it promises to the owners, it is believed will secure its completion within the coming year, and fairly test the advantages to be derived from this method of farming.

SCHOOL LAND FUND.

I think it will be well to call the attention of the Legislature to the fact that the money arising from the sales of school lands, which forms part of the funds distributed for the support of common schools, is likely to be hereafter very materially diminished for the following reasons:

First—The rulings of the General Land Office before referred to, severally restricting the State in her school locations, will tend to retard sales.

Second—Selections have already been made in lieu of most school sections covered by the grants.

Third—Under the nineteenth section of the Land Act of April twenty-seventh, eighteen hundred and sixty-three, parties who have purchased lands which have proved not to have been the property of the State, are entitled to certificates of transfer for payments so made, which certificates can be used in payment for lands of the same class anywhere in the State.

The Supreme Court, at the January term for eighteen hundred and sixty-five, decided in the case of Grogan v. Knight, that selections of unsurveyed lands in lieu of sixteenth and thirty-sixth sections were invalid; and since the passage of the Act above referred to, certificates of transfer amounting to thirteen thousand and eighty dollars have been issued to persons who have abandoned their locations and called for them, which certificates, I presume, have mostly been paid in on other locations, instead of coin.

This will probably continue, and some other means may be necessary to replenish the School Fund.

YOSEMITE VALLEY, AND MAMMOTH TREE GROVE.

By an Act of Congress, approved June thirtieth, eighteen hundred and sixty-four, the Valley of the Yosemite and the Mammoth Tree Grove in Mariposa County were donated to the State, upon the express stipulation that neither should be sold; that they should be held for public use, resort, and recreation; that they might be leased in parcels for terms not exceeding ten years—all incomes derived to be expended in preservation, improvement, or on roads leading thereto. A visit during the past year to the first named place, has convinced me that a judicious system of leasing the valley land, or a law permitting parties to construct a road and charge a moderate toll, an easy mode of access may be made to these great wonders of nature.

With the exception of three or four miles, a road over the entire distance from Black's to the Valley House—thirty-four miles—could be built with very light cost.

STATE LANDS.

The amount of land which has become the property of the State under the various grants is as follows:

Description.	Acres.
Grant of sixteenth and thirty-sixth sections, about	6,755,000
Grant of swamp and overflowed lands, about.....	1,500,000
Grant for internal improvements*.....	500,000
Grant for a seminary of learning.....	46,080
Grant for public buildings.....	6,400
	8,807,480
Grant for an Agricultural College	150,000
Total	8,957,480

To this amount must be added the salt marsh and tide lands belonging to the State by virtue of her sovereignty, but their quantity cannot, for obvious reasons, be exactly known.

Up to the date of the present report, these lands have been disposed of as follows :

SCHOOL LANDS.

GRANT OF FIVE HUNDRED THOUSAND ACRES.

How sold.	Acres.
Under school land warrants prior to the passage of the Act of April 28th, 1858	237,760.00
For cash since that time.....	261,197.83
Total	498,957.83

Leaving a balance of one thousand and forty-two and seventeen one-hundredths acres, which is reserved as a margin to correct errors in the final adjustment of the grant.

GRANT OF SIXTEENTH AND THIRTY-SIXTH SECTIONS.

Amount located of Sixteenth and Thirty-Sixth Sections proper.

Districts.	Acres.
Stockton, surveyed.....	22,979.01
Stockton, unsurveyed	5,280.00
	28,259.01

* Diverted to school purposes.

Marysville, surveyed	24,531.81	
Marysville, unsurveyed.....	4,237.00	
		28,768.81
Humboldt, surveyed	6,524.50	
Humboldt, unsurveyed.....	1,280.00	
		7,804.50
San Francisco, surveyed.....	7,320.00	
San Francisco, unsurveyed ..	10,100.00	
		17,420.00
Visalia, surveyed		7,540.80
Los Angeles, unsurveyed		400.00
		90,193.12
Locations unapproved in above districts		1,992.21
Total located.....		92,185.33

The amounts of sales of these lands by the Boards of Supervisors of the different counties, under the Act of April twenty-sixth, eighteen hundred and fifty-eight, is, so far as reported to this office, eighteen thousand seven hundred and twenty acres.

LANDS TAKEN IN LIEU OF SIXTEENTH AND THIRTY-SIXTH SECTIONS,
RESERVED OR DISPOSED OF BY THE UNITED STATES, OR COVERED BY
PRIVATE GRANTS.

Districts.		Acres.
Stockton, surveyed.....	19,580.00	
Stockton, unsurveyed.....	32,731.19	
		52,311.19
Marysville, surveyed.....	33,980.12	
Marysville, unsurveyed.....	6,808.50	
		40,788.62
Humboldt, surveyed.....	10,693.64	
Humboldt, unsurveyed.....	7,560.00	
		18,253.64
San Francisco, surveyed	41,520.00	
San Francisco, unsurveyed.....	183,360.00	
		224,880.00
Visalia, surveyed.....		80.00
Los Angeles, surveyed.....	360.00	
Los Angeles, unsurveyed.....	9,088.40	
		9,448.40
		345,761.85
Locations unapproved.....		1,186.80
Total located.....		346,948.65

The above tables show the number of acres which have been located by individuals, and for which application has been made on behalf of the State to the Registers of the United States Land Offices of the several districts, except that the totals must be reduced by the amount of *relocations*. They must, however, be further reduced—in order to give the amount under location at this date—by the number of acres for which application has been made to the United States, and which has been sold by the State, but which have since proved to be within the boundaries of grants, or have been disposed of in such manner that the State's selections were necessarily abandoned.

Locations.	Acres.
Located on sixteenth and thirty-sixth sections.....	92,185.33
Located in lieu of sixteenth and thirty-sixth sections.....	346,948.65
Total applied for.....	439,133.98
Deduct relocations..... 3,841.00	
Deduct abandoned..... 29,160.00	
	33,001.00
Total under location... ..	406,132.98

Of the amount stated as under location, quite a large amount has produced nothing to the State, for the reason that many of the locators have failed to make the first payments, and have forfeited the right to purchase.

SEMINARY LANDS.

GRANT OF SEVENTY-TWO SECTIONS.

Locations.	Acres.
Amount of grant.....	46,080.00
Located in Marysville District..... 29,119.80	
Located in Visalia District... .. 1,280.00	
Located in Humboldt District..... 10,041.36	
Located in San Francisco District..... 3,204.66	
Located in Stockton District..... 320.00	
Amount not located	43,965.82
Amount located and abandoned, being within the lines of a grant	2,114.18
Amount subject to location.....	2,080.00
	4,194.18

The amount relocated is three hundred and twenty acres.

PUBLIC BUILDING LANDS.

GRANT OF TEN SECTIONS.

Location.	Acres.
Amount of grant.....	6,400.00
Located in Marysville District..... 96 1.00	
Located in Stockton District..... 1,600.78	
Located in Humboldt District..... 1,283.00	
Located in Visalia District..... 1,294.24	
Located in San Francisco District..... 320.00	
	5,458.02
Amount unlocated.....	941.98

The amount relocated is one hundred and sixty acres.

STATE SCHOOL LAND WARRANTS,

Located under the Act of April 23d, 1858.

Location.	Acres.
Located at date of last report	22,572.00
Located since date of last report.....	4,888.36
Total to date of this report.....	27,460.36

The above amount refers to the locations approved by the Surveyor-General and recorded in the State Land Office. There are, in addition, in the office of the Surveyor-General, unapproved locations to the amount of eight thousand four hundred and eighty acres. Of these, as stated in the last annual report, five thousand one hundred and twenty acres are embraced in locations within the limits of the City and County of San Francisco, and can be approved only upon the Court to which the case has been referred so deciding.

STATE SCHOOL LAND WARRANTS,

Located upon Unsurveyed Lands, under the Act of April 18th, 1859.

Location.	Acres.
Located at date of last report.....	65,200.00
Located since date of last report.....	480.00
Total	65,680.00
Deduct abandoned	10,960.00
Total located at date of this report.....	54,720.00

It is known that a large number of warrants were located through the United States Land Office, or by County Surveyors, under the Act of eighteen hundred and fifty-two, but the amount is not now known, as many of the original locations have been abandoned and the warrants floated. Under the provisions of the twenty-sixth section of the Act of April twenty-seventh, eighteen hundred and sixty-three, the Register has issued his certificate for the duplicates of such warrants as were shown to have been lost or destroyed, or in any manner rendered unavailable to the owners. In the few instances in which the original warrants were not cancelled and in the possession of the Register, the bonds required by the Act have been furnished.

SWAMP AND OVERFLOWED LANDS.

Sales.	Acres.
Sold at date of last report.....	753,705.63
Sold since date of last report.....	39,818.66
Total	793,524.29
Deduct re-surveys	22,396.47
Deduct abandoned.....	15,138.26
	37,534.73
	755,989.56
Sold during the year.....	39,818.66
Applied for during the year.....	16,599.19
	56,417.85
Deduct re-surveys.....	10,411.37
Original surveys.....	46,006.48

SALT MARSH AND TIDE LANDS.

Sales.	Acres.
Sold at date of last report.....	12,598.24
Sold since date of last report.....	1,180.89
Total sold.....	13,779.13
Unapproved surveys.....	3,054.52
Total applied for.....	16,833.45

Under the provisions of the nineteenth section of the Act of April twenty-seventh, eighteen hundred and sixty-three, certificates have been issued to locators of lands which have since proved not to have been the property of the State. The amount so abandoned by the State is as follows:

Sixteenth and thirty-sixth sections, and lands taken in lieu thereof.....	29,160.00 acres.
Swamp and overflowed lands.....	15,138.26 acres.

It was stated in the last annual report that lists of the defaulting purchasers of swamp and overflowed lands in the Counties of Sacramento and Tulare, had been published, and those for the Counties of Yolo, Solano, and San Joaquin, entirely or nearly prepared for publication. These last were soon after also published, and in due time suits were brought against those who failed to make payment.

Copies of forty-five decrees of annulment of certificates of purchase have been filed by the District Attorney of Sacramento County, one hundred and twenty-three by the District Attorney of San Joaquin County, and two by the District Attorney of Yolo County. None have as yet been received from Tulare or Solano; but in these, as in the others, the effect of the publication has been to induce payments by many who had fallen in arrears. During the past year a second list has been published in Sacramento County, and also a list of purchasers of school and seminary lands who have failed to comply with the conditions of purchase. I would here renew the recommendation, that some method of giving notice to delinquents, involving less labor and expense, may be legalized.

I append hereto the statistical report, which, I regret to add, is as imperfect and unreliable as those of past years. In view of the value and importance of such tables when full and correct, I would recommend the passage of an Act allowing the sum of fifty dollars to each County Assessor, and to each Recorder in those counties where there is no Assessor, who shall make a satisfactory report of the statistics of his county, upon the blanks furnished by the Surveyor-General, to be paid

out of the General Fund, upon the certificate of the Surveyor-General that such report has been received. It would be well also if it could be provided that the Boards of Supervisors should withhold say twenty-five per cent of the compensation allowed the Assessors until the certificate of the Surveyor-General should be presented.

STATEMENT

Of the Expenditures of all Appropriations (other than salaries) for the Offices of the Surveyor-General and Register, from the 1st of November, 1864, to the 1st of November, 1865.

For what purposes Expended.	Amount.
Office rent.....	\$660 00
Postage and expressage.....	176 25
Binding books, and contingents.....	234 75
Purchase of maps, plats, etc..	262 75
	1,333 75

J. F. HOUGHTON,
Surveyor General and Register.

By A. S. BENDER, Deputy.

Subscribed and sworn before me, this fourth day of November, eighteen hundred and sixty-five.

SAMUEL CROSS,
Notary Public, Sacramento County, Cal.

[SEAL.]

APPENDIX.

REPORTS OF COUNTY ASSESSORS.

COLUSA COUNTY.

E. McDANIEL.....County Assessor.

COLUSA, Colusa County, }
September 16th, 1865. }

Hon. J. F. HOUGHTON,
Surveyor-General:

SIR:—Inclosed please find my statistical report of this county for the year eighteen hundred and sixty-five. There has been some falling off in the number of cattle, hogs, and sheep, on account of the scarcity of grass and the total failure of the crops last year, and they have not been brought back.

The statement I made last year in regard to the great natural agricultural advantages of this county, it is unnecessary to repeat, as the remarks then made, particularly in regard to the character and quality of the soil, would now equally apply. The soil of a great portion of this county is probably as rich in all the essential elements necessary for the production of certain crops as that of any other county in the State. We need more improvement in the cultivation of the soil. I alluded in last year's report to the great necessity of irrigating ditches. Wherever this system has been tried it works well. There are some small ditches in the county that proved their utility this last year by giving at least ten bushels of grain more to the acre than other land in the same field, equally as good, that had the same kind of ploughing. The soil of this county is mostly adapted to wheat, barley, oats, and corn. There are but very few vegetables raised in this county—scarcely enough for home consumption. My last year's report in regard to timber and its location is applicable this year.

An oil district has been located in this county. Those acquainted with petroleum think the prospect very good. There are several wells under way. Some have got down one hundred and fifty feet, and say the prospect is good.

The grain crop in this county was only tolerable, although we have plenty in comparison with last year. The hay crop was very good. There was not more than half a crop of fruit.

Yours respectfully,

E. McDANIEL,
County Assessor of Colusa County.

CALAVERAS COUNTY.

WILLIAM J. DAKIN.....County Clerk.

CLERK'S OFFICE, Calaveras County,
Mokelumne Hill, November 7th, 1865. }

Hon. J. F. HOUGHTON,
Surveyor-General:

SIR:—Herewith I send statistical report, as compiled from the lists of Township Assessors, as the same remain on file in this office. The report is not as complete as it should be, but embraces all statistics shown by said lists, which is the only guide we have in making up the report. We received blanks from your office in early spring, which were promptly delivered to the Assessors, at the same time reminding them of their duty in the matter, and not one of them has made any return to this office, except such as appears upon the lists—all of which has been carefully copied into the inclosed report.

Truly yours,

WILLIAM J. DAKIN,
Clerk of Calaveras County.

BUTTE COUNTY.

J. BEAN.....County Assessor.

COUNTY ASSESSOR'S OFFICE,
Oroville, September 11th, 1865. }

Hon. J. F. HOUGHTON,
Surveyor-General:

SIR:—I herewith inclose statement of the agricultural and other statistics of Butte County, compiled from the assessment books for the year eighteen hundred and sixty-five, as also an abstract of the assessed value of real and personal property, with the amount of taxes for State and county purposes levied thereon.

There has been an increase in the various productions of the county

over last year, the principal productions being wheat, barley, and hay. In stock there has been a decrease of about one third, owing to a law passed by the last Legislature, known as the fence law, which has compelled farmers owning small lots of stock, to remove them to the mountains and other counties where such laws do not exist.

By way of improvements, we have twenty-six miles of railroad, and the cars making their regular trips to and from Marysville. We also have about one hundred miles of turnpike, to wit: the Woodville, Dogtown, and Chico Roads, which have been built in the last year, at a cost of over sixty thousand dollars.

The special attention given to the tillage of orchards and vineyards throughout the county, is apparent from the quantity and excellent quality produced.

The grape production and wine making interest of the county are rapidly growing in importance, and in a year or two will be paramount to the culture of all other kinds of fruit. The cultivation of the grape and the manufacture of wine are alike understood, and the pursuit will soon lead to a large and constantly increasing revenue from that source.

Bees have done very poorly for the last two years. Instead of doubling or trebling their number, there are but few more hives in the county than last year. The seasons have been peculiarly unpropitious for this indefatigably industrious insect, the more than ordinary length of the dry season militating greatly against them, in procuring the desired nectar from the vegetable kingdom.

The statement made in former reports in regard to the natural agricultural advantages of the county, is unnecessary to repeat, as the remarks then made, particularly in regard to the character and quality of the soil, would now equally apply. The soil of this county is probably as rich in all the essential elements necessary for the production of crops as any in the State. More attention is given to improved methods of cultivating the soil, and all the agricultural implements of modern invention and improvement are coming generally into use. Deep ploughing is approved and generally practiced by the farmers. Husbandmen generally approve the practice of planting their crops on fallow land. This method of cultivating facilitates the early sowing of seed, extending to the crops all the benefits afforded by time before the dry weather of early summer sets in. The agricultural productions of the county mainly consists in wheat, barley, and corn.

Since the last report, I am happy to be able to state that improvements are progressive, and of a permanent nature. We can boast of some as good roads as any in the mountains, and bridges and ferries are now in good order for travel.

A manifest improvement is discernible in the interest taken by our citizens in public schools, since the last report. Our population is becoming more settled, and the number of children increasing, and our School Fund, judiciously managed, will give a good ratio to each scholar.

The assessment this year is two million five hundred and sixty-six thousand six hundred and twenty four dollars, being over five hundred thousand dollars less than last year. This is caused by the fence law compelling owners of stock to take it out of the county.

Of electro magnetic telegraph in this county, we have but one, valued at about twenty-five hundred dollars; length, fifty-four miles.

I am, sir, yours, very respectfully,

J. BEAN,
Assessor Butte County.

SAN DIEGO COUNTY.

JOHN L. McINTIER.....County Assessor.

ASSESSOR'S OFFICE, San Diego County, }
October 6th, 1865. }Hon. J. F. HOUGHTON,
Surveyor-General:

SIR:—In compliance with the law, I herewith beg to transmit to your office my annual report of statistics, etc., of San Diego County.

Boundaries: north by Los Angeles and San Bernardino Counties, east by the State line and Mexican boundary, south by Lower California, and west by the Pacific ocean.

The land of this county, with few exceptions, is generally adapted to grazing purposes. There are a few intervening valleys of excellent agricultural land, which, so far as cultivated, have produced equal to any land in the State. The low prices which agricultural products now command, and the distance of the county from the principal markets, have had a tendency to retard agricultural pursuits, and much land that might be advantageously cultivated is now left for the free use of stock. The interior or mountainous district of the county is generally well timbered, chiefly oak. In the neighborhood of San Isabel are fine pineries, sufficient to supply for many years all the timber that may be required for building or for purposes of internal improvement.

In regard to the articles of butter, cheese, eggs, chickens, etc., I found it impossible to collect any correct information, as but few, if any, farmers keep account of the amount they sell or the average price of the same.

The accompanying schedule shows the various agricultural products of the county; also its fruit trees and vines, live stock, etc., on examining which it will be seen that there is a considerable falling off in some instances from last year.

I remain your obedient servant,

JOHN L. McINTIER,
Assessor of San Diego County.

SANTA CRUZ COUNTY.

N. TAYLOR.....County Assessor.

SANTA CRUZ, September 22d, 1865.

Hon. J. F. HOUGHTON,
Surveyor-General:

SIR:—In compliance with the law, I herewith send you the statistics of this county. I have estimated the products of the county for this year, and think it as nearly correct as by taking the amount from last year.

Besides the saw and grist mills which you find in the report, there are several shingle and lath machines that turn out large quantities.

The California Powder Works manufacture on an average four thousand kegs, of twenty-five pounds each, per month. More could be, and sometimes is, made, but take the season through this is about the average.

The San Lorenzo Paper Company has a capacity for manufacturing more, but the following is about the average per month: Eighteen hundred reams straw wrapping paper, twenty-four thousand pounds printing paper, besides other kinds.

Our tanneries manufacture some sixty thousand pounds of leather per month.

Our limekilns turn out some seven thousand or eight thousand barrels per month.

The Petroleum Company has ceased to make oil by retorting, and have commenced boring for oil, with what success I am unable to state. I saw a steam engine going up to the works a few days since, and concluded they meant to prosecute the work more vigorously. We may hope by another season to report largely on oil.

All of which is respectfully submitted.

N. TAYLOR,

Assessor of Santa Cruz County.

SAN JOAQUIN COUNTY.

W. B. STAMPER.....County Assessor.

COUNTY ASSESSOR'S OFFICE, San Joaquin County, }
Stockton, October 27th, 1865. }

Hon. J. F. HOUGHTON,
Surveyor-General:

SIR:—In compliance with the duties of my office, I have the honor to submit the following report, the details of which will be understood by reference to the statistical table accompanying.

It will be discovered, by comparing the table of this year with those of the preceding, that there is cause for congratulation in the plainly demonstrated recuperative energy which the county exhibits, especially in the agricultural and farming interests. The strong contrast between the fruitful and favorable season which has just rewarded the farmer and the season of last year, which left him so hardly smitten by drought, is plainly seen in the figures which I have this year the pleasure of laying before you.

It will be seen that there is less land this year under cultivation in this county than there was during the last, if we exclude from that head the few thousand acres which have been devoted to pasturage, of which there was none in the tables of eighteen hundred and sixty-four; and yet, notwithstanding this fact, the yield in produce, when compared with the preceding year, seems to present the cheering evidence that,

so far as the necessities of life are concerned, one abundant harvest will compensate for the poverty of two lean years. About one fifth less land was sown in wheat this year than last year, and the product is nearly eight times as large, as for instance :

In the year eighteen hundred and sixty-four, fifty-three thousand and sixteen acres produced one hundred and ten thousand two hundred and sixty-nine bushels of grain, and in eighteen hundred and sixty-five, forty-three thousand three hundred and twenty acres produced nine hundred and twenty-seven thousand three hundred and sixty bushels of grain.

The barley crop exhibits the same gratifying result, and adds additional evidence to show how quickly the prosperous seasons, under our genial skies, can repair the disasters of a drought.

In the year eighteen hundred and sixty-four, eighty thousand nine hundred and ninety-three acres produced one hundred and sixty-six thousand six hundred and twenty-three bushels of grain; in the year eighteen hundred and sixty-five, ninety thousand four hundred and seventy-three acres produced two million four hundred and forty-two thousand seven hundred and seventy-one bushels of grain; and by further comparison the extremes are of attractive interest—for the average yield of wheat per acre, in eighteen hundred and sixty-four, appears to have been about two bushels, while in eighteen hundred and sixty-five, it is some twenty-one and a half bushels. The same parallel, of course, is apparent in the barley crop; for while in eighteen hundred and sixty-four the average of bushels per acre is found to be about two bushels, in eighteen hundred and sixty-five it has risen to some twenty-seven. I have thought it proper to direct your attention to these particulars, in view of the chief object contemplated by the system which imposes this certain duty upon the County Assessors as your auxiliaries, and have taken the chief agricultural staples for the purposes of illustration.

The returns show that the culture of cotton and tobacco, the experimental attempts in the raising of which have been watched with interested pride, have been abandoned for the present in this district. This may not be a conclusive result of the experiment, but can be attributed to the probable fact that the farmers have thought it prudent to devote themselves to the chief objects for this year, and reserve their experiments for a time when the pinch of the drought shall be forgotten.

Grape growing has been attended with success, the vintage of this year showing a prosperous and healthy condition of the vineyards. This branch of agricultural industry has been steadily improving and growing in favor, and already the exports of grapes from this county, together with the wines made, give the highest promise of excellence which will be attained in this particular in this valley.

The number of stock, both horses and cattle, has diminished. This may be credited to the influences of the former year, when the stock-owners were forced to seek other fields for pasturage, and the deficiency thus caused has not been supplied.

The subject of irrigation, on some large and systematic plan, is of vital importance to this section of the country. As yet, no one of enlarged views of public policy has thought it a matter of sufficient importance to invent and propose a practicable plan, by which the great grain growing fields, which lay between the rivers, can be measurably protected, by artificial supply, against the dangers of dry seasons. Except in one instance, there is no section in this county protected on a large scale, and that is owing to individual enterprise rather than any

combined effort of farmers: it is where the dykes of the Calaveras River, constructed for the purpose of keeping that river within its banks, have also the advantage of being so arranged that when the occasion requires they can be made useful for irrigating much of the land contiguous.

I have nothing to report in regard to internal improvements existing, although several lines of railroad and turnpikes, greatly needed, have been much discussed, anxiously expected, and patiently waited for; there is some reason to believe from the liberal subscription made by this county, and the fact that a corps of surveyors, apparently engaged in defining a route for a railroad, were seen during the summer in this section, that there will be a railroad in this part of the valley.

All of which, I have the honor to submit for your consideration.

W. B. STAMPER,
County Assessor of San Joaquin County, Cal.

DEL NORTE COUNTY.

GEORGE W. RUSSELL.....County Assessor.

COUNTY ASSESSOR'S OFFICE,
Crescent City, October 16th, 1865. }

Hon. J. F. HOUGHTON,
Surveyor-General:

SIR:—Herewith you will find my report as County Assessor for the year eighteen hundred and sixty-five. I have given such items only as can be depended upon as correct.

The farming land of this county is confined to two valleys. The land cannot be excelled by any in the State, and always gives a large return to the farmer for his labor. In regard to fruit—apple, pear, cherry, and plum trees yield in abundance. We have a vast forest of timber running through our county—redwood, fir, hemlock, spruce, and pine, abound in great abundance. Our copper mines have lain idle this summer, with but one or two exceptions, all for the want of “the needful” to continue them.

Respectfully, yours,

GEORGE W. RUSSELL,
Assessor of Del Norte County.

LAKE COUNTY.

NICHOLAS PHELAN.....County Assessor.

LAKE COUNTY, October, 1865.

Hon. J. F. HOUGHTON,
Surveyor-General:

SIR:—I had concluded that it was not required to send you the statistical reports this year, as the Secretary of the State Agricultural Society

requested me as a favor to collect them and send them to him, which I have already done.

I have one thing to mention in regard to the prosperity of this county, that on account of the severity of last winter, great numbers of cattle, hogs, and sheep died from starvation—nearly one third, if not more—which reduces the valuation of personal property this year some forty thousand dollars. There is not much difference in the improvements and real estate. These statistics are correct. I took considerable pains to get them correct. Hoping this explanation will meet your approbation, I remain,

Yours, with respect,

NICHOLAS PHELAN,
County Assessor.

MARIPOSA COUNTY.

A. C. KELLY.....County Assessor.

OFFICE OF COUNTY ASSESSOR,
Mariposa, October 28th, 1865. }

Hon. J. F. HOUGHTON,
Surveyor-General:

SIR:—In conformity with the law, I submit my annual report for the year eighteen hundred and sixty-five, which is as full and correct as I have been able to ascertain by careful investigation.

I am pleased to state that there has been an increase in the productions of the county over last year. A favorable season has enabled our farmers and stock raisers to retrieve in a great measure the losses sustained the year previous.

Owing to the fact that a great portion of the placer mines of our county have been worked out, miners have turned their attention to quartz mining and prospecting, the result of which is the discovery and development of gold-bearing quartz veins hitherto unknown.

Copper mining is also attracting considerable attention. In what is known as the Hamilton District, in the southern portion of the county, smelting furnaces have been erected, and from tests of ore from the different veins in the locality, the district promises to be as rich in copper as any in the State. In Hunter's Valley, in the northeast part of the county, there have been found rich veins of copper ore. In this district is located the celebrated La Victorie mine, which in richness surpasses any in the county.

Many improvements of a permanent nature have been made during the past year, and our county gives evidence of prosperity that cannot fail to be gratifying.

Very respectfully, your obedient servant,

A. C. KELLY,
Assessor of Mariposa County.

MONTEREY COUNTY.

W. P. McGARVEY.....County Assessor.

ASSESSOR'S OFFICE, Monterey County,
 Monterey, September 12th, 1865. }

Hon. J. F. HOUGHTON.

Surveyor-General:

SIR:—I herewith transmit to you my statistical report for the present year, as compiled from the original lists made at the time when taking the assessments, and from all such information as I could collect and deemed most reliable. In gathering such information I have used all possible diligence, and employed as much time as my official duties would permit, in order to give a statement of the actual resources of this county as correct as possible.

I have not set down in the aforesaid report the agricultural products of last year, the crops, with a few exceptions, having proved a complete failure; and having finished my canvas for the present year before the various products were matured or gathered, I can give but the estimate of them, which estimate, made according to the judgment of persons most apt to discern in the matter, I believe very near exact.

The crops generally were promising, especially those early put in. Late crops did not do so well on account of want of late rains.

As may be seen by the account of the surviving stock and beef cattle, the two years' drought has been severe to them. Of seventy thousand head existing a few years ago, only thirteen thousand are left; and if those are remaining it is owing to the great slaughter made during the last two years for hides and tallow, or even for the hides alone, leaving thus a chance to the remainder of getting through. The surviving stock are mostly all young cattle, two and three years old. But few calves of last year escaped, the greater part having been killed to save the cows.

Sheep have likewise suffered considerably; the loss of them from August, eighteen hundred and sixty-four, to March, eighteen hundred and sixty-five, may be estimated at seventy-five thousand. The greater part of last year's lambs had to be killed. The clip of wool has this year been rather below the average.

Horses have generally held out better than other stock, but they have not escaped without great loss.

This year there is abundance of pasture—a great deal more than the surviving stock can consume. The appearance of the country, mountains, and valleys, presents a great contrast with the desolate aspect of last year. Cattle are not expected to get poor next winter unless from exposure.

Mining has for the present been abandoned in this county. The Burri-Burri Copper Mine alone is in active operation, but until now I have not been able to ascertain the result obtained.

A short time ago a discovery was made in the vicinity of Peach Tree Valley, about seventy-two miles distant from Monterey City, of a substance having all the appearance of coal; it is shining, the grains run horizontally and the layers are thin. It is rather brittle; but whether coal or crystalized asphaltum has not yet been determined. Opinions

discovered in trials have been made in several places with indifferent result. It must be remarked that the specimen brought for examination was said to have been taken from the surface. Should it, nevertheless, prove to be coal, there will be a drawback in the great distance from its locality to a place of shipment or market.

Resubmitting for going.

I remain, very respectfully, your obedient servant.

W. L. MCGARVEY,
Assessor Monterey County.

By L. RIVEROZ, Deputy.

NAPA COUNTY.

B. W. ARNOLD.....County Assessor.

Assessor's Office, Napa County. }
September 15th, 1885. }

Hon. J. F. Henshaw,

Surveyor-General:

Sir—Herewith I send the statistics of this county. They are not as complete as I could wish, but are as near as I can well make them from the assessment rolls on hand. There are several items I have left blank on the return, among which are poultry, butter, eggs, and some other things which it is impossible to make anything like a correct estimate.

Yours respectfully,

B. W. ARNOLD,
Assessor Napa County.

SAN FRANCISCO COUNTY.

Supplemental for 1885.

PLUMAS COUNTY.

A. D. HALLSTED.....County Assessor.

Quincy, September 24th, 1865.

Hon. J. F. HAUGHTON,

Surveyor General:

SIR:—I herewith transmit to your office my annual report as Assessor of Plumas County, accompanying which please find statistical report of all such matters pertaining thereto as are possible to be attained with any degree of correctness.

The taxable property of this county, for the present year, is as follows:

Description.	Value.
Personal Property.....	\$507,389
Real Property.....	483,545
Total.....	\$990,934

Increase over last year, one hundred and twenty thousand dollars.

It is impossible to give, with any degree of certainty, any report in regard to the mining productiveness of this county. In addition to our placer and quartz mines we have recently discovered veins of copper ore that bid fair to be of great extent and of vast richness.

Hoping this will be sufficient,

I remain, respectfully, your obedient servant,

A. D. HALLSTED,

Assessor Plumas County.

ANNUAL REPORT

OF THE

ATTORNEY-GENERAL

FOR

THE YEAR 1865.

O. M. CLAYES.....STATE PRINTER.

ANNUAL REPORT.

ATTORNEY-GENERAL'S OFFICE,
SACRAMENTO, November 6th, 1865. }

To His Excellency,
FRED'K F. Low,
Governor of California :

SIR :—In compliance with the provisions of the law organizing this department and prescribing its duties, I submit this report and make the within suggestions.

A transcript of my official docket for the past two years is annexed, which exhibits the condition of the litigation of the State at the time of this report ; from an inspection of which transcript, the kind, character, and nature of the State cases may be accurately seen, and in some measure the labors devolving upon this department estimated. The docket embraces a greater number of cases for either year than is to be found in the dockets for a like period of my predecessors for years past. This does not necessarily indicate an increase of crime, however, as many tax cases are now appealed to the Supreme Court. Most of these one hundred and thirty odd cases I have orally argued or filed briefs therein, or both.

During the past two years I have attended to the cases in the lower Courts where the interests of the State were involved, though such service is not strictly enjoined by law.

The official correspondence of this office is large, and is growing. The duty of preparing various contracts for the Capitol Commissioners, Prison Directors, and other Boards and officers, has devolved upon me. Many opinions upon the construction of the stamp, election, bounty, revenue, land, and other laws, have been given to the Governor and the State Boards, and the different heads of departments, and to the District Attorneys and the various other county officers, but are too voluminous to be incorporated in this report, some of which, however, have appeared in the public journals of the day, and all of which are at the call of the Legislature.

Before I came into office, suit had been instituted in the District Court of the Sixth Judicial District by Peter H. Burnett, against the Treasurer of State, to recover from his possession ten State bonds, amounting to eight thousand five hundred dollars, (\$8,500,) which he alleged his agent

had criminally disposed of, and which had been presented to State Treasurer Findley by the banking house of D. O. Mills & Co., and by the State officers wrongfully redeemed in September, eighteen hundred and sixty. Judgment was for the State in the Court below, and upon appeal to the Supreme Court I succeeded in obtaining an affirmance of that judgment, though it was given upon technical grounds, which I felt myself bound to take as Attorney of the State. The case is reported in 27 Cal., page 408. There is still outstanding, and not in the hands of Judge Burnett, one other bond of one thousand dollars, (\$1,000.) and indorsed by him "Not for sale," as were the other ten, and which has lately been presented for redemption, but which I have advised the Treasurer not to redeem until it is settled by suit, or in some other authoritative way, to whom it belongs, and who is entitled to present it for redemption.

Soon after assuming office, knowledge came to me of a reported defalcation in the accounts of the late State Controller, G. R. Warren. Upon an examination of the Controller's books instituted by the other Stamp Commissioners and myself, assisted by the present Controller, the defalcation was found to be in the stamp account, and to amount to twelve thousand two hundred and seventeen dollars and ninety-two cents (\$12,217 92.) I at once, on January fourth, eighteen hundred and sixty-four, commenced suit against Warren and his sureties upon his official bond in the District Court of the Sixth Judicial District for Sacramento County, and in due course of proceeding obtained judgment for the full amount and costs; the whole of which, together with interest, was subsequently collected from and paid by the sureties—said to be the first instance of the kind in the history of the State. The whole amount collected was twelve thousand seven hundred dollars and thirty cents (\$12,700 30) in United States legal tender treasury notes; eleven thousand four hundred and thirty dollars and thirty cents (\$11,430 30) of which was paid into the State Treasury, and the balance, one thousand two hundred and seventy (\$1,270) in said notes was retained and expended by this office for the fifteenth fiscal year, under the law of April third, eighteen hundred and sixty-two. The amount was received in two payments, and upon the days of the receipt was paid into the Treasury—ten thousand dollars (\$10,000) on May third, eighteen hundred and sixty-four, and one thousand four hundred and thirty dollars and thirty cents (\$1,430 30) on November tenth; a detailed account of which may be found in my report to the Stamp Commissioners and the Controller.

Together with the Board of State Prison Directors, I have been during my term making every effort to settle the vexed question of the title to the lands at Point San Quentin, and to obtain for the State, at the least expense possible, sufficient land and ample room for all the purposes of an excellent and efficient prison management.

My immediate predecessor had taken steps in the Fourth District Court, in the City of San Francisco, for the condemnation of one hundred and fifteen acres of land adjoining the prison grounds under the law of eighteen hundred and sixty-three (Stat. 1863, p. 224.) Condemnation had been decreed by the Court in August, eighteen hundred and sixty-three, and the value of the land assessed by the jury at sixteen thousand six hundred and seventy-five dollars (\$16,675.) The money was soon afterwards drawn from the public Treasury. Early in January, eighteen hundred and sixty-four, a contest arose among the claimants as to who was entitled to the moneys, of which I was notified, and also was notified by the Clerk of the Fourth District Court that the draft of a deed for

the said lands had been deposited with him, to be executed in favor of the State. I at once visited San Francisco, and carefully examined the record of the proceedings of condemnation, and upon such an examination was clearly of the opinion, owing to material defects in the proceedings taken, that the State had acquired no title to the lands, and none of the contestants any title to the moneys. I then moved for an order to have the money paid into Court, which motion was granted, and in pursuance thereof fifteen thousand eight hundred and eighty-seven dollars and fifty cents (\$15,887 50) in coin was paid in. I then, on March twelfth, eighteen hundred and sixty-four, moved the Court to quash all the proceedings, and to order the moneys to be paid over to the State, which was taken under advisement. Pending this contest, and assuming that the State had thus far acquired no title to the lands, and to provide for every contingency, I drew up a new law for condemnation purposes, which was passed by the last Legislature (Stat. 1863-4, p. 310.) but which was not intended to be resorted to except as a last expedient if the State could not acquire title to more lands and in a better and cheaper way. The law has not been called into requisition, as a better specific has been found. My motion of March twelfth was denied by the District Court on May twenty-sixth, and I appealed to the Supreme Court, which Court sustained my motion, and decided at the January term, eighteen hundred and sixty-five, (the case is reported in 27 Cal., p. 171,) that the proceedings of condemnation being void the State acquired no right to a deed, nor did the owners of the land acquire any right to the money. The order denying the motion was reversed, and the Court below directed to enter an order quashing the entire proceedings, and directing the money in Court to be refunded to the State. Upon the going down of the remittitur I obtained all the moneys which were in the custody of the District Court, namely, fifteen thousand eight hundred and eighty-seven dollars and fifty cents (\$15,887 50,) which amount in coin was on February fourth, eighteen hundred and sixty-five, paid into the State Treasury. On October eleventh, eighteen hundred and sixty-five, I received the balance of the verdict for damages, namely, one thousand one hundred and sixty-five dollars and ninety-four cents (\$1,165 94) from my predecessor, and on the same day paid over the same in coin to the State Treasurer. The total amount collected for the State was seventeen thousand and fifty-three dollars and forty-four cents (\$17,053 44,) being the amount of the original verdict and all costs. A detailed account may be found in my report to the Controller of October eleventh, eighteen hundred and sixty-five. In the meantime, however, as the Prison Directors needed the land, and were in actual though illegal possession of a part of it, upon the representation and the request of the State authorities, our delegation at Washington succeeded in carrying through Congress an Act, approved June twenty-fifth, eighteen hundred and sixty-four, granting about four hundred and fifty acres of land adjoining the prison grounds to the State (U. S. Stat. at Large for 1863-4, p. 194.) The owners of the rancho "Punta de Quentin," however, claim that the grant interferes with their rights, and assumes to take away their lands without compensation. A survey of the rancho had long since been made by the United States authorities, but never approved. When the publication was made required by the provisions of the late Act of Congress of July first, eighteen hundred and sixty-four, entitled "An Act to expedite the settlement of land titles in California," and an approval of the survey thereunder was sought, I filed, within the ninety days prescribed by the Act, namely, on July

eighth, eighteen hundred and sixty-five, on behalf of the State, in the office of the United States Surveyor-General for California, objections to the approval of the survey. From there the case has very lately gone to the Land Office at Washington. My position, briefly, is, that inasmuch as there is a large quantity of vacant public land, exceeding the four hundred and fifty acres granted to the State, adjoining the lines of the present owners of the rancho "Punta de Quentin," and amply sufficient to satisfy the calls of that grant, and inasmuch as that rancho is claimed under a grant from the Mexican Government of a specific quantity of land within exterior boundaries of much larger extent, the United States Government, as the successor of the Mexican Government, has the right at any time prior to the perfection of the title of the owners of the rancho by an approved survey to dispose of the surplus quantity in the manner it sees fit; and that by the Act of June twenty-fifth, eighteen hundred and sixty-four, it did dispose of and cede to this State the lands therein described, and that that grant does not "prejudice the rights or claims of any other parties."

The State has long since had a survey made by the United States Surveyor-General for California of the grant under the Act of eighteen hundred and sixty-four, which has been sent to the Commissioners of the General Land Office at Washington for approval, and she has also applied for a patent.

I am informed by you that the Commissioner has communicated to you by telegraph his opinion that no patent is required—doubtless upon the ground that the Act is, of itself, a perfect title, and furnished even higher evidence of title than a patent, as it is a direct grant by the Government itself. We await the authoritative answer of the Commissioner himself. My advice to the Legislature is, not to disturb the present status of affairs by legislation or otherwise.

It was during this legislation about the one hundred and fifteen acres of high land, and when I was taking the measures to quash the proceedings of condemnation, and to have the moneys refunded to the State, that the Prison Directors were embarrassed early in March, eighteen hundred and sixty-four, by the issue and levy of an execution for about two thousand five hundred dollars, (\$2,500,) accompanied by a writ of possession for the forty and thirty-five one hundredths acres of tide land covering the brick yards of the Prison, and for which Governor Downey had issued a patent to J. F. McCauley. Two suits had been instituted in the Seventh Judicial District Court for Marin County—one by John Simms, in December, eighteen hundred and sixty-two, claiming under McCauley, for the possession of said tract, and for the rents and profits thereof; the other in July, eighteen hundred and sixty-three, by my predecessor, in the name of the People against McCauley and Simms, to set aside said patent and to enjoin Simms from further prosecuting his said action of ejectment. Both suits had gone against the State before my entering into office. It was upon the judgment in the former suit that the writ of execution and of possession was issued. Upon an examination into the condition of the suits and upon consultation with the State Prison Board, the conclusion was reached that both as a legal and a financial proposition, it was better for the State to pay a reasonable sum, and obtain Simms' title, whatever it was, and have both judgments satisfied of record. After some time, and considerable negotiation, this result was attained, a detailed account of which, I presume, will be given in the report of the Prison Directors.

To complicate this State Prison business still further, however, I

received a letter, dated February twenty-third, eighteen hundred and sixty-four, from the Surveyor-General and Register, asking whether he should issue a certificate of purchase to one Albert Lusk for a piece of land situated "at the outer limit, but within the five miles of Oakland," and belonging to the quality of salt marsh and tide lands, and which I learned subsequently from conversations with different parties, to be not very valuable. As you are aware from our numerous interviews on the subject, owing to the situation of the Prison litigation and negotiations, I continued to postpone Mr. Lusk's attorney from time to time, telling him, and also the Surveyor-General, in general terms, that the question involved was similar to one in which the State was interested at the Prison—believing it not prudent then to divulge further to Lusk or others the exact situation of the Prison negotiations, but careful never to give any opinion that all the tide lands of the State were open to sale. Finally, under the circumstances, I assented to the issue of a certificate of purchase to Lusk, and advised the Surveyor-General on May twenty-third, eighteen-hundred and sixty-four, in a very guarded letter, to issue the certificate in that "particular case," "reserving still a full answer to the general question involved" in his letter of February twenty-third. I never supposed at the writing of it, that that answer would ever be referred to or relied upon as authority on the general question of whether the tide lands near San Francisco, Oakland, and the State Prison, were open to sale. On December tenth, eighteen hundred and sixty-four, my attention was directly drawn to that portion of the annual report of the Surveyor-General touching this matter, wherein he recommends "if the State desires to reserve from sale what there may be remaining of these lands, an immediate repeal of the statutes referred to," and claims to rely in part on my letter of May twenty-third, to authorize sales within the prohibited limits.

Though conscious my letter could not legitimately bear the construction claimed for it, yet as the Legislature was not to meet for another year, I at once wrote the Surveyor-General the following letter, since when, I believe, no further certificates of purchase have been issued :

ATTORNEY-GENERAL'S OFFICE,
Sacramento, December 10th, 1864. }

HON. J. F. HOUGHTON, Surveyor-General, Register, etc.

DEAR SIR:—My notice has been called to your report of this year, or that portion of it referring to the sales of salt marsh and tide lands.

I append to this communication an extract from your report as published in the Sacramento Union of the seventh inst.

I cannot understand how you could regard my answer in the Lusk case as "sufficiently indicative" of your duty to permit sales of lands within five miles of the Cities of San Francisco and Oakland, and within one mile and a half of the State Prison. You certainly misconstrue my language. If you will refer to my answer, of May twenty-third, eighteen hundred and sixty-four, to your communication of February twenty-third, eighteen hundred and sixty-four, "I simply advise you, in that *particular case*," to issue the certificate to Mr. Lusk, as he and his attorney, Mr. Williams, took the lands with full knowledge of the doubts entertained by the State, and was willing to pay his money and run the risk of getting no title.

This was distinctly understood by Mr. Williams, who came to see me

a great many times on the subject; and rather than raise the question at that time, lest it might seriously jeopardize the interest of the State in a similar case, or a much similar one of the *The State vs. Simms*, commenced by my predecessor, I permitted the issue in the *Lusk* case. But in that answer I expressly reserved a "full answer to the general question involved in your letter," *only* for the reason that the State might be injured, and I expected to answer it fully when the question should arise in any other case—when the State should be out of any danger by reason of this matter, as she is now, and has been for months past.

And now my attention being called to the matter by your report, and lest further complication may arise, I advise you *clearly* and *unequivocally*, that under the land laws of the State "the marsh and tide lands upon the city front, and within five miles of the City and County of San Francisco, and of the City of Oakland, and one mile of the State Prison at San Quentin," are reserved from sale; and I would advise you to stay all proceedings in all such cases now pending before you just where they are, and let any one who wishes test the question before the Courts—and in all future applications I would refuse the applicants.

I am, very respectfully,

J. G. McCULLOUGH,
Attorney-General.

[Here was appended the printed extract of the report referred to.]

As to the certificates of purchase issued for such lands, I claim they are worthless, except so far as they may be used by speculators to delude the innocent. It is believed that the owners of these outstanding certificates were thwarted, indirectly, by the principles laid down in the case of *Middleton against Low*, by the Supreme Court, wherein you refused to sign a patent for lands, and were sustained in your refusal.

The holders of these certificates show a want of confidence in their alleged title by declining the attempt to obtain patents through the intervention of the Courts; nor have they taken any proceedings publicly on the faith of the certificates, unless it be in the two following instances, which on learning I at once took measures to enjoin. Knowledge coming to me, in September last, that certain parties were driving piles in Mission Bay, with the intent of building structures thereon, and that they claimed, in part at least, to be acting under a certificate of purchase from the State, approved by the Land Register on February sixteenth, eighteen hundred and sixty-four, and issued on the twenty-second of the same month, I filed an information on behalf of the State against C. W. Randall and others, in the Fourth District Court in San Francisco, to set aside the certificate on the ground that it was improvidently or fraudulently issued, in a case not authorized by law, and to obtain an injunction to restrain the further obstruction of the waters of the bay, and to abate the intrusion upon the property of the State. The preliminary injunction has been granted by the Court, and the case is now awaiting its turn on the calendar. In this case the parties interested profess to claim in part under the Mission Bay Bridge franchise.

About a week since I instituted a similar suit, in the same Court, against Charles Boylen and others, and have obtained a similar restraining order. In this last case the parties interested were allowed to go too far in building their wharf before I was informed of their actions.

It is understood they claim in part under the Hobbs' and Pacific Glass Works Wharf franchise, and by a distorted and unnatural construction of the Act of eighteen hundred and sixty-three, say they have the right to build their wharf at the foot of Tennessee street, not by extending it on the line of that street into Mission Bay, but by running it at right angles to said street, or in any other direction, from the foot thereof until they arrive at ten feet of water at low tide. By such Acts and such construction of them, any harmonious wharf system on the water front of the city may be destroyed. Whatever may be thought of this particular case, the precedent is a bad one.

Randall and Boylen, like many others who obtained certificates of purchase, are doubtless but decoys, and it may be difficult for a time to obtain a hearing on the merits.

I believe there exists a bold and systematic scheme and a comprehensive conspiracy, entered into by large numbers, and engineered by capital and unscrupulous ingenuity, for the purpose of plundering the State of all its valuable lands lying along the city front and within five miles of San Francisco, which had heretofore been thought reserved from sale even by the homestead hunters of the past few years. If I mistake not, too, there will be persistent and pernicious applications to the Legislature, at this session, to ratify this scheme and to transfer to its authors for the mere trifle of a dollar an acre, virtually forced into the Treasury, property worth millions, on the ground of an alleged equity. While I am of opinion that it is the best policy, as a rule, for the State to sell these and its other lands to which it has a title, I think this should be done openly, either at public auction or otherwise, in such a way as that all who wish may have an opportunity to purchase, and that the State may obtain something like the real value of the lands at least, and may also provide in such a case as this how far and in what manner into the waters of the bay she sees fit to sell, in view of the present bad drainage of portions of the city, and of other considerations easily suggesting themselves, and provide where, if at all, she will establish basins, dock-yards, wharves, etc., for the accommodation of commerce—in fact say whether she wishes to encircle the shores and the islands of the bay, and shingle even the bay itself with patents to private parties.

In the summer of eighteen hundred and sixty-four, Mr. Justice Field, of the United States Supreme Court, informed me that at the December term, eighteen hundred and sixty-three, of that Court, the case of the Pacific Mail Steamship Company vs. Joliffe was called upon the calendar, and the State not being represented, and the case being a very important one, as involving directly the constitutionality of the pilot laws of this State, and virtually that of the pilot systems of the different States of the Union, the Court ordered the cause to be continued, that California might have an opportunity to be heard upon a question of such vital importance to her commercial interests. Upon this information, I prepared and filed a written argument on behalf of the State, (Gregory Yale, Esq., appearing for the pilots.) and at the December term, eighteen hundred and sixty-four, the unanimous decision of the Supreme Court was rendered in a most able and logical opinion by Mr. Justice Field, sustaining the validity of the pilot Act of eighteen hundred and sixty-one, of which the Act of eighteen hundred and sixty-three and eighteen hundred and sixty-four is but a re-enactment in its material provisions. Aside from this case, California and the Pacific States generally have

reason to congratulate themselves, that they are represented in the highest judicial tribunal of the nation, by one so well acquainted with and so qualified to resolve the perplexing difficulties and embarrassments arising from the novel and peculiar character of our litigation.

To settle the misgivings of very many, and to obtain a decision that should serve as a guide for the action of the State officers, about a year ago, I instituted a suit to test the constitutionality of the Act of the last Legislature granting aid to the Central Pacific Railroad. At the last January term, an opinion was given by our Supreme Court, fully upholding the constitutionality of the Act. The positions I took upon the legality and policy of such legislation are quite fully reported along with the case in 27 Cal., p. 175. It would appear from the reasoning of the Court, that the restrictions in the Constitution upon the Legislature against creating State debts, or loaning the public credit, are not of very great virtue; and this is only another and a cogent reason why it behooves the Legislature to exercise its important trust in this regard, with discriminating judgment and calculating foresight, that our citizens may not be burdened with onerous taxation, and that our commonwealth may not follow in the wake of so many other States, and like them, eventually become involved in serious financial embarrassments.

The Pacific Railroad Company has, I believe, faithfully on its part, fulfilled the conditions of the grant, but it is for the Legislature to so modify the laws providing for compensation to public officers for transporting convicts to the State Prison and lunatics to the Asylum as that the State may obtain some benefit from the Act, which she does not now, in this respect.

I have frequently advised with the State Harbor Commissioners upon the performance of their duties, but the litigation of the Board has been chiefly carried on under the supervision of Edward Tompkins, Esq., selected by them under the authority of the Act of the last session; and a full statement of their transactions, and the condition of their litigation will, I presume, be contained in their annual reports.

I may say, however, generally, that the Commissioners have obtained possession of all the wharves except Broadway, Central, Pacific, and Market street wharves. In these cases suits were commenced for the possession of the wharves and for the recovery of the rents thereof, in the lower Courts, and they have been decided in favor of the State, and are now upon appeal in the Supreme Court, to be finally disposed of.

The suit of *The People vs. Dennis and others*, for the abatement of a nuisance in the Bay of San Francisco, instituted by my predecessor, is now also upon appeal in the Supreme Court, taken by the defendants from an order of the District Court, granting the State a new trial. I have filed a brief in the case in the Supreme Court, and the order of the Court below being affirmed, it is expected, upon the new trial, to arrive at the merits of the case and to defeat a scheme of public plunder.

In January, eighteen hundred and sixty-four, the County Judge of Stanislaus County informed me that one James M. Lewis had died in that county, intestate, leaving no heirs, and seized of certain property. I referred the matter to the then District Attorney of the county, and directed him to proceed under the provisions of the Act of May fourth, eighteen hundred and fifty-two, as amended in eighteen hundred and fifty-five, concerning escheated estates. He did so, and some three hundred and odd acres of land in that county have become vested in the State. The deed thereto describing the same, I deposited in the Secretary of State's office, and a report of the real and personal property

escheated and of the proceedings taken by the said District Attorney, I filed on its receipt, during this month, in the Controller's office.

The escheat laws of this State are very lame in many provisions.

The foregoing are some of the cases of noticeable importance which have demanded my attention in the lower and upper Courts, and which will serve to illustrate the character of the causes of special moment in which the State is interested, while a knowledge of the nature of the general class of civil and criminal litigation may be acquired by a review of the transcript of the docket appended.

In the expenditures of this office, I have kept within the appropriations. Upon entering office there was a balance of fifty dollars in the appropriation to defray the expenses of State suits, to which the Legislature at its last session added a deficiency appropriation for the fifteenth fiscal year, of one thousand dollars, of which there has been expended by my order, for costs and legal expenses, chiefly in the Warren and State Prison cases, nine hundred and fifty-two dollars and fifty-five cents, and a good portion of which has been collected back as costs, and paid into the State Treasury. Of the appropriation for the same purpose, of two thousand dollars for the sixteenth fiscal year, I have ordered expended sixty-three dollars, paid to the Supreme Court Clerk for costs; of the appropriation of two thousand dollars for the seventeenth fiscal year, nothing has been expended; leaving in these appropriations, amounting to five thousand and fifty dollars for expenses in suits where the State is a party in interest, yet unexpended, four thousand and thirty-four dollars and forty-five cents. I have expended nothing for special counsel during the sixteenth and seventeenth fiscal years, and have made no contracts, express or implied, by which any one can have any claim on the Legislature for alleged services rendered the State. I have drawn and expended the appropriation for clerk hire and expenses in the office of Attorney-General for the sixteenth and a part of the seventeenth fiscal years.

SUGGESTIONS.

Within the present year Mr. Hittell has compiled a very creditable digest of our laws. In some respects it seems to me it might be beneficially altered, but as a whole, it is a great improvement upon its predecessor. The proposition has been agitated, more or less, at each returning session of the Legislature, of the creation of a commission to revise our laws. I have always been of opinion that if such a commission is to be raised, no good but only harm can result from it, unless extreme care is taken in the selection of its members by the Legislature, or Governor, or Supreme Court, or by whatever functionary or body to whom such a delicate trust may be confided. Men most fitted for the position will not seek it. And if places are merely to be made for needy political applicants, it is infinitely better for the promotion of true law reform that the new code should never see daylight.

In this connection I may say that the continual changes in the Civil Practice Act are a source of perpetual embarrassments to suitors and to the Courts. No sooner is a course of practice settled on them than it is changed; no sooner is a harmonious construction drawn out from apparently inconsistent provisions, and declared in one case, and is becoming generally understood and adopted by the legal profession, than the Court in another case runs up against some new barrier raised by some new modification of the Practice Act, made by a subsequent Legislature, and is forced to establish a new practice, which in its turn, for the like rea-

son, in time gives way to a third. Undoubtedly some of the provisions of the Practice Act might be beneficially changed, but I earnestly recommend that the Judiciary Committees of the two Houses consult with some of the Judges of the Supreme Court upon any proposed amendments to the Act. Their habits, their constant study and daily occupation are such as to enable them to point out the inexpediency, illegality, or inconsistency with other provisions, or the reverse, of any mooted change upon mere questions of practice. Their only interest could be in aiding to perfect the Act, and I am sure they would be willing to offer any advice in their power.

The election laws need some modifications to make them more explicit. I have given several opinions with my construction of the laws, and among them one to the Board of Supervisors of San Francisco last year, published in the public journals, which may suggest some change. I recommend the passage of a registry law for voters. No honest party ever gained by illegal voting, and no dishonest party should have the opportunity, if it be possible to prevent it. It would certainly tend to the purity of the ballot box, though it might be attended with some inconveniences. Upon the score of constitutionality, I think a proper registry law may be drawn that shall conflict with no provision of the fundamental law; but, on the contrary, shall be carrying out the provision of that instrument when it enjoins that "The privilege of free suffrage shall be supported by laws regulating elections, and prohibiting, under adequate penalties, all undue influence thereon from power, bribery, tumult, or other improper practice." Such a law is not the adding of a new qualification, but is prescribing a legitimate means by which to arrive at the existence of the legal and requisite qualifications under section 1, of Article II, of the Constitution. A political right having been conferred by the Constitution, and the particular mode of its exercise not having been pointed out by that instrument, it is competent for the Legislature to adopt any reasonable and uniform regulation designed to secure the proper and convenient exercise of the right. Nor do I understand that anything in the soldier vote cases militates against the position. Care, however, must be taken in drafting the law to secure the rights of the electors. Such a law exists in several of the States. In Maine and Massachusetts, whose Constitutions in this respect are similar to ours, they have laws for the registration of voters. In the former State, the law was passed at a very early date in its history; and though upon other points it has been considered by the Supreme Court in several cases, its constitutionality seems never to have been questioned. In the latter State the question of the constitutionality of the law was strictly raised and adjudicated as early as eighteen hundred and thirty-two, in the case of *Capen vs. Foster*, 12 Pick, 485, which case has been recognized and approved in several subsequent cases. In sustaining the validity of the law, Mr. Chief Justice Shaw says: "This Court is of opinion, that in all cases where the Constitution has conferred a political right or privilege, and where the Constitution has not particularly designated the manner in which that right is to be exercised, it is clearly within the just and constitutional limits of the legislative power to adopt any reasonable and uniform regulations in regard to the time and mode of exercising that right, which are designed to secure and facilitate the exercise of such right, in a prompt, orderly and convenient manner. Such a construction would afford no warrant for such an exercise of legislative power, as, under the pretence and color of regulating, should subvert or injuriously restrain the right itself. * * * * * And this Court is of opin-

ion, that the provision in the general law regulating elections, and that in the Act incorporating the city, which require that the qualifications of voters shall be previously offered and proved, in order to entitle them to vote, that their names shall be entered upon an alphabetical register or list of voters, is highly reasonable and useful, calculated to promote peace, order, and celerity in the conduct of elections, and as such, to facilitate and secure this most precious right to those who are by the Constitution entitled to enjoy it; that it cannot be justly regarded as adding a new qualification to those prescribed by the Constitution, but as a reasonable and convenient regulation of the mode of exercising the right of voting, which it was competent to the Legislature to make; and therefore that these legal enactments, not being repugnant to the Constitution, are valid and binding laws, to which both voters and presiding officers at elections are authorized and bound to conform."

I recommend some change in the general jury law, to make it consistent with itself.

I recommend the repeal of many unconstitutional laws, either expressly declared so, or clearly appearing such from decisions of the Courts upon similar laws, and thus rid the statute books of a standing reproach upon the Legislative Department.

There are many recommendations of changes and modifications that may be beneficially made in many statutes; but any intelligible reference to them here is impossible without making this report entirely too long, and I the more readily omit any further suggestions as I can personally mention them to the committees of the two Houses.

JOHN G. McCULLOUGH,
Attorney-General.

STATEMENT

Of the manner in which the Appropriations to the Office of Attorney-General (other than Salaries) have been expended since the present incumbent took office, December, 1863.

For what Purposes Expended.	Amount.

LORENZO HUBBARD, M. D.....Marysville.
JOHN F. MORSE, M. D., Secretary.....San Francisco.

R. HAPPERTSETT, Treasurer.

REPORT.

To His Excellency,

FRED'K F. LOW,

Governor of the State of California:

The undersigned, Directors of the Insane Asylum of California, respectfully submit herewith their annual report, showing the progress and condition of the institution under their care.

For information in regard to the financial condition of the institution we respectfully refer your excellency to the report of the Treasurer, which is annexed to this report and constitutes a part thereof.

From said report it appears that the entire receipts in the General Fund, for the year ending October first, eighteen hundred and sixty-five, including a balance of twelve thousand four hundred and forty-five dollars and sixty-seven cents, (\$12,445 67,) on hand at date of last report, amount to one hundred and twenty-five thousand and fifty-one dollars and fifty-six cents, (\$125,051 56,) and the disbursements to one hundred and twenty-one thousand four hundred and forty-five dollars and five cents, (\$121,445 05,) leaving a balance in that fund of three thousand six hundred and six dollars and fifty one cents, (\$3,606 51.) The deficiency for the fiscal year ending June thirtieth, eighteen hundred and sixty-four, was four thousand nine hundred and four dollars and fifty-seven cents, (\$4,904 57,) which has been paid out of the present year's appropriation. But for this fact no deficiency would now exist, although one is anticipated before the expiration of the present fiscal year, as you will see by the Treasurer's estimate. It will be observed that the disbursements for interest have been but trifling during the past year compared with those of previous years; and the estimated deficiency for the two years, ending June thirtieth, eighteen hundred and sixty-six, eight thousand four hundred and fifty-five dollars and seventeen cents, (\$8,455 17,) notwithstanding the exorbitant prices of almost all articles purchased for the institution during most of this period, shows that the institution has virtually lived within its income. The fact that the contract bills have been paid promptly when due, and other purchases have been made for cash for the most of the year past, has given the institution a first class credit in the commercial world, and enabled the Directors to obtain supplies at the lowest market rates. It is to be hoped that it will not be necessary to impair this credit in the future, nor to resort to the ruinous system of discounting the State warrants to sustain it.

In the Improvement Fund the receipts have been sixty-six thousand six hundred and one dollars and fifty-three cents, (\$66,601 53,) and the disbursements fifty-seven thousand seven hundred and ninety-seven dollars and seventy-two cents, (\$57,797 72,) leaving a balance of eight thousand eight hundred and three dollars and sixty-one cents (\$8,803 61) to the credit of the fund. The balance unexpended, after deducting bills unpaid, is stated to be seven thousand one hundred and fifty-nine dollars and eighty-seven cents, (\$7,159 87.)

It gives us pleasure to call your excellency's attention to the new edifice erected on the Asylum grounds from the proceeds of this fund.

By reference to the report of this Board for the year eighteen hundred and sixty-three, it will be seen that the Board were compelled by the crowded condition of the old buildings, "to make some additions to the Asylum previous to the commencement of the new building provided for" by the "Act concerning the Insane Asylum of California, and to levy a tax therefor, approved April twenty-fifth, eighteen hundred and sixty-three."

This system of improvements being completed, as far as immediate necessities required, the Board directed their attention to the matter of carrying out what they conceived to be the grand design of the Legislature in providing in said Act for a fund "to be expended in the erection of additional buildings, yards, and other improvements in connection with the present buildings."

The purpose of the Legislature in this matter is to be gathered from the history of the projected improvements. We begin with the following proposal made by the Resident Physician in his report for the year eighteen hundred and sixty-one: "The most pressing want of the institution," says the Resident Physician in said report, "is additional room. We have enough at present for about two hundred and fifty patients, while there are under treatment four hundred and thirty-four. This necessity can be best met, perhaps, by the erection of a separate female department, for the location of which there is no lack of beautiful places on the Asylum property. The most eligible, however, and which, while convenient to the medical and other offices, would add more, perhaps, than any other to the present imposing appearance of the institution, is immediately in a line with the present building, about as far north as this is south of the Resident Physician's dwelling. Such an improvement should be made with the view of affording accommodation for one hundred and seventy-five or two hundred patients."—(Ninth Annual Report, p. 25.)

With this suggestion of the Resident Physician before them, the committees of the two branches of the Legislature visited the institution; and after a full examination of the grounds and buildings, being fully advised of the deficiencies then existing, the Senate committee, in their report to the Senate in eighteen hundred and sixty-three, say:

"For the remedy of these deficiencies, your committee recommend the purchase of two blocks of land, one in front, the other in the rear of the present buildings, and the erection of a building containing suitable accommodations for two hundred patients, and that the female patients should all be removed into that building; also the erection of a suitable fence, either of wood or of brick, as the Trustees may deem best, around the whole farm, now containing one hundred acres of as good farming land, probably, as can be found in the State."

The Assembly committee, in their report, after quoting *verbatim* the foregoing, say:

"The above extract from the report of the Senate committee we most heartily indorse, assuring your honorable body that its every word is true."

As upon these reports the Senate and Assembly acted in providing for the levying of a special "tax of five cents upon each hundred dollars value of taxable property" in the State, and that the money collected thereby should "be expended in the erection of additional buildings, yards, and other improvements, in connection with the present buildings, and in the purchase for the State of two blocks of ground adjacent to the Insane Asylum," the intention of the Legislature, in the Act in question, is, in the opinion of the Board, clear and unmistakable, that a distinct and separate building should be erected, from the proceeds of said tax, on the Asylum grounds, for the accommodation of the female patients, and that they "should all be removed into that building;" and that said building, so erected and so occupied, should be under the care and management of the same officers, on the Asylum grounds, *connected* by the same regime and interest with the other buildings, and forming with them a congeries of buildings and appliances, constituting, collectively, the "Insane Asylum of California."

But the Board of Directors, before fully determining their course of action in this matter, asked the opinion and advice of the Board of Medical Visitors, and received from them a communication under date of May eleventh, eighteen hundred and sixty-three, in which they say:

"In obedience to our promise before we left you, we hereby communicate our views upon the subject of the necessary improvements which you are expected to make in the structure and capacity of the institution in your management. We presume that there can be no disagreement as to the propriety of repudiating the present building as a principal structure to which additions should be erected and made to conform.

"You seem to manifest the only policy in this respect which could commend itself to our minds—to make the present edifice answer all demands until the most thorough and patient steps could be taken to design, locate, and build a new structure, so wholly and eminently adapted as to make it a source of unparalleled humanity and pride. We do not think that even the present want of room should enforce any precipitate measures that would make perpetual badly adapted means for the future care of the insane. We feel confident that any patchwork or extension of the present building would end in failure and mortification."

Confirmed in their views by the advice and opinions of the Medical Board thus ably expressed, the Board of Directors proceeded to locate and build the structure now completed. Before the work had made much progress, however, your excellency's attention was called to the matter, and your counsel sought in the premises. Your excellency kindly visited the institution, and after fully advising yourself of the facts, submitted them, with the law under which the Board were acting, to the Attorney-General of the State for his opinion. His views are given at length, and are doubtless now on file in your excellency's office. We will take the liberty of quoting a passage or two from a copy in our hands. He says:

"That the object to be attained in the construction of this, as of all statutes, is to discover the intention of the Legislature; and to do this, that the whole statute is to be taken together, and the meaning to be gathered from the context; that the words are to be taken in their plain and obvious ordinary and familiar signification; that such interpretation is to be given as will advance the remedy and suppress the mischief; that we are to see that all the parts harmonize with each other and with the general object of the whole; that we are to look at the whole and every part, to the subject matter, to the effects and consequences, to the reason and spirit of the law, in order to effectuate the purpose of the lawgiver, are cardinal rules of legal construction, and it is needless to refer to authority to support them.

"The statute is a compendious whole, and upon reading it, it seems to embrace parts of many prior statutes. But from its general context it shows it is not the establishment, however, of a new Asylum—the inauguration of an entirely new system—but rather an extension of the old Asylum, and a remodelling of the prior system. It was simply to make the present institution approach more nearly an Insane Asylum; not to create and build up a new institution in Santa Cruz County, or in any other part of San Joaquin County—not the inauguration of *another*, but the amelioration of the *existing* Asylum.

"Under the rules before laid down, I do not consider that the words just quoted require the 'additional buildings' to be constructed in *actual contact* with the present buildings for many reasons.

"The word 'connection' does not necessarily, if usually, mean immediate contact, either in common parlance or legal contemplation, and in this case, where such construction would lead to absurdity or manifest and serious inconvenience and evil, and fail in a great measure in accomplishing the obvious intent of the Legislature to alleviate the sufferings of the most unfortunate class of our citizens, it is not to be entertained, and I therefore dismiss such an interpretation.

"The Board doubtless may, they are not bound to, build in adjoining proximity. But in the erection of this new building, are the Board constructing an 'additional' one, in the sense used by the statute—one in such close dependence upon the principal building as the word 'connection' implies? Because the Board may go one foot or fifty from the old building, they cannot therefore go into a neighboring county. They may go a reasonable distance (and what is reasonable must depend upon the facts of each particular case) upon the Asylum grounds to erect the new buildings, always keeping in view the end aimed at, viz: the amelioration of the condition of the present Asylum.

"And the Board are permitted to exercise a judicious, not an arbitrary discretion, a wise and prudent judgment, in acting under and within the powers conferred on them.

"But here I may say, assuming that in other respects the Board are acting prudently and within their powers, the mere fact that the present building is on such a plan as that it may constitute a part of a new Asylum, if the Legislature at some future time so will that such new Asylum shall be erected, to my mind is no objection, but rather a recommendation.

"From the facts (assuming them to be such) and from your verbal explanations to me of the position of the new building, its distance from the old, its probable requirements, expense, the advantages, curative and others, likely to be effected by its erection, and generally of the conside-

rations intimated in the above queries, and similar ones suggested by them, I conclude that this new structure is but a part and extension of the present Asylum buildings.

"It only remains for me to add, that in view of the above, and that so long as the Board follows such a course, as a matter of law, it is my opinion that they are acting within the scope of the powers conferred upon them by the Act, and should not be interfered with.

"Truly and respectfully,

(Signed:)

"J. G. McCULLOUGH,
"Attorney General."

In your excellency's communication of June twenty-seventh, eighteen hundred and sixty-four, having reference to the foregoing, you are pleased to say:

"In the haste with which I wrote the note inclosing the opinion of the Attorney-General, I perhaps did not say explicitly that I concurred in his opinion, yet sending it as I did, 'as a reply to your communication,' my opinions I thought would be readily understood.

"The Attorney-General is the law adviser of the Executive Department, and in all ordinary cases I am quite content to be guided by his opinions on the legal questions on which I am called upon to act.

"Truly yours,

(Signed:)

"F. F. LOW."

The Board being now fully satisfied of the correctness of their views, and propriety of their action in the matter in question, proceeded with their work, and as before stated, have recently brought the same to completion.

The new building, as your excellency is aware, is somewhat further north of the Resident Physician's dwelling than the old building is south, and somewhat to the westward of a line with the old building, the highest ground being at the point chosen.

The objects attained by this improvement, thus located, in general, are:

First—The removal of the female patients from the noise and confusion of the hitherto crowded male department, quietness being especially desirable for the female wards, it being also desirable that the sexes should not be in the sound of each other's voices.

Second—Better ventilation for the new building, and the retaining of all of the ventilation of the old building, much of which a new structure in contact with it would have cut off.

Third—Protection against fire. As the danger from this source is imminent, from the incendiary disposition of many of the patients, the building having been on fire several times already, and as a conflagration is possible, however great the precautions used to prevent it, it would be sheer madness to so construct the buildings that if one is consumed all will be consumed, with the terrible exposure of life consequent thereon—dangers which immediate contact of all the buildings would imply.

Fourth—That good building ground was obtained in the location, and

the means of observing the rules of architectural science. The city street on the south of the old building, and the slough or watercourse on the north, with numerous outhouses in the rear, rendered it absolutely impossible to locate a new building of suitable size in contact with the old building, while, if this were possible, architectural science would revolt at the idea of such an unsymmetrical and uncouth assemblage of structures as would thus be produced.

We have spoken more at length on this subject, as much has been said in condemnation of the action of the Board in this matter.

Mr. Henry Winslow, the superintendent of construction of the new building, whose fidelity, skill, and economy in the conduct of his work are worthy of especial commendation, has kindly furnished the following detailed description of the new building. He says :

"The addition, built and finished the past season, to the Insane Asylum, is a part, or about one-fifth, of a plan drawn by G. F. Bryant, of Boston, under the direction of Dr. Luther V. Bell, formerly Resident Physician of the McLean Asylum of Massachusetts.

"A brief description is as follows :

"The entire length from east to west is one hundred and fifty feet, in a quadrangular form, the east end being four stories high above the basement, thirty-five feet wide by sixty-two feet long, and containing twenty-four rooms, ten feet by twelve feet, for patients, with four bath rooms, four wash rooms, four water closets, and four sink rooms, with China closets for each.

"A hall in each story, twelve feet by sixty feet, with entries and stairways leading from basement to attic.

"The west end is thirty-three feet by forty-two feet, and four stories high, containing reception rooms, Matron's room, sewing room, attendants' rooms, associated and domestic rooms, with halls, stairways, and closets.

"The centre, connecting the two, is ninety-one feet six inches by thirty-seven feet, and three stories high. It also contains forty rooms for patients; three halls, ninety-one feet long by twelve feet wide, each containing a bay window about twenty feet square; three dining-rooms, three bath rooms, three wash rooms, and three water closets; three China closets, and dumb waiters leading from basement to all the dining-rooms. It also has the attic finished and well ventilated, accommodating twenty beds.

"The basement, a part of which is used for cooking purposes, being furnished with modern improvements.

"The warming of the whole building is done by steam, the coils being placed in the basement.

"Two iron tanks for water are placed in the central attic, which have a capacity for about six thousand gallons.

"Hot and cold water are distributed throughout the building.

"The entire building is piped, and lighted with gas.

"The south and west fronts are finely finished with oil mastic.

"The roof covering, gutters, and cornice are of heavy galvanized iron.

"The whole number of rooms, exclusive of attics, is one hundred and twenty-six, and they are at present occupied by one hundred and twenty-five patients.

"It contains one hundred and eighty-seven windows, all of which are strongly guarded by an outside iron sash.

"An engine and pump house has been built, thirty feet by forty-five feet, one and one-half stories high. It contains one of Worthington's duplex pumps, capable of raising ten thousand gallons of water seventy feet high, with fifteen pounds steam pressure, per hour. It also has a large room for ironing clothes, and four chambers for lodging.

"Also a brick shaft, ten feet square at its base and seventy-five feet high, for the purpose of ventilating the water closets in the building and carrying off the smoke from the boilers.

"The entire cost of the building, thus far, exclusive of furnishing, is sixty-six thousand eight hundred and eighty-five dollars and thirty-four cents (\$66,885 34.)"

We beg leave to report the following changes as having taken place in the Board of Directors during the past year: On the —— day of ——, eighteen hundred and sixty-five, Judge H. B. Underhill tendered his resignation, on account of the decision of the Supreme Court in the Sanderson and State Library case, and Mr. William M. Baggs was elected in his place.

On the first day of August, Dr. G. A. Shurtleff tendered his resignation, he having on that day been elected to the office of Resident Physician of the Asylum, and Mr. R. R. Parker was elected a Director in his place.

The Board would respectfully call your excellency's attention to the law of eighteen hundred and sixty-three, in reference to the election of Resident and Assistant Physicians. Section six of said law provides that:

"The Board of Directors and Board of Medical Visitors shall elect, in joint ballot, one Resident Physician, who shall hold his office for a term of four years, and until his successor shall be elected and qualified." (Statutes 1863, p. 460.)

Section eight provides that:

"There shall be one Assistant Physician, who shall be elected at the same time and manner as the Resident Physician." (Statutes 1863, p. 461.)

Section nine provides that:

"The first election for Resident and Assistant Physicians, under this Act, shall take place at a joint meeting of the Directors and Medical Visitors, to be holden at the time of the stated meetings of these two bodies next preceding the expiration of the term of office of the present incumbents, the twentieth day of April A. D. eighteen hundred and sixty-five." (Statutes 1863, p. 462.)

At the time of the stated meeting of the two Boards, as provided by the by-laws, in April last, there not being a quorum of both Boards present, the joint meeting was adjourned to a specified time, and at that time, for the same cause, adjourned again, and so on from time to time till the first day of August last, on which day all the members of both Boards being present, an election was held in joint meeting, which resulted in the election of Dr. G. A. Shurtleff, Resident Physician, and Dr. A. Clark, Assistant Physician, both of whom have performed their duties

thus far with such distinguished ability and success, as to justly deserve the highest meed of praise.

We would call your excellency's special attention to the able, elaborate, and complete report of the Resident Physician, hereunto annexed, and forming a part of this report—showing not only the present condition of the institution, but giving the results of its workings from its establishment in eighteen hundred and fifty-one to the present time. It will be noticed as a matter of just pride, while it proves the utter falsity of the charges so often and so flippantly made—that but few cures are here effected—that the percentage of cures in this institution from the year eighteen hundred and fifty-one, when it was established, to the present time, is more than fifty-one per cent of the entire number of cases admitted. The value of this fact will be more apparent when it is considered that in England, of sixteen thousand five hundred and sixteen cases treated, only thirty-five per cent recovered; while in France, of three thousand nine hundred and thirty-eight cases treated, about fifty per cent recovered; and in the United States the percentage of cures in all the Asylums, the reports of which through a period of years have been received, with one exception, is considerably less than in the Asylum of California—the single exception being the Central Asylum of Ohio, in which the percentage of cures through a series of years is fifty-two per cent.

We would call your excellency's attention also to Table Fifth, in the Appendix to the report of the Resident Physician, showing the estimated value of the Insane Asylum property—amounting in the aggregate to the very respectable sum of three hundred and twelve thousand one hundred and thirty-three dollars.

It will be also seen from the tables in said Appendix that a net profit of over five thousand dollars has been derived from the farm during the past year. The advantage to the patients who are allowed to work there cannot be estimated.

It gives us pleasure to speak in terms of unqualified approbation of the employés of the institution, one and all. They have been watchful, faithful, and prudent, as is evinced by the cleanliness of the patients and wards, and the air of comfort and neatness which pervades all departments, as well as the comparative quietness and good order everywhere manifest.

We would take occasion here to recommend a continuance of the special tax for improvements. We think it advisable to provide for the erection of another portion of the edifice, a part of which, according to the original plan, has just been completed. Though this part is perfect and complete of itself, and could be made by some crowding to accommodate all the female patients now in the institution, we do not think it advisable to mar the harmony and comfort of the present arrangement by congregating more in the new building than it was designed to accommodate—a condition of things which the constant increase of patients seems to foreshadow.

We would also recommend a small increase of the amount of appropriation for the current expenses of the institution, say one hundred and ten thousand dollars, instead of one hundred thousand, as during the last two years.

In conclusion, we would state that the Directors have noticed, at different times, attacks in the public prints upon the institution and its officers, with charges of improper management, mostly vague and indefinite, but we have not felt called upon to enter upon any newspaper con-

troversy in reference to these matters. Conscious of an honest purpose to perform our duties faithfully, we desire that all our acts should be open to the public, and therefore earnestly request that the proper committees shall be appointed and the most thorough scrutiny exercised in investigating the affairs of the institution and the actions of the Board.

And especially do we desire that the wants of the unfortunate and afflicted human beings who are thrown upon the charities of the State, as here dispensed, shall be duly appreciated, and that the most humane and liberal provision shall be made for their treatment and care.

AUSTIN SPERRY,
E. S. HOLDEN,
T. R. ANTHONY,
J. G. GASMANN,
R. R. PARKER,
WM. M. BAGGS.

TREASURER'S REPORT.

REPORT.

STOCKTON, October 1st, 1864.

To the Board of Directors of the Insane Asylum of California :

GENTLEMEN—The by-laws of the institution require the Treasurer to submit an annual report up to the first day of October of each year, of the transactions of his office for the preceding year; and although, as you are aware, I only assumed the duties of the office on the first day of May last, I have deemed it proper to submit a report for the whole term, such as I am enabled to compile from the books in my possession. According to said books, on the first day of October, eighteen hundred and sixty-three, there was a cash balance of twenty-eight hundred and thirty-eight dollars and fifty-three cents, (\$2,838 53.) This, it appears, belonged to the "Improvement Fund," (as we have designated the fund derived from the tax of five per cent levied by the Legislature for the erection of additional buildings and other improvements at the State Insane Asylum,) together with the sum of one thousand eight hundred and fifty-two dollars and seventy-two cents, (\$1,852 72,) which had been drawn from that fund for the use of the General Fund, making a balance to the credit of the Improvement Fund of four thousand six hundred and ninety-one dollars and twenty-five cents, (\$4,691 25.)

The following is a statement of the receipts and disbursements of the

IMPROVEMENT FUND.

RECEIPTS.		
Oct. 1, 1863	By balance as above.....	\$4,691 25
Dec. 29, 1863	By amount received from State Treasurer....	24,300 00
Jan. 29, 1864	By amount received from State Treasurer....	7,800 00
Mar. 11, 1864	By amount received from State Treasurer....	6,833 32
June 7, 1864	By amount received for premium on currency draft.....	29 50
June 17, 1864	By amount received from State Treasurer....	18,000 00
June 17, 1864	By amount received from premium on gold remitted East.....	162 32
Carried forward.....		\$61,816 39

Sept. 27, 1864	Brought forward.....	\$61,816 39
	By amount received from State Treasurer.....	2,151 35
	Total receipts.....	\$63,967 74
DISBURSEMENTS.		
	To bills paid as per vouchers, from October 1, 1863, to October 1, 1864.....	\$64,042 32
	Leaving balance overdrawn... ..	\$74 58

The bills audited against this fund, contracted prior to this date, amount to eleven thousand seven hundred and sixty-nine dollars and twenty-eight cents, (\$11,769 28,) including above balance.

The following is a statement of the receipts and disbursements of the

GENERAL FUND.

RECEIPTS.		
Oct. 8, 1863	By Controller's warrant.....	\$12,218 09
Oct. 15, 1863	By amount from Resident Physician collected from patients.....	5 00
Oct. 21, 1863	By balance of estimate for December, 1862, accounted for by J. M. Douglass.....	1,820 69
Oct. 31, 1863	By am't for brick from Improvement Fund..	205 20
Nov. 1, 1863	By balance of estimate, January, 1863, accounted for by J. M. Douglass.....	2,057 26
Nov. 7, 1863	By Controller's warrant.....	10,154 06
Nov. 16, 1863	By balance of estimate of March, 1863, from J. M. Douglass.....	1,521 20
Nov. 24, 1863	By balance of estimate for February, 1863, from J. M. Douglass.....	1,607 21

Jan. 11, 1864	By amount from Resident Physician from patients.....	503 50
Feb. 8, 1864	By amount from J. V. Leffler for brick.....	11 00
Feb. 11, 1864	By amount from Resident Physician from patients.....	197 50
Feb. 16, 1864	By amount from Sperry for brick.....	88 00
Feb. 20, 1864	By amount from J. Diedrich for same.....	5 50
Carried forward		\$52,930 00

	Brought forward	\$52,930 00
Feb. 22, 1864	By amount loaned by W. C. Ralston.....	6,800 00
Mar. 9, 1864	By amount from patients.....	19 00
Mar. 11, 1864	By Controller's warrant.....	7,096 10
Mar. 12, 1864	By amount received from sale of brick.....	55 00
Apr. 27, 1864	By amount borrowed on warrant of \$8,000...	6,400 00
May 11, 1864	By am't borrowed on warrant of \$24,412 70..	20,020 00
May 11, 1864	By amount from Resident Physician from patients in March.....	242 83
	By amount from same source in April.....	184 33
	By amount from Steward for sales of sundry articles	347 27
	By amount from Wm. Saunders for brick.....	5 50
	By amount from P. L. Shoaff for old engine..	100 00
June 7, 1864	By amount borrowed on warrant of \$8,000...	6,400 00
June 9, 1864	By amount from Resident Physician from patients.....	515 45
June 30, 1864	By amount borrowed on warrant of \$8,000...	6,400 00
July 1, 1864	By amount from Ainsworth for brick.....	315 50
July 15, 1864	By amount from Resident Physician.....	85 00
July 28, 1864	By amount from W. C. Ralston—bal. warrant	1,200 00
Aug. 16, 1864	By amount from Hale & Newell for forfeiture of contract.....	300 00
Aug. 29, 1864	By amount from Fund Commissioners for balance of warrant.....	4,392 70
Aug. 29, 1864	By amount from Fund Commissioners for balance of warrant.....	1,600 00
July 14, 1864	By amount borrowed on warrant.....	6,700 00
Aug. 9, 1864	By amount from Resident Physician from patients.....	45 00
Aug. 26, 1864	By amount borrowed on warrant.....	6,700 00
Sept. 9, 1864	By amount from Resident Physician from patients.....	206 00
Sept. 14, 1864	By amount borrowed on warrant.....	6,000 00
	By amount transferred from Improvement Fund for bills paid from this fund prior to 1st October, 1863.....	5,801 02
	Total receipts.....	\$140,960 70
	DISBURSEMENTS.	
	To amount of bills paid as per vouchers on file.....	128,530 03
	Leaving a balance of.....	\$12,430 67

The above disbursements include the sum of one thousand eight hundred and fifty-two dollars and twenty-two cents refunded to the Improvement Fund, and seventeen thousand five hundred and seventy-six dollars and two cents paid interest and discount on Controller's warrants.

Since the last annual report, it has been ascertained that there was a

deficiency in the appropriation for the fiscal year ending June thirtieth, eighteen hundred and sixty-three, of eight thousand one hundred and ninety-one dollars and fifty-six cents, which was carried forward and made a charge upon the appropriation for the fiscal year which closed on the thirtieth of June last. At this time it is impossible to ascertain the exact deficiency for that year, because some warrants that have been hypothecated will not be paid for some time. It is my opinion, however, that the deficiency, if any, will be small.

Up to the date of this report, warrants have been pledged on loans to the amount of.....	\$40,999 99
The sums borrowed at different times amount to.....	32,200 00
Balance in favor of Asylum.....	\$8,799 99

From which interest is to be deducted when the warrants shall have been paid.

The bills contracted against the General Fund up to this date, and remaining unpaid, amount to	\$19,297 15
Less cash on hand as reported.....	12,430 67
Deficiency for first three months of present fiscal year...	\$6,866 48

Should the warrants which have been hypothecated be paid within a short time, it is reasonable to suppose that the deficiency will be small.

I am induced to believe, from information received, that after the first of January next, the institution will be no longer under the necessity of borrowing money, but that its affairs will be conducted on a *cash* basis.

RECAPITULATION.

Oct. 1, 1864	Balance in General Fund.....	\$12,430 67
	Balance in fund belonging to patients.....	582 81
	Balance for payment of small accounts not called for	88 09
		\$13,101 57
	Less Improvement Fund overdrawn	74 58
	Balance in Treasury	\$13,026 99

All of which is respectfully submitted.

R. HAPPERSETT,
Treasurer.

OFFICE OF TREASURER OF THE INSANE ASYLUM, }
 Stockton, October 1st, 1865. }

To the Board of Directors of the Insane Asylum of California :

GENTLEMEN:—In pursuance of the duties of my office, I herewith submit my report as Treasurer for the year commencing October first, eighteen hundred and sixty-four, and ending October first, eighteen hundred and sixty-five.

GENERAL FUND.

RECEIPTS.		
Oct. 1, 1864	Balance in Treasury, as per report.....	\$12,430 67
	Add clerical error.....	15 00
	Correct balance.....	\$12,445 67
Oct. 3, 1864	Amount received for brick.....	400 00
Dec. 10, 1864	Amount of Contingent Fund paid over by Resident Physician.....	100 00
Feb. 13, 1865	Amount of fund belonging to patients, trans- ferred.....	582 81
March 8, 1865	Amount received from sale of cattle.....	185 00
July 1, 1865	Amount received from sale of bags, &c.....	20 17
Aug. 1, 1865	Amount received from sale of calves.....	46 95
Sept. 1, 1865	Amount received from sale of horses.....	260 00
	Amount of balances on warrants hypothe- cated prior to October 1, 1864.....	8,799 99
	Amount of warrants drawn from State Treas- ury, from October 1, 1864, to October 1, 1865, inclusive.....	99,999 97
	Amount received from patients, from October 1, 1864, to October 1, 1865.....	2,211 00
	Total receipts.....	\$125,051 56
DISBURSEMENTS.		
	Bills paid, as per vouchers on file, from Octo- ber 1, 1864, to October 1, 1865.....	\$121,445 05
	Leaving balance in General Fund of.....	\$3,606 51

Since my last annual report, the account of the appropriation for the fiscal year ending June thirtieth, eighteen hundred and sixty-four, has been closed, the warrants issued thereon having been paid, and the loans for which they were hypothecated settled, with interest thereon. The deficiency for that year has been ascertained to be four thousand

nine hundred and four dollars and fifty-seven cents, (\$1,904 57,) which has been paid out of the appropriation for the succeeding fiscal year.

The interest accrued on loans and accounts contracted previous to the first of October, eighteen hundred and sixty-four, amounts to eleven hundred and fifty-one dollars and forty-one cents, (\$1,151 41.) The whole amount paid since that time is two hundred and seven dollars and sixty-seven cents, (\$207 67.)

The following statement will exhibit the entire expenditure for the year ending this date:

Amount disbursed during the year, as per foregoing statement.....	\$121,445 05
Bills contracted prior to October 1st, 1865, and unpaid.....	7,966 25
Total.....	\$129,411 30
<i>Deduct:</i>	
Bills unpaid October 1st, 1864, as per report..	\$19,297 15
Deficiency for previous year.....	4,904 57
	\$24,201 72
Actual expenditure for twelve months.....	\$105,209 58

If to this be added bills rejected by the Board, because not purchased in conformity with the by-laws, which amount to two hundred and fifty-seven dollars and thirty-two cents, (\$257 32,) the total expenditure reaches the sum of one hundred and five thousand four hundred and sixty-six dollars and ninety cents, (\$105,466 90,) being an average of eight thousand seven hundred and eighty-eight dollars and ninety-one cents (\$8,788 91) per month.

Estimating the expenditure for the remainder of the fiscal year—nine months—at nine thousand five hundred dollars (\$9,500) per month, which, in view of the rapid increase of patients, and the exorbitant price of almost every article required, is not extravagant, the following estimate will exhibit the probable deficiency for that period:

Expenses for nine months, from October 1, 1865, to June 30, 1866, inclusive, at \$9,500 per month.....	\$85,500 00
Bills unpaid this date.....	7,966 25
Total.....	\$93,466 25
<i>Deduct:</i>	
Balance of appropriation.....	\$75,000 00
Cash in Treasury.....	3,606 51
Board of patients, say.....	1,500 00
	\$80,106 51
Estimated deficiency.....	\$13,359 74

This includes the deficiency of four thousand nine hundred and four dollars and fifty-seven cents (\$4,904 57) for the fiscal year ending June thirtieth, eighteen hundred and sixty-four, so that the actual deficiency created during the two years ending June thirtieth, eighteen hundred and sixty-six, will be but eight thousand four hundred and fifty-five dollars and seventeen cents, (\$8,455 17,) provided the foregoing estimate proves correct.

IMPROVEMENT FUND.

RECEIPTS.	
Amount drawn from State Treasury from October 1, 1864, to October 1, 1865.....	\$66,281 53
Premium on gold.....	320 00
Total.....	\$66,601 53
DISBURSEMENTS.	
Amount paid, as per vouchers on file, from October 1, 1864, to date, including balance of \$7,458 overdrawn at date of last report	\$57,797 72
Balance in Improvement Fund.....	\$8,803 61

Bills have been contracted, payable from this fund, to the amount of one thousand six hundred and forty-three dollars and seventy-four cents, (1,643 74,) which leaves a surplus unexpended of seven thousand one hundred and fifty-nine dollars and eighty-seven cents, (\$7,159 87.)

The following is a statement of the balances in the Treasury belonging to the different funds :

General Fund.....	\$3,606 51
Improvement Fund.....	8,803 61
Special Fund, for payment of certain accounts.....	88 09
Total amount in Treasury.....	\$12,498 21

All of which is respectfully submitted by your obedient servant,

R. HAPPERSETT, Treasurer.

REPORTS
• OF
VISITING PHYSICIANS.

MAJORITY REPORT.

To his Excellency, Governor F. F. Low :

DEAR SIR :—We regret that circumstances have caused us to delay our report to an unreasonable degree. At our last official visit to the Asylum we were told of matters affecting so seriously the welfare of that institution, that, with the promise of Doctor Hubbard (our colleague) to furnish us documentary confirmation of their truthfulness, we concluded to wait until he should communicate with us. But as we have received no word from him, we have concluded to submit our report and have any undeveloped questions injurious to the Asylum to be investigated by the Legislature.

In so far as the undersigned have been officially related to the Insane Asylum of the State, we have endeavored to do the best we could to promote the best interests of the State and to protect the great charity with which we were connected without any expressed or implied desire on our part.

None lament more sincerely than ourselves, that there should have been anything developed in our official relations to the Asylum which was calculated to distrust the administration of Asylum affairs, or in any way to connect our names with acts and duties which had, as we believed, been unnecessarily rendered unpleasant; but that such things were developed, entailing upon us disagreeable duties, is now too well known to require mention in this report.

On April sixth, eighteen hundred and sixty-five, when the unhappy affairs of the Asylum were being generally discussed, and our own motives and acts animadverted upon by the Board of Directors, we published the following letter in the San Francisco Evening Bulletin :

THE INSANE ASYLUM QUESTION.

CARD FROM DRS. WHITNEY AND MORSE.

SAN FRANCISCO, April 6th, 1865.

Editor Bulletin:—The undersigned, physicians of the Medical Board of Visitors to the State Insane Asylum, would respectfully request you to publish the following statement:

The official relations we sustain to the above institution was not sought or desired by us, nor even known until weeks after our election. We accepted the same only after being urgently requested by the present Superintendent, to aid him in making the charity worthy of the cause of humanity and the pride of the State. We fulfilled the duties incurred to the best of our ability, and watched with the greatest interest the efforts made to amend the many defects of the institution. Until after our April visit, a year ago, nothing could have been more cheering than the progressive improvement manifesting itself.

From that time, however, we have seen enough to convince us that the enactment organizing and governing the institution has been misconstrued and applied in such a way as to arrest improvement, to injure the charity in its already imperfect accommodation, and to inflict embarrassment and injustice upon the Superintendent. Indeed, we feel convinced that the law as it is now construed and administered, would vitiate, if not destroy, the chief office of the Insane Asylum, and subject such a charity and State institution to the capricious and almost unchecked control of local interests. Our opposition is not against the City of Stockton. We do not believe that the official acts of the present Board of Directors, if well understood, would be justified by the citizens of that place.

At our April visit referred to, one of the Directors, in the presence of several other members of the Board, appealing to the three Medical Visitors, made the following request: "The Board of Directors desire you, gentlemen, in connection with your sanitary duties, to examine well the building and grounds of the Asylum, and give us your advice as to what you think would be the best use we could make of the funds appropriated by the State. We assure you that in doing so you will confer a favor upon us, and your advice will receive a liberal consideration in our deliberations and plans."

We performed the duty as requested, and said to them that, in our opinion, considering the urgent and immediate demand for more room, and the small sum of money appropriated, the best plan would be to erect inside buildings which would require no architectural embellishment, which would be quickly and cheaply built, and which would yield the largest accommodations to the crowded patients, referring them to the very economical structures which had already been erected. When we gave this advice we had been informed by the highest authorities, through whom the appropriation had been made, that the funds so set aside by the State were for the purpose of providing the most immediate relief to the crowded and inadequate accommodations of the Asylum—that this was the avowed and distinct understanding under which the appropriation had been obtained. Not only did this information come to us through many senators and representatives, but Dr. Hubbard, our colleague, who was a member of the succeeding legislative session, at

which this subject was elaborately discussed, attested to the truth of these representations in respect to the object of the funds.

Our advice was asked for, and we gave it. Whatever consideration it may have received is unimportant. The Directors certainly ignored it, and commenced as soon as possible the construction of an isolated building, so far from the others as to necessitate the establishment and maintenance of two kitchens, to largely increase the number of employés, at the same time that it will not afford more than one half the room that the same money would have provided in four months if applied as advised, and yet this addition of the Directors cannot be finished probably before next June. In the superintendency of this building the Directors have taken the right from the executive and qualified officers of the Asylum, and conferred it upon an individual who has not been in the State more than four or five months.

In respect to the present Superintendent, we need only say, that up to the time of our visit, a year ago, there was no language too extravagant to convey the high estimate in which he was held by the Board of Directors, and that we have seen no change in this officer's capacity or conduct, except in so far as the Board has embarrassed and disturbed him by withholding their favor and encouragement. We believe that, disagreeable as it may be, it is our duty to vindicate, not Dr. Tilden, but the important office of Superintendent, from the evil effects of what we consider to be misconstrued law and perverted authority. We do not believe in the soundness or justice of the official acts of the Board of Directors. The course we are pursuing, whilst suggested by eminent counsel, has but one object, and that is, humanity.

JAMES P. WHITNEY, M. D.,
JOHN F. MORSE, M. D.

P. S.—With the foregoing statement we believe our colleague, Dr. Hubbard, would unhesitatingly concur could we see him.

W. and M.

The course of conduct referred to in the conclusion of that card was, on our part, a refusal to go into a Joint Convention for the election of a Superintendent, Resident and Visiting Physicians of the Asylum, at the time appointed by law. In that card we have referred to the general causes that led us to take the step we did, but they are by no means the controlling considerations which induced us to determine upon such a measure.

We knew and dreaded the onus of any dereliction in violation of duty, but when we felt ourselves urged to such a step as a sacrificial protection to every interest which we believed to be suffering, we thought it our duty to incur the responsibility and accept the penalty.

In addition to the general reasons assigned in the printed card, we were informed by the Superintendent, Dr. Tilden, and by the Steward, Mr. Arents, that the most essential requirements of the Asylum, in connection with the supplies of the institution, were being disregarded by the Board of Directors to the positive injury of the supplies and pecuniary interests of the State.

Upon our demanding positive illustration of such facts, we were told of a specific contract for potatoes, in which a bond had been originally demanded and given; we believe of one thousand dollars, and that subsequently, after a rise in potatoes of some three or four hundred per cent, the contractor had been permitted to withdraw said bond, or it had been

destroyed, and to execute and file in its place a bond of three hundred dollars, which was at once forfeited, the same contractor continuing to furnish the material at the advanced valuation, and himself asserting to the Superintendent or Steward that he had made a large sum of money by the transaction.

Of the merits or accuracy of these charges, we had no means of informing ourselves; but coming to us from such sources, in connection with our official relations to the institution, and associated with what we were informed from high legislative authority was, on the part of the Board of Directors, a direct violation of the intentions of the State in its appropriation for an expansion of Asylum accommodations, we were induced to believe that any act by which the State would be impelled to make a thorough investigation of the affairs of the institution would be just, and philosophically if not legally right.

In our card we expressed the opinion that the new building would not be completed and ready for occupation before June, eighteen hundred and sixty-five. As an evidence of our intention of keeping within bounds of prudence, we may now mention the fact that it was not opened for hospital purposes until the last of September.

Let any one examine the statute organizing and managing the affairs of the Asylum, and nothing will appear more conclusive than the defects of that enactment requiring revision and amendment. As it is now organized, the institution is placed in the arbitrary control of six men, and all of them located in the town which is chiefly interested in furnishing supplies. We say, in their arbitrary control, for the only check upon them is through the Superintendent, and in electing that officer they constitute six interested to the three disinterested votes.

In the present system of organizing that charity, the Superintendent and Board of Visiting Physicians are as nothing against any policy which the ruling six have adopted. With the authority as now possessed by the Board of Directors, exclusively of Stockton, there is no man in the world who could exercise the function of Superintendent and Physician of such an institution, unless it were entirely congenial for the Managing Board to have him in the place. He must, indeed, become the mere creature of their will, or he runs the risk of being made so uncomfortable in his position that most men would either succumb or indignantly resign their commission.

The Board need not commit any act of aggression upon the Superintendent; they have only to cease doing many things which habit and inspiring civility had been rendering, and they can easily make the place a burden to any man of spirit or ability. Locality, interest, and association, make the testimony or charges of six as the report of one man, yet the countercharge of the one man is always against six men individually and collectively.

That the evils to which we have referred as possible, and even probable under the present organization of the Asylum, have been manifested in the workings of the State Insane Asylum during the last two years, we think will be conclusively shown whenever the affairs of that institution are properly investigated. Upon this question we may be mistaken, and an investigation may clearly demonstrate that Dr. Tilden has been the principal cause of all the evils which have arisen to embarrass or obstruct the progressive improvement of that charity; but we do not believe anything of the kind will be established; and if it were it would not remove the defects of the law, which will be apparent upon examination.

After the authority at the Asylum had been concentrated, by forced ejection of Dr. Tilden, in the hands of the Board of Directors and Dr. Clark, we consented to attend a convention which was appointed by these officers. At that convention we saw a complete illustration of the shocking defects of the Asylum enactments to which we have referred. We saw the same unanimous six, whom the Superintendent had publicly charged with the most unjust treatment towards him, who had accepted and cautiously maintained the parties and institution after the Superintendent had been riotously ejected; we saw the same six, with more strength than sagacity, elect one of their own Board, a Stockton man, to the chief executive office of the institution, thus adding another officer and the only conservative check which the State retained, to the already arbitrary local majority.

Now, out of ten officers of that institution, in whose hands are vested the entire interests of the State, who exercise the whole moral, scientific, and financial control of the institution, seven of them are the interested residents of Stockton, and the other three are but semi-annual visitors, with not one vestige of power except by the way of suggestion, and those suggestions liable to the same contemptuous treatment which was shown to our recommendations in respect to the improvements of the Asylum in April, eighteen hundred and sixty-four.

We do not say anything personally or professionally against the fitness of Dr. Shurtleff, whom the Board elected as Superintendent and Resident Physician; on the contrary, we believe he was eminently the best man who could have been selected from Stockton, and quite possibly as good a man for such a place as we have in the State, aside from his connections with the Board of Directors with Asylum affairs that are to be investigated, and which have been demonstrated to be already under an unsound, injudicious, local control.

At that visit, and at our last visit, we saw nothing in the Asylum which exhibited any feeling of administrative ability, except in the retention in most important places of parties who had cautioned the public against believing more than one statement out of two which they had made, and which were in direct antagonism, and in the restoration of an individual as Matron whom we believe to have been properly discharged for incompetency and insubordination.

Having said thus much about our connection with that institution in the past, we will close our report by submitting the following considerations:

We must substantially reiterate the opinion given in our report for eighteen hundred and sixty-three to your predecessor in the gubernatorial chair, and state that in the location of this institution, the principles which should guide in such matters seem to have been almost entirely ignored, and in a State containing the most perfect sites in all their topographical and hygienic relations to the amelioration or cure of insanity, one has been selected which is almost entirely destitute of the characteristics which should be sought for.

Common sense should have suggested and common humanity should have dictated the selection of a site for such an institution that was elevated, salubrious, and well watered, as well as fertile and easy of access. The insane should not have their blood poisoned either by marsh malaria or emanations from their own excretions; nor should their minds be wearied through the senses by a dull monotony. But they require and profit by the purest air and the most picturesque scenery that can be furnished.

We cannot believe that insanity can ever be very successfully treated at an institution situated on a vast plain of adobe soil, no part of which is sufficiently elevated to admit of complete natural drainage; not often fanned by any breeze that has not swept over more than forty miles of marsh land, alternately exposed to the rays of a burning sun, and covered with mixture of salt and fresh water, as the tide ebbs and flows in the slough which forms the water front of the City of Stockton; thus furnishing, according to all authorities, a most fruitful source of one of the most lethal causes of bodily and mental disease.

In a well located and managed institution seventy-five per cent of cases of insanity are cured in less than one year, and only twenty-five per cent left on the chronic list, mostly incurable, and destined to remain on an average fifteen years in the institution. The tables show that in the institution at Stockton, only about forty per cent has ever been cured, leaving sixty per cent in the Asylum as fixtures for a term of years. It will make a wide difference to the State whether seventy-five or only forty of every one hundred are cured and restored to usefulness and their families, and only twenty-five left as fixtures for life, or only forty cured and sixty die, or become worse than useless to themselves—sore trials of affliction to friends and families, and a tax upon the State.

With two hundred annual admissions, which is below the average, what a frightful difference would it make in the tables whether one hundred and twenty or only eighty were annually restored to self control, and the comforts of home and family, or these figures reversed, and the larger number lost to their friends, and taxable for years to the State, and only the smaller number restored.

In our opinion a larger difference than this depends upon the location, construction, organization, and management of such Asylums or Hospitals as the State may provide for this most unfortunate class of her citizens. We use the plural number here because it has been amply proved by the most enlightened experience that the number of insane should never exceed three hundred in one institution, and that even as this number is nearly reached, the statistics begin to show the impropriety of further increase.

We would therefore respectfully recommend that a thorough inquiry be made by competent commissioners appointed by the Legislature—proper sites chosen, and a proper organization effected in accordance with the recommendations of the Association of Medical Superintendents of American Institutions for the Insane, or other investigators of these subjects who have devoted their energies thereto.

Sense and experience unitedly point to the propriety of committing financial questions to financiers, and medical questions to medical men.

J. P. WHITNEY, M. D.
JOHN F. MORSE, M. D.

MINORITY REPORT.

MARYSVILLE, November 1, 1865.

To His Excellency, F. F. Low, Governor of the State of California:

DEAR SIR:—The time has again arrived when it becomes the duty of the Board of Medical Visitors to report to your excellency their proceedings since their last report, and the management and present condition of the institution with which they have been connected.

The fact that two reports are furnished is no evidence that the members of the Board do not agree in regard to the practical operations of the Asylum. In this particular, I am happy to say, the Board have, as I believe have always been, a unit. But, unfortunately, a difference of opinion did exist between members in regard to their powers and duties in the matter of franchise.

The law provides that on the first Tuesday of April, eighteen hundred and sixty-five, the Board of Medical Visitors and Directors of the Asylum should meet in Joint Convention, for the purpose of electing a Resident and an Assistant Physician.

Notice having been served on the members of each Board, the terms of officers having expired, and the law being explicit, that the "election shall take place," it seemed there could be no avoiding the conclusion. Nevertheless, my colleagues saw matters in a different light, and refused to meet the Directors in convention, which convened as required by law, and adjourned from time to time, on account of the want of a quorum in the Medical Board. After a number of months delay and litigation, the convention was organized and performed its legitimate functions.

While these proceedings were pending, the Asylum necessarily suffered in many respects. It was a house divided against itself. An Insane Asylum is near enough a Bedlam at best; but what can be expected when insubordination reigns among officers from the highest to the lowest?

The terms of office of the incumbents had expired. An election was necessary under the law; and if that had not been prevented at the proper time, much, if not all, of the unfortunate proceedings that took place at the Asylum would have been avoided. The result was to delay

the election; and of course the incumbents remained lawfully in charge of the institution.

Up to this period the Directors had cautiously kept within the bounds prescribed by the strictest letter of the statute, and under the advice of wise counsel were on the point of closing the contest quietly, in a way that must have given satisfaction to the public, if not to the parties concerned. Just at this instant an evil spirit seemed to prevail, and in an unguarded moment the Directors yielded to counsels we deem most pernicious, which resulted in a high-handed infraction of law, such as has seldom been witnessed in any community. The Superintendent, lawfully in power by State authority and the Act ratified by the signature of the Governor, ejected from his solemn trust by violent hands, having no authority or right save that of force!

We would gladly have passed the last paragraph without remark, but, in justice to all parties concerned, as well as the public, we are compelled to say this much—besides, the act is fraught with too much danger as a precedent to be allowed to pass without proper criticism.

Finally the convention took place, which resulted in the election of Dr. G. A. Shurtleff, of Stockton, as Resident Physician, and Dr. Clark, former incumbent, Assistant Physician. From this moment things have progressed with much harmony.

While we would by no means detract from the merit of the former Superintendent, we can but regard the election of Dr. Shurtleff as most fortunate for the institution at the present juncture. Besides much experience, he takes with him professional and business tact; these, with his high moral reputation, secure for him not only the confidence of the public, but the confidence and respect of the employés and inmates of the institution.

Already, chaos has given place to order; insubordination to perfect obedience. In saying this for the institution under present management, we are not pretending to account for the confusion that prevailed there a few months ago. Unfortunately, the officers could not agree; and, as always happens in such cases, the disputation spread among the attendants; and even the patients shared in the general spirit of disaffection. What among the general officers alone would have resulted in no injury or discomfort to the patients, when in the hands and brains of attendants who were governed altogether by passion, became serious, and, it is charged, even "fatal" in one or two instances.

That patients, in the absence of the Superintendent and Physicians were harshly treated, there is no doubt, and moreover, the evidence is conclusive, as charged, that a young woman brought to the Asylum on the sixth of September, eighteen hundred and sixty-four, was taken by two female attendants, and forced, against her will, into a cold bath, from which she was taken senseless, "dying or dead." The testimony is, that she was "forced into a cold bath, and her head held under water until she was dead or dying." And, again, it is charged, that a certain male patient was maltreated by one of the attendants by "blows, kicks, and stamps," insomuch that he died. On post mortem examination, the body was found horribly mutilated—limbs broken and skull crushed in a shocking manner. It is proper to state that it is believed that most of the wounds were posthumous. Here the dark chapter closes as far as we have knowledge. What a scrutinizing examination might develop we have no means of knowing.

In dwelling on these circumstances, perhaps we have diverged somewhat from our proper line of duty. Nevertheless, the facts are patent,

and if avoided altogether, we should at least render ourselves obnoxious to the charge of entertaining a desire to cover what, above all things else, should be made public. And while, as I believe, the members of the Visiting Board are of one mind in regard to the present able management of the Asylum, they are equally as unanimous in their desire that the public should be as perfectly informed in regard to the past, as to what is to be the future management of this public charity, to which they subscribe so liberally and cheerfully.

The Medical Visitors have no power in this connection beyond reporting facts relating to the "sanitary condition and medical management of the Asylum;" hence they have no means of ascertaining who, if any one, is particularly in fault, except so far as they can draw conclusions from the circumstances developed without positive evidence.

We have no idea that any of the principal officers were aware that cruelty was being practiced on the unfortunate inmates by attendants at the time, nor that it would have been permitted had they known to what extent such abuses were carried.

If there is culpability, it exists because it was not known what was taking place every day in an institution of so much magnitude.

This again, however, was the result of the unfortunate difficulty into which the Asylum had fallen. So general was the defection, that officers from the highest to the lowest participated.

To avoid like difficulties hereafter, the law providing for the election of officers should be amended or repealed altogether and returned to the Legislature. Under the existing laws two members of one Board, or three of the other, may prevent an election indefinitely.

ASYLUM BUILDINGS.

Since our last report some improvements have been made to the old buildings. An entire new story has been added to one of the wings, affording sleeping accommodations for some forty or more patients, and the old ground cells attached to the main yard, heretofore dark and damp, without ventilation, have had windows opened into each on both sides of the hall, rendering them perfectly comfortable. It was the discomfort exhibited in this part of the establishment that properly gave the institution the character of a prison; happily, the dingy walls and rusty gratings have disappeared, and light, airy rooms have taken their places. The heretofore dreary yard, also, occupied by some three or four hundred patients, has been nicely graded, and the centre portion roofed. From this is partitioned a reading room, where may be found some of the State papers; comfortable seats and tables are here arranged, and in the morning most of them occupied by patients anxious to learn the news of the day. No doubt if the attention of journalists was called to the fact, this room would be more liberally supplied with papers. It is an interesting fact, that quite a large portion of the inmates exhibit a taste for reading and inquiry.

THE NEW BUILDING.

This is located some six hundred yards to the north of the old Asylum, and perhaps four hundred yards north of the Resident Physician's house. A difference of opinion seemed to exist in the minds of the Medical Board and Directors in regard to the location of this building. It was the opinion of the Medical Board, so expressed, at least, at their semi-annual meeting in April, eighteen hundred and sixty-four, that whatever expen-

ditures of money were made for improvements between that time and the meeting of the next Legislature, ought to be applied, as contemplated by the Legislature which had just adjourned, in erecting wings or rooms directly attached to the old Asylum, so as not to duplicate its internal operations in any essential particular. But, contrary to their expectations, a new edifice was commenced, and the first wing—or about one fifth of the whole—is now completed.

Without desiring to condemn or approve the proceeding, we have given the plain statement for information, with the knowledge that the Directors are willing to assume all responsibility, and to abide the verdict of the coming Legislature.

It is evident, however, that if Stockton is to remain the site of the *mother* institution of the State, the Directors have expended money more judiciously than to have patched the old building, which, notwithstanding, would soon be inadequate, and necessarily give place to other buildings, erected on a more enlarged and improved plan.

The wing is, as we before stated, about one fifth of what is to be the complete structure, and is of a quadrangular form, one hundred and fifty feet in extreme length from east to west.

The west end is four stories high above the basement, and is forty-two feet in length from north to south, and thirty-three feet in width from east to west, containing a suite of rooms for the use of the Matron, a sewing room, attendants' rooms, reception rooms, a suite of rooms used for common purposes, and a suite denominated domestic rooms, with accommodating hall, stairways, and closets.

The east end, being also four stories high, is thirty-five feet by sixty-two feet, containing twenty-four rooms, ten feet by twelve feet, for patients, with four bath rooms, four wash rooms, four sink rooms, with closets to each. There is also a hall in each story, twelve feet by sixty feet, with entrances and staircases leading from basement to attic.

The centre building is ninety-one feet six inches by thirty-seven feet, and only three stories above the basement. This also contains forty rooms for patients; three halls, ninety-one feet long by twelve feet wide, each containing a bay window about twenty feet square; three dining rooms, three bath rooms, three wash rooms, three water closets, three China closets, and a dumb waiter leading from the basement to all the dining rooms.

The attic has been provided with much care, being well furnished to accommodate twenty beds.

The basement is mostly used for cooking purposes, and is furnished with all modern improvements, not only for cooking, but for warming the whole establishment, which is done by steam, through coils artistically arranged through the basement.

The tanks for water are placed in the centre of the attic, and will contain about six thousand gallons. Cold and hot water are distributed throughout the building.

The entire establishment is lighted by gas from the city gas works.

The fronts are finely finished with oil mastic; the roof covering, gutters, and cornice, are of heavy galvanized iron, and the whole fabric composed of the firmest material, and finished in the most substantial manner.

The whole number of rooms, exclusive of attic, is one hundred and twenty-six, and at present are occupied by one hundred and twenty-five female patients. The windows are guarded by an outside iron sash, and are about one hundred and eighty in number.

The vaults are ventilated, and all offensive steam and gases from the boilers are carried off through pipes leading to a brick shaft, erected some two hundred feet from the main building, and seventy-five feet in height.

The entire cost of the structure and its appendages is sixty-six thousand eight hundred and eighty-five dollars and thirty-four cents.

This building is certainly very well adapted to the purposes intended, and is about the first step yet taken towards a curative institution. Another wing of the same, of much larger dimensions, is now imperatively demanded for the milder and better class of males. Expense cannot be taken into account. The Asylum is a public charity, intended to benefit those committed to it. A *cure* is the first object; and second, to afford relief beyond what can be received in private, or by mere imprisonment.

The herding of three or four hundred patients in a common yard, with indiscriminate association, affected as they are with insanity in every degree, can scarcely be regarded as a curative measure, nor can we reasonably expect that any will be benefited. It is a natural law of mind, as well as physics, that the weak yield to the strong; hence it is with the insane—the mild to the turbulent; and when closely associated, all to assimilate with those whose hallucinations are most confirmed and violent.

Strange as it may appear, the only accommodation afforded in the present institution, except the yard and reading room mentioned, are for eating, sleeping, and confinement. And even with late improvements, nothing beyond these is contemplated. Means for varied amusements are important, but altogether absent here. No provisions are made for religious service; no wards are especially set apart for convalescents; and no separate apartments are provided for the sick. We can but believe that a humane Legislature will not be tardy in furnishing the means for these especial objects.

We may be permitted to repeat, that for the accommodation of the present inmates, another wing is required immediately. In this no calculation is made for the increase during the next two years.

The annual increase of insane persons in this State, since the adoption of the present Asylum system, has been a fraction over fifty. But with our increased population, and the inadequate means of treatment, we may calculate that the annual increase during the next two years will be something above those figures. Hence it will devolve upon the Legislature to provide fully one third more accommodations than are now at command.

The five cent tax, levied in eighteen hundred and sixty-three, for building purposes, has in three years been just sufficient to make necessary repairs about the old Asylum buildings, and erect and furnish the wing above mentioned, which is now occupied by one hundred and twenty-five patients—twenty-five less than the increase for the three years occupied in collecting the money. Therefore the tax continued will only maintain the institution in its present crowded and unsatisfactory condition.

Without ample room and appliances, the Asylum can never rise to a curative point. And until adequate accommodations, such as shall be completely adapted to the wants of the State and humanity, the annual increase of permanent patients and a corresponding increase of expenses, will remain a settled feature of the institution.

The above facts indicate that economy as well as humanity demands a

change in the Asylum policy. In round terms, with a view of attempting to establish a curative institution, as much more room as is now occupied could, with great propriety, be immediately provided, either at Stockton or on some other site selected.

But even with such improvements, the institution would not then equal those of the Eastern States.

It is estimated, by those quite competent to judge, that a new Asylum could be constructed and put in condition for the accommodation of about three hundred patients, as they are provided for in Eastern institutions, for three hundred and fifty thousand dollars. With such a provision, no additional expenditure would be required, probably, for the next six years to come, and perhaps indefinitely, as then the annual increase of cures would nearly if not quite equal the present increase of insane.

The question has been raised, and doubtless will be again, as to the proper place of locating future buildings. Those who have the best opportunity to judge correctly, give it as their opinion that "three or four hundred patients are as many as can be cared for to the best advantage in one institution." Again, it is urged that a branch Asylum for the insane, as a matter of convenience to the northern part of the State, is peremptorily demanded, such institution to be located somewhere north of Sacramento. Others insist that the site should be selected on tide water, about the Bay of San Francisco, as being more accessible to all parts of the State, and combining more requisite conveniences, such as "altitude, picturesque scenery, fertility of soil, natural drainage, and ample water facilities," than any other point.

We have before suggested that Marysville afforded all requisite natural advantages, and was the place above all others that accommodated the whole of the northern counties in the State, except the coast tier, which could reach this point just as easy as Stockton. The inconvenience and expense of transporting patients from Marysville to Stockton is among the strong arguments in favor of locating a branch at the last named place, this being the general starting point.

Buildings for the care of one hundred and fifty of the mild class of incurables could be provided at Marysville at a small present expense, and before other patients from the northern section of the State could accumulate to any extent, suitable buildings could be erected on proper grounds.

In a former report we referred to the class of persons confined at the Asylum. Notwithstanding the law of eighteen hundred and sixty-four, a large number of imbeciles and epileptics still remain there that should be provided for in county poor houses or hospitals. The tax for the maintenance of the poor is among the heavy items of public expenditures in the State, yet there is no law on the statute books economizing and equalizing the burden. Proper poor laws would relieve the State from the care of a very large percentage of persons who now find their way into the State charities.

In this connection we may speak of the present government of the Asylum. If no change is contemplated in the locations of buildings, to avoid a repetition of the occurrences of the last convention for the election of Physicians, the quorum of the Joint Convention of Medical Visitors and Directors should be fixed by law at a majority of the two Boards, without reference to representation of either.

If a branch institution should be organized, very naturally two Boards of Trustees would be provided; both should act in conjunction in the

location and construction of buildings for either Asylum, and also in the Joint Conventions.

The Medical Board could very properly have an oversight of the two, and their powers should be enlarged, and in any event, their duties more specifically defined.

There seems to be an objection to the locating of all the Directors in one place. Very likely it would give better satisfaction if three were residents of Stockton, and two taken from the State at large. This would, in a measure, do away with the prejudice against permitting private and local interests governing too much public institutions.

The following table exhibits the operations of the Asylum during the current year :

From September 1, 1864, to September 30, 1865.	Males.	Females.	Total.
Number of patients September 1, 1864.....	441	140	581
Admitted during the year, September 3, 1864, to October 1, 1865.....	191	77	268
Total number under treatment during the year....	632	217	849
Discharged cured.....	69	24	93
Discharged improved.....	5	6	11
Discharged unimproved.....	3	1	4
Number died.....	66	16	82
Number escaped.....			27
Total discharged, died, and escaped.....			217
Leaving in the Asylum, September 30, 1865.....			632
Increase during the year.....			51

In closing this report, so impressed are we with the importance of the subject, that we venture, for the second or third time, to call attention to the absolute necessity of abundant room in the successful treatment of the insane. It should never be forgotten that a *cure* is the object of the charity. Wards of the size of ours, in which are crowded from eighty to a hundred patients, in eastern institutions are occupied by fifteen or twenty. When a certain amount of room is found to be essential, it is provided. Patients are properly classed and allotted to their suite of rooms, and on no account are innovations permitted. So it should be here. Every consideration sacred to Christian benevolence, moral obligations, and humanity, demands that a high and open handed liberality be bestowed upon this noble charity.

With the highest considerations of esteem for yourself, the above is respectfully submitted.

LORENZO HUBBARD,
Member Board of Medical Visitors of Insane Asylum, Cal.

THIRTEENTH ANNUAL REPORT

(Fifteenth, including the Insane Department of the General Hospital,)

OF THE

RESIDENT PHYSICIAN

OF THE

Insane Asylum of California.

1865.

REPORT.

To the Directors of the Insane Asylum of California :

GENTLEMEN:—In compliance with the seventh section of an Act of the Legislature concerning the Insane Asylum of California, approved April twenty-fifth, eighteen hundred and sixty-three, the annual report of the Resident Physician of said institution is respectfully submitted.

On the first day of August, of the present year, I was, by a joint meeting of your Board and the Board of Medical Visitors, elected Resident Physician; and on the fifth day of the same month I entered upon the discharge of the duties of the office.

You are therefore aware that it is only during the brief period of two months that I have occupied my present official connection with the institution.

With no other special knowledge or experience than that acquired in so short a time, one would meet with discouraging embarrassments in even presenting from the records "the principal facts and results" connected with the annual transactions of an institution ranking among the largest of the kind on the western hemisphere; while an attempt to occupy your attention with a report thereon, embracing views and deductions of his own, would be a futile and graceless exhibition of inordinate vanity.

I trust, however, that a connection with the Asylum in another capacity, prolonged from an ever cherished interest in its welfare and success, will shield me from the appearance of immodest pretension, should I even venture to comment upon some of the statistical facts and results herein exhibited.

The following table shows the number of patients at the commencement of the year, the admissions, discharges, recoveries, deaths, and elopements, and the number remaining October first, eighteen hundred and sixty-five:

From September 30, 1864, to October 1, 1865.	Males.	Females.	Total.
Number of patients September 30, 1864.....	441	140	581
Number of patients admitted.....	190	78	268
Number of patients under treatment.....	631	218	849
Number of patients discharged cured.....	69	24	93
Number of patients discharged improved.....	5	6	11
Number of patients discharged unimproved.....	3	1	4
Number of patients died	66	16	82
Number of patients eloped.....	26	1	27
Number of patients discharged, died, and eloped....	169	48	217
Number of patients remaining October 1, 1865.....	462	170	632

It will be observed that the increase of patients during the year is fifty-one—a large addition compared with the previous year, when the number was two less at the close than at the beginning of the year. But it will also be seen by reference to the report of eighteen hundred and sixty-four, that the number of admissions has been forty-nine more during this year than last, which, in a great measure, accounts for the comparatively large increase.

The percentage of recoveries to the admissions is about thirty-four and seventy one-hundredths, which, though not as great by nearly twenty per cent as the average of cures in previous years, is yet by no means a small or discreditable rate for a single year, viewed in comparison with the curative results obtained in other institutions of the kind; in which, also, it will be observed, wide variations occasionally occur.

The number of deaths, by a remarkable coincidence, is exactly the same as during the preceding year—it being eighty-two. But the whole number of inmates being greater, the percentage of deaths on the number treated, and on the number resident, is not as large as last year.

A comparison of the results of the past year, as exhibited in the foregoing table, with those of previous years and other similar institutions, may be of interest, and afford desirable information. For this purpose we will give a brief history of

INSANITY, AND THE RESULTS OF ITS TREATMENT IN CALIFORNIA.

Hardly had the acquisition of California to the United States, and the discovery of the precious metals, put in motion upon this coast the enterprise of modern civilization, before insanity began to be developed. Nor is this a matter of wonder, when we consider the peculiar manner in which our State was peopled, and the peculiar influences which operated upon its early inhabitants. Suddenly crowded together from all parts of the world, in a fierce and selfish struggle for wealth and position, with energies quickened by new hopes, and anon paralyzed by overwhelming disappointments; restless, unsettled, and improvident, at once relieved from the steadying cares and deprived of the composing

influences of home; to-day surfeiting upon the profuse luxuries of unfostered wealth, and to-morrow pining over the privations of unresisted want; enjoying a liberty expanded to licentiousness, and often yielding to the impulses of passions pampered by vice, and severed from the moral restraints of society, the early settlers of California laid the foundation and contributed much to the present vast accumulation of mental disorders.

During the year eighteen hundred and fifty, there were fourteen insane persons sent to the Station House in San Francisco. It is estimated that the whole number of insane of that year amounted to twenty-two. Some of these received care and medical treatment in the Marine Hospital at San Francisco, and others were temporarily secured in prisons. In eighteen hundred and fifty-one, the State Hospitals at Sacramento and Stockton afforded accommodations for the insane. During this year the Hospital at Sacramento received thirty-four, and the one at Stockton thirteen, making the whole number forty-seven.*

In eighteen hundred and fifty-two, the Legislature ordered all the insane persons of the State to be sent to Stockton, and placed in the State Hospital; and accordingly, one hundred and twenty-four were this year admitted into what was termed the Insane Department of the General Hospital. Thus were brought together all the insane of the State, at the early period of eighteen hundred and fifty-two, in the place where they have ever since been maintained and treated. Some of the very individuals who were received at that time, now more than thirteen years ago, are still inmates of the Asylum. In the following year, eighteen hundred and fifty-three, the Legislature abolished the State Hospital at Stockton, and created in its place the *Insane Asylum of California*. As soon as practicable thereafter, the patients in the Hospital Department were removed, and the institution devoted exclusively, as it has been ever since, to the care of the insane. Appropriate buildings were erected, which have since been added to from time to time, to meet the rapidly increasing wants of the institution, until it has reached a capacity affording crowded accommodations for and containing about six hundred and fifty beds; the late necessity of having to nightly prepare temporary beds on the floor having been just overcome by the occupancy of the new building.

Extending back more than fourteen years, when the thirteen homeless and forlorn pioneers of insanity were confined temporarily in a little wooden building, on the corner of El Dorado and Market streets, receiving their scanty supply of air and light through small auger holes cut in closely boarded windows, the following tables will show the result of the treatment of insanity in California from its incipency in the Insane Department of the State Hospital in eighteen hundred and fifty-one, to October first, eighteen hundred and sixty-five.

The first table shows the number of admissions, the number of recoveries, and the number of deaths annually, the number in the Asylum at the close of each year, and the annual increase of patients. The second table exhibits the whole number treated, the percentage of recoveries to the admissions, the percentage of deaths on the number treated, and the percentage of deaths on the number resident :

These general statistics of the institution, deduced and compiled from the annual reports of its several Superintendents, afford the tangible and incontestible proofs of its success, and cannot fail to be satisfactory and most gratifying to the humanity and State pride of our citizens. They exhibit the Insane Asylum of California, in its curative results, in an extremely favorable comparison with the most successful institutions of the kind in the world. With no adequate preparation or conveniences on the start to render its ministrations of charity "twice blessed," with its columns of admissions already advanced and fast progressing while yet the foundation walls of the contemplated buildings were unlaïd, of the three thousand one hundred and thirty-five patients received, one thousand six hundred and sixteen—more than fifty-one per cent—have been discharged cured.

In order the more fully to appreciate the curative success of the Asylum, it will be necessary to consider as ascertained by the proportion of recoveries in others, and by conclusions of reliable authors on the subject

THE CURABILITY OF INSANITY.

Esquirol, in his investigations, obtained the results of the treatment of sixteen thousand five hundred and sixteen cases, admitted into the leading hospitals for the insane in England, and three thousand nine hundred and thirty eight cases received into the principal Asylums of France. Of the former number, five thousand eight hundred and nineteen, or thirty-five per cent of the number admitted, recovered, while of the latter, one thousand nine hundred and ninety-two, or fifty per cent of the number admitted, recovered. These were treated to a conclusion, which is not the case with the admissions noted in our tables, as they embrace the patients received up to the very day of their date, who, consequently, have had no time for restoration. In Germany and Prussia the cures were much more rare than in England and France. Having presented these statistics, this corypheus of authors upon insanity says: "From the reports made in different establishments or hospitals for the insane, we conclude, first, that the absolute cures of the insane are about one third; second, that the number of cures varies from a fourth to a half. This difference depends upon the peculiar circumstances of locality, maladies, and treatment." *

Dr. Thurman gives the results of treatment in more than fifty Asylums—English, French, American, Scotch, Irish, and German—showing the ratio of recoveries to the number of admissions in each, and exhibiting a range of twenty-six to forty-nine per cent. † Bucknell and Tuke, adding the results of their own investigations to these tables, say: "The conclusions to which an examination of these statistics leads us may be thus stated in the words of the above writer, namely: 'that as regards the recoveries in Asylums which have been established during any considerable period, a proportion of much less than forty per cent of the admissions is, under ordinary circumstances, to be regarded as a low proportion, and one much exceeding forty-five per cent as a high proportion.'" ‡

An examination of the reports of some of the principal Asylums of our own country will not change the high position to which the Insane Asylum of California is entitled among them as a curative institution.

* Esquirol on Insanity, p. 61.

Insane Asylum of California, commencement in 1851 in General Hospital, to October 1st, 1865, 14 years.....	3,135	1,616	51

It is unnecessary to pursue these comparisons further, gratifying as they must be to the philanthropist, whose sympathies are with the unfortunate, or to the political economist, who justly looks for a commensurate return for the public munificence which so early commenced, and has ever since so liberally sustained this costly charity.

PROPORTION OF RELAPSES OR RE-ATTACKS.

In connection with the ratio of cures, and to obtain a full and comprehensive view of the beneficial results obtained from the operations of the Asylum, we will also consider the proportion of relapses or re-attacks; or, in other words, the comparative effectiveness of the reported cures. A relapse, in the proper use of the term, is a remanifestation of the disease while the recovery is incomplete—a rekindling of the apparently extinguished fire from a concealed spark. A re-attack is a recurrence of the disease subsequently to complete recovery.

The situation of the Insane Asylum of California is such as to insure the return to its own wards of a large proportion of the patients who have once been discharged as recovered, and have afterwards suffered a relapse, or re-attack of their malady.

What proportion of cases re-admitted into the institution have been returned with a relapse of the original attack in consequence of the imperfection of the cure, and what proportion from re-attacks after complete recovery, we have not the means of knowing. But the re-admissions, of course, include both forms of renewed eruption, and in my judgment, they do not bear a large proportion to the number dismissed as cured.

It is reasonable to suppose, basing the statement upon the observations of the scientific and experienced, that twenty per cent of all who have been once insane and have recovered, will, sooner or later, be re-afflicted with their former misfortune. If the predisposition did not already

exist, the first attack establishes it; and if it did exist, it is increased by the disease having been once developed.

This institution has discharged as recovered during the last fourteen years, one thousand six hundred and sixteen patients. It has now in its wards six hundred and thirty-two. Of this number about seventy-five are persons who had been previously in the Asylum and discharged as cured. This is less than five per cent of the whole number discharged as recovered. This proportion, in an institution which, from its extreme isolation from any other of the kind, would be peculiarly liable to have its imperfect or impaired work returned, is not large.

More than fifty per cent of the patients dismissed cured from the Glasgow Royal Asylum in eighteen hundred and sixty-two had been previously insane. Some of the number had been twice discharged during the year. "One female patient who had been admitted twice during the year, had been in the Asylum above thirty times; and one male patient who was also twice admitted, had been seven times in the Asylum. One gentleman had been above twelve times an inmate of the Asylum." *

MORTALITY.

The following table will show the number and cause of death, nativity, age, sex, length of residence in the Asylum, and duration of insanity, of all who have died during the past year.

* This wound was received in attempting suicide before admission to the Asylum, and death was caused by stricture of the larynx after the wound closed.

Notwithstanding the inmates have enjoyed a remarkable immunity from all physical diseases except such as were the recognized cause or the obvious result of their respective mental disorders, the ratio of mortality is large compared with that of a majority of Asylums for the insane. It is not, however, large when we take into consideration those modifying circumstances which are never overlooked by the statistician in collating his figures and stating his conclusions. "The mortality must be more considerable when we have to treat every form of insanity. * * It is one to six or eight."*

One to eight, on the number resident, is about the ratio of mortality in this Asylum during the past year. The cases sent here comprise every conceivable variety of mental unsoundness. The changeless idiot, the apparently well but hapless victim of jealousy, the helpless paralytic, and even the cold and pulseless moribund, in the inaudible delirium of approaching death, are sent and admitted to this institution. We are informed of a recent case in which death intervened between the order of commitment and the departure of the public conveyance which was to take the patient on the same or the next day. More than one hundred miles away the corpse lay, just committed to the Insane Asylum at Stockton. Providence mercifully sent the worn-out traveller to a more undisturbed repose. Many come from city and county hospitals where the silent ravages of chronic organic disease have at length dethroned the mind. Nearly all the inmates of our Asylum are supported by charity. Many of them are homeless, and some friendless. We have no almshouses and but few charitable institutions of any kind. Consequently the fifty per cent of incurables, or at least a majority of them, remain here even after they become harmless; and in the course of nature must sooner or later die. Many of them annually die of those diseases to which the insane are peculiarly liable. One of the chief of these is consumption. Twenty eight per cent of the deaths of the past year are attributed to this disease. In the Asylum at Taunton, Massachusetts, thirty per cent of the deaths for seven years were from consumption. A still more deplorable and equally prolific cause of death as well as of mental alienation is general paralysis. The second ward of our Asylum presents the melancholly examples of this revolting and fatal form of insanity. It is noted in the tabular statement and on the records as softening of the brain. "The duration of the disease extends from one to three, and in solitary cases, from five to six years. It almost invariably terminates in death."†

The great number of cases of this form of insanity found in our Asylum is a verification of the following observations of the author above quoted: "The male sex is more predisposed to this form of paralysis than the female." * * * Those ranks of society "in which there is much room for the play of ambition, and where there is great temptation to debauchery, are peculiarly prone to it. Venereal excesses and intemperance frequently give rise to the affection." Nearly three fourths of the inmates of this Asylum are males; and in what country has there been more room for the play of ambition, or greater temptation to debauchery and intemperance, than in California?

Twenty-eight per cent of the deaths were from general paralysis.

With the exception of twelve deaths from acute mania, six from marasmus, and four from epilepsy, there were only solitary instances of deaths from other causes.

* Esquirol, pp. 65 and 66.

† Romberg on Diseases of Nervous System.

GENERAL HEALTH.

As has already been observed, the patients have been blessed with their usual remarkable exemption from the ordinary acute diseases. Aside from the common and unavoidable complications of insanity, sickness has been almost unknown in the wards of the Asylum. It might be supposed that an institution so crowded as this has been for years past, would have been visited by some of those frightful epidemics which occasionally decimate the passengers of crowded ships, spread terror through the camps of great armies, and drive from large cities their panic-stricken inhabitants. In the first place, as one reason for the invariable general healthfulness of the institution, its wards, the inmates, and their clothes, are kept scrupulously clean. There is no indulgence or relaxation respecting this rule. In the second place, much less room is required for the preservation of health in an institution of this kind, in the climate of California, than would be necessary in that of the Eastern States. So mild and equable is its temperature, that the patients literally live out of doors during the daytime, the whole year round. In the yards or airing courts are large roofs, erected to protect them from the heat of the sun in summer and from rain in winter; and there such as are not trusted to saunter about the pleasure grounds spend their time. A large room or hall, used as a reading room, and warmed by a fire when necessary, to which the patients at all times have free ingress and egress, is also situated in the central part of the main yard. And during night and day, summer and winter, the windows of the Asylum are let down from the top, admitting a constant circulation of fresh air, of grateful temperature, through the wards.

The climate of our State is known to be, even in the hottest weather, remarkably exempt from that sultry, pestiferous heat existing between the trade winds in the low latitudes, and experienced more or less in the East, in the night as intensely as in the daytime, during the season termed dog days, as well as occasionally in other parts of the summer. On the other hand, in the rigorous climate of the Eastern States, the physical comfort of the patients requires them to be housed most of the time during nearly six months of the year, and that their rooms be closed during the hours of sleep against the inclemency of the external atmosphere. For these reasons, though much more room is desirable, the inmates of our Asylum have endured, with apparent impunity, the scanty supply of room afforded them. Much relief, however, is now obtained from our former crowded state by the recent occupation by the female patients of the

NEW BUILDING.

All the female patients recently occupying the north wing of the old Asylum building, and about one third of those in the two small one story brick buildings in the northeast yard, have been transferred to the new building. Thus we have about one hundred and twenty-five patients in the new structure, and about forty-three remaining in the above named detached accompaniments of the old.

This valuable improvement, in its capacity and means of comfort and security, as well as in all other respects, fully answers our expectations. It is but the section of a perfect and more extensive plan of building, but it is sufficiently complete and independent in itself to possess the capacity and conveniences, so far as its present use is concerned, that the same part would afford in union with the whole. It may thus be added

to without derangement of architectural design, or remain as it is without waste of expenditure. It contains seven wards, admirably arranged for the classification of patients—an important curative necessity, of which we have been heretofore nearly destitute. Before this change we only had three wards for one hundred and sixty-eight female patients, whereas we now have eight. All the apparatus for warming, lighting, cooking, bathing, supplying water, and conveying food, operate in an entirely satisfactory and successful manner. The culinary department is in the basement; and all the work therein is performed by a man and his wife, with the aid of patients, at an expense of sixty-five dollars per month. The kitchen is accessible from the wards by inside stairways. This gives the inmates some of the essential accommodations of a *home*. The duty of procuring hot tea or gruel, or other necessities of the kind, for the sick or newly arrived and exhausted patient, is made easy and agreeable. You are aware of the annoying inconveniences, to the females, of the old kitchen in this respect. It is situated in the very thoroughfare of the male patients and employés, and was more or less monopolized by the wants or surrounded by the presence of the four hundred and sixty-four male inmates.

By the erection of this building the crowded condition of the male department is relieved as much as that of the females.

It gives to the use of the males the entire old Asylum building, the north wing and its two yards, one at the end and one in the rear, in addition to the part before occupied. The yard containing the one story brick building before named, is another and separate inclosure.

This leaves to the males two of the largest and best wards in the institution, containing one hundred beds. About seventy-five of the male patients have heretofore been compelled to sleep in temporary beds made upon the floors of the corridors. These are now all provided for, leaving about twenty-five spare beds for future use.

I feel it my duty, out of consideration for the unknown and countless friends of the great multitude of unfortunates under our charge, and in view of past events, to say one word in regard to the

TREATMENT OF THE PATIENTS BY THE ATTENDANTS.

We have taken great pains to inculcate the maxim that an insane person is not responsible for his conduct; that he neither directs the performance nor appreciates the character of his own acts; that he is as unanswerable for them as an infant whose nascent mind is not yet endowed with the attributes of reason and volition; and that hence he is to be regarded as incapable of provoking, in the rational mind, the spirit of anger and retaliation.

The feelings of the insane, too, are often actually sensitive to the slightest acts of rudeness or discourtesy, or to any apparent lack of respect or want of consideration exhibited by others in their intercourse with them. And anything that offends an insane person unnecessarily, whether it be the injury, physical or mental, of personal abuse, or the irritations and disturbances of a rude and imperious manner on the part of his attendants, serves to unnecessarily augment his mental disorder and retard or destroy the restorative influences.

It is hardly necessary to say that the attendants are not allowed in any manner to assault the persons of the patients, or to exercise over them any penal or vindictive treatment. They are required to treat them with invariable kindness and respect, using only such restraint as is necessary to prevent self-injury or the injury of each other, and exer-

cising only such compulsion as is required to procure the performance of the necessary daily routine of life. Mechanical restraint is used only under the direction of the medical attendants, except the simplest kind on the hands, to prevent the destruction of clothing. Those barbarous appliances known by the general term of *irons* are not allowed in the institution. There is not a handcuff, or shackle, or chain, or any species of that kind of prison furniture, fit only to be used on criminals, to be found in or belonging to the Insane Asylum of California. Our present attendants are attentive and kind in their treatment of the patients, and observant of the principles and restrictions indicated in the foregoing observations.

We would tender to the editors and proprietors of the following papers our cordial thanks for their valuable literary favors. Their contributions are a source of great enjoyment and benefit to the patients:

San Francisco Daily Evening Bulletin;
 San Francisco Daily American Flag;
 San Francisco Golden Era;
 San Francisco Spirit of the Times;
 San Francisco Monitor;
 San Francisco Abend Post (German);
 Courier de San Francisco;
 Sacramento Daily Bee;
 Stockton Daily Independent;
 Stockton Daily Evening Herald;
 Alpine Chronicle;
 Virginia Daily Union;
 Le Voz de Mejico;
 New York Sunday Atlas;
 New York Sun;
 New York Dispatch;
 New York Irish American;
 New York Leader;
 Brooklyn Daily Eagle;
 The Boston Nation.

We would also respectfully solicit similar favors from others.

In conclusion, I gratefully acknowledge the recent manifestation of your confidence, relying upon your aid in the discharge of the sacred and responsible duties it has imposed. I would invite an ever active vigilance and scrutinous care over the interests of this institution. It is one of vast importance, both in the expenditure it incurs and the good it bestows. It is the first and only public asylum for the insane on this coast. It has opened its doors to a newly inhabited country, far exceeding in area the New England and Middle States combined. It has had its day of small beginnings, and its hours of darkness and of good and of evil report. It is now one of the largest institutions of its kind in our land. It contains the unfortunate representatives of more than forty counties of our own State, and receives on the most liberal terms the afflicted applicants of other States. Its columns of cures are the proud trophies of its success. Its impartial blessings, as the silent rays of a genial sun, have been diffusing themselves unheard throughout the State, lighting up the dark and reason-bereft soul, and warming into joy the forlorn and woe-stricken heart.

G. A. SHURTLEFF,

Resident Physician.

Insane Asylum of California,
 Stockton, October 20, 1865. }

REPORT OF THE DIRECTORS
OF THE
INSANE ASYLUM OF CALIFORNIA,
FOR
THE YEAR 1864.

REPORT.

STOCKTON, October 1st, 1864.

To His Excellency, F. F. Low, Governor of the State of California :

The undersigned, Directors of the Insane Asylum of California, respectfully submit the following report for the year ending October first, eighteen hundred and sixty-four.

By reference to the annual report of the Treasurer, which is hereto annexed, you will find that at the commencement of the year, October first, eighteen hundred and sixty-three, there was no money in the General Fund at that date, but that the sum of eighteen hundred and fifty-two dollars and seventy-two cents (\$1,852 72) was due from this fund to the Improvement Fund. The total receipts from all sources, the details of which will be found in said report, amount to one hundred and forty thousand nine hundred and sixty dollars and seventy cents, (\$140,960 70,) and the disbursements to one hundred and twenty-eight thousand five hundred and thirty dollars and three cents, (\$128,530 03,) leaving a cash balance in the General Fund of twelve thousand four hundred and thirty dollars and sixty-seven cents, (\$12,430 67,) against which bills have been audited to the amount of nineteen thousand two hundred and ninety-seven dollars and fifteen cents, (\$19,297 15,) leaving a deficiency of six thousand eight hundred and sixty-six dollars and forty-eight cents. It is quite probable that when the warrants which have been hypothecated on loans shall have been paid, a sum nearly sufficient to meet this deficiency will revert to the institution. The balance to the credit of the Improvement Fund on the first October, eighteen hundred and sixty-three, was four thousand six hundred and ninety-one dollars and twenty-five cents, (\$4,691 25,) since which time there has been received at different times, from the State Treasury, the sum of fifty-nine thousand two hundred and seventy-six dollars and forty-nine cents, (\$59,276 49,) making a total of sixty-three thousand nine hundred and sixty-seven dollars and seventy-four cents, (\$63,967 74.) The disbursements amount to sixty-four thousand and forty-two dollars and thirty-two cents, (\$64,042 32,) leaving this fund overdrawn seventy-four dollars and fifty-eight cents, (\$74 58.) Bills unpaid amount to eleven

thousand seven hundred and sixty-nine dollars and twenty-eight cents, (\$11,769 28.) which shows the total expenditure to be seventy-five thousand seven hundred and thirty-seven dollars and two cents, (\$75,737 02.)

The following exhibits the condition of the Asylum, as to the patients under care and treatment therein :

Number of patients, October 1st, 1863.....	583	
Number of patients admitted during the year.....	219	
Whole number treated during the year.....		802
Whole number discharged during the year.....	127	
Whole number escaped during the year.....	12	
Whole number died during the year.....	82	
Whole number in Asylum, October 1st, 1864.....	581	
Whole number accounted for.....		802
Number discharged cured during the year.....	101	
Number discharged convalescent during the year.....	19	
Number discharged unimproved during the year.....	6	
Number discharged not insane when received.....	1	
Whole number discharged as above.....		127
Percentage of recoveries to admissions.....		46
Percentage of deaths on average number resident.....		14
Percentage of deaths on whole number treated.....		10

In compliance with the Act of the Legislature, approved April twenty-fifth, eighteen hundred and sixty-three, an additional building is in process of erection, and except the inside work, nearly finished. It is constructed of brick, with galvanized iron roof. The gutters and cornice are also made of the last named material. It contains one hundred and eleven rooms, (exclusive of basement, halls, and attics,) which are divided as follows :

Single rooms.....	55
Associated rooms.....	9
Dining rooms.....	6
Attendants' room.....	6
Matron's room.....	1
Reception room.....	1
Bath rooms.....	7
Water closets.....	7
Corridors.....	7
Sewing room.....	1
Sleeping rooms for domestics, with closets.....	5
Crockery rooms.....	6

The basement will contain the heating apparatus, and will also be used for the distribution of food to the dumb-waiters, and other domestic purposes. It is estimated that the entire structure will cost about seventy thousand dollars, and that about one hundred patients may be accommodated therein.

The undersigned at this time purposely refrain from making any suggestions or recommendations for legislative action, inasmuch as they will again report to your excellency before the meeting of the Legislature, when the subject will be more elaborately treated.

The report of the Superintendent is also herewith submitted.

REPORT
OF THE
RESIDENT PHYSICIAN
FOR
1864.

REPORT.

INSANE ASYLUM, October 1st, 1864.

To the Directors of the Insane Asylum of California :

GENTLEMEN:—At the date of the last annual report, (October twentieth, eighteen hundred and sixty-three,) there were five hundred and eighty-three patients in the Asylum—four hundred and fifty-one males, and one hundred and thirty-two females.

Since that time, two hundred and nineteen have been received—one hundred and fifty-three males, and sixty-six females. Under management during the year, eight hundred and two.

One hundred and twenty-seven were, during the same period, discharged—eighty-six males, and forty-one females; of whom one was not insane. One hundred and one had recovered, nineteen were convalescent, and six unimproved.

Eighty-two died—males, sixty-eight, and females, fourteen. Twelve escaped—all males. Whole number discharged, died, and eloped, two hundred and twenty-one; leaving at this date five hundred and eighty-one—four hundred and forty-one males, and one hundred and forty females. Decrease for the year, two.

The materials and stock on hand are valued as follows :

Provisions, clothing, hats, shoes, hardware, tinware, etc....	\$5,091 77
Lumber, bricks, wood, etc.....	2,695 50
Horses, cattle, hogs, hay, grain, vegetables, etc.....	15,014 65
Total	\$22,801 92

For further "facts and results" respecting the patients, and for full information in relation to the "several departments of labor and expense," with which I have been in any way connected, see tabular statements herewith submitted.

W. P. TILDEN,
Resident Physician.

REPORT
OF THE
ADJUTANT-GENERAL
OF THE
STATE OF CALIFORNIA,
FROM
May 1st, 1864, to November 30th, 1865.

1880-1881

ANNUAL REPORT

OF THE

STATE OF NEW YORK

O. M. CLAYES.....STATE PRINTER.

ANNUAL REPORT.

GENERAL HEADQUARTERS, STATE OF CALIFORNIA,
Adjutant-General's Office, Sacramento, November 30th, 1865. }

To His Excellency,
FRED'K F. Low,
Governor of California

SIR:—In compliance with the law of the State, I have the honor to submit to you herewith the following report of transactions in the Adjutant and Quartermaster-General's Office, and of the Ordnance Department, from the first day of May, eighteen hundred and sixty-four, to the date of this report, to wit:

I.

An account of all moneys received and expended.

II.

An account of all arms, accoutrements, ammunition, ordnance stores, and military property of every description belonging to the State, from what source received, to whom issued, etc., and the amount thereof now on hand.

III.

A Roster of Officers and Enlisted Men of the California Volunteers mustered into the service of the United States since eighteen hundred and sixty-one, as perfect as the same can be made from the returns made to this office.

IV.

The number of companies, strength and condition of the organized Militia of the State.

ADJUTANT-GENERAL'S OFFICE,
Sacramento, June 30th, 1864. }

Respectfully, your obedient servant,
(Signed:) .. GEO. S. EVANS,
Adjutant-General State of California.

Col. R. C. DRUM, U. S. A., Assistant Adjutant-General,
Department of the Pacific, San Francisco, California.

Immediately thereafter, Brigadier-General Wright issued the following order :

HEADQUARTERS DEPARTMENT OF THE PACIFIC, }
San Francisco, June 13th, 1864. }

[General Orders, No. 28.]

Hereafter, Captains or commanding officers of companies of California Volunteers shall, after each and every muster, file in the office of the Adjutant-General of the State of California one copy of the muster roll of their companies, duly certified, from the date of their enlistment—noting desertions, discharges, and dismissals from the service. This is to facilitate the payment of the State bounty of five dollars per month. The State law also provides that a soldier who is mustered out by reason of expiration of term of service, shall receive his pay from the State upon the certificate of the Adjutant-General of the State made upon or from the muster-out rolls; certified copies of which will also be filed with the Adjutant-General and Controller of the State.

By order of Brigadier-General Wright,

E. SPARROW PURDY,
Assistant Adjutant-General.

Since the date of the foregoing order the required returns, relative to troops in the department, have been made with greater regularity and completeness, yet, nevertheless, imperfect.

In the same connection I also addressed General Carleton, commanding the Department of New Mexico, who, in accordance with my request, issued the following order :

HEADQUARTERS DEPARTMENT OF NEW MEXICO, }
Santa Fé, New Mexico, July 9th, 1864. }

[General Orders, No. 21.]

The following letter has been received from General George S. Evans, Adjutant-General of the State of California.

As the rolls which General Evans requires are indispensably necessary to insure to each officer and soldier of the California Volunteers the amount of money due to him from the State of California, commanders of each company of volunteers from that State, now serving within this department, will at once forward those rolls, through these headquarters, to that office.

Commanders of regiments of California Volunteers, serving in New Mexico, will likewise forward rolls of their commissioned and non-commissioned staff. Let all this be promptly done, that there may be no delay for want of these rolls in soldiers getting their just dues :

GENERAL HEADQUARTERS, STATE OF CALIFORNIA. }
Adjutant-General's Office, Sacramento, June 9th, 1864. }

CAPTAIN:—As you are aware, the statute law of this State provides for the payment of the five dollars per month bounty or extra pay due from the State to discharged California Volunteers, to be made upon the certificate of the Adjutant-General of the State of the correctness of the

claim and the amount due under the law. It at the same time provides: "That Captains, or commanding officers of companies of California Volunteers, shall, after each and every muster, file in the office of the Adjutant-General of this State, a complete muster roll (of course, a copy of the roll filed with the United States authorities,) duly certified, of their companies, from the date of their enlistment, noting desertions, discharges and dismissals, from the service."

Without this is done, of course, the Adjutant-General has no corroborative evidence upon which to certify up the claims. And, as but few company officers comply with this provision of the law, although blanks are furnished them from this office, and as the neglect causes much delay, and often absolute injury and injustice to the discharged volunteers, I think myself justified in asking the General commanding the Department of New Mexico, through you, to publish an order, requiring all the company commanders to file the rolls required, regularly, in this office, as well as a copy of their company monthly returns.

The above evidence is required, as you will see, to enable the soldier to obtain his pay, due from the State, when he is mustered out or discharged before the expiration of his term of service.

Again: the law provides that the soldier who is mustered out by reason of the expiration of his term of service, shall receive his pay from the State, upon the certificate of the Adjutant-General of the State, made upon or from the *muster-out* rolls; and, provides, "That to enable all concerned to avail themselves of the benefits of this Act, muster-out rolls of the respective companies of California Volunteers shall be duly filed in the office of the Adjutant-General of this State, and a certified copy thereof filed in the office of the Controller of State."

From this reading of the law, the necessity of these rolls being filed, as required, is apparent. I therefore most respectfully ask that an order may be made by the General commanding the Department of New Mexico to cover this case, also.

Very respectfully,

Your obedient servant,

GEORGE S. EVANS,
Adjutant-General, State of California.

Captain B. C. CUTLER, Assistant Adjutant-General,
Department of New Mexico.

By command of Brigadier-General Carleton.

BEN. C. CUTLER,
Assistant Adjutant-General.

I have been unsuccessful, however, except in a few instances, in obtaining back returns, and in consequence of inability to procure them, this enumeration and report of California Volunteers mustered into the service of the United States, is not nor can it be made as perfect as it should be.

By the neglect and refusal of the chief mustering officer in the Department of New Mexico to send to this office muster-out rolls, this State has lost, so far as official records connect them with it, the Fifth Infantry, and portions of the First Infantry, and First Cavalry; for although I

know personally and unofficially that the troops alluded to were mustered out of service by reason of expiration of term of enlistment, yet there is no recorded proof of the fact on file in this office.

In order to convince your excellency that I have done all in my power to procure these rolls, and in justice to myself and the soldier, I submit the following correspondence between General Carleton and myself:

ADJUTANT-GENERAL'S OFFICE,
Sacramento, December 23, 1864. }

GENERAL:—I have the honor to inclose herewith muster-in rolls of detachments of troops mustered into the service of the United States this day received, (and the first received from your department,) for the reason that they do not show to what State the men are credited; to be of any service to me or the State in certifying up their bounty claims, the muster-in rolls must show that the soldier is credited to this State, and as far as possible to what ward, township, precinct, or election district, or county, they should be credited. [See Act of Congress, March third, eighteen hundred and sixty-three, and the acts amendatory thereof, of February twenty-fourth, eighteen hundred and sixty-four, and July fourth, eighteen hundred and sixty-four, for enrolling and calling out the national forces and for other purposes; and circular number fifty-two from the War Department, Washington, July nineteenth, eighteen hundred and sixty-four.]

As stated above, these are the first muster-in rolls that have been received from your department, and it is hardly necessary for me to call your attention to the fact that without these muster-in rolls are filed here, the State not only loses the credit due her for her citizens enlisted in the service of the United States, but the soldier loses his State bounty for the want of evidence upon which to certify up his claim.

As matters now stand, the mustering officer failing to forward muster-in rolls of those entitled to be credited to the quota of this State, and the commanding officers of companies failing to forward their muster rolls, there are, no doubt, hundreds of soldiers who have enlisted and re-enlisted in the Department of New Mexico who cannot, for the want of evidence upon which to certify up their claims, either procure their State bounty due from this State, under the Act of eighteen hundred and sixty-four, or the five dollars per month, extra pay, due under the Act of eighteen hundred and sixty-three, at the time of their honorable discharge.

In this connection of musters, permit me to call your attention to what seems to me to be not only the necessity of muster-in rolls being regularly filed in the Adjutant-General's office of this State of all men who are its citizens, and mustered into the service of the United States, but of muster-out rolls being filed, not only in justice to the State, but particularly to the soldier.

The continuance of the war has shown the propriety, if not the necessity, of filing in the archives of the State a complete record of the prominent facts in the military history of each volunteer furnished by her for the service of the United States.

In recognition of this fact, the War Department has within a short time directed that muster-in rolls of all officers and enlisted men mustered into the United States service, be filed in the Adjutant-General's office of the State furnishing the troops. For the same reason all transfers or promotions of volunteers are officially reported to the same offices. If, then, it is just that the State should be informed of the mus-

ter into service of the volunteer whom she has furnished under the call of the General Government, it would seem proper that information should also be furnished of the completion of his term of service, and that among the prominent records of the State it should appear whether he has died, deserted, or been honorably discharged from the service.

Without attempting to enlarge upon any right which the State may have entitling her to a record of her citizens in the service of the United States, it is respectfully requested, in justice to the soldier, that he may be able to receive from the State the bounty and extra pay due him; that the mustering officers in your department be directed to send to this office direct a duplicate, or copy duly certified, of the muster-in and muster-out rolls of all volunteers who have been or are credited to this State, and that company commanders be required to send regularly duplicates of their monthly returns and regular muster rolls.

In this department such rolls and returns are furnished regularly, by order of the department commander. By this mail I have the honor to forward blanks for returns.

I am, General, very respectfully,

Your obedient servant,

GEORGE S. EVANS,
Adjutant-General State of California.

Brigadier-General JAMES H. CARLETON,
Commanding Department N. M.

[Copy.]

HEADQUARTERS DEPARTMENT OF NEW MEXICO, }
Sante Fé, New Mexico, January 26, 1865. }

To General GEORGE S. EVANS,
Adjutant-General of the State of California,
Sacramento, California:

GENERAL:—I had the honor to receive your letter and the inclosed rolls, which you forwarded on the twenty-third ultimo. Major Lewis, U. S. A., the Commissary of Musters, to whom your letter was referred, returned it thus indorsed: "The remark, 'Credited to the State of California, district not known,' has been inserted on the rolls. I have forwarded to the Adjutant-General of California a copy of all muster-in rolls made by me. My letter book shows that rolls have been forwarded on twenty-seven different occasions. *I do not consider a muster-out roll as necessary to enable a discharged soldier to get his State bounty.* The muster-in roll shows the date of entry, and the soldier's discharge shows the date of his leaving the service."

I have published the inclosed order on the subject, and hope you will have no trouble hereafter in keeping up with the history of each man. Should any of the company commanders fail to send you the papers you require, please report the fact to these headquarters.

I hope I need not assure you that in this matter, or in any other

where you desire my assistance, you have only to communicate your wishes to have them met.

I am, General, very respectfully and truly,

Your servant and friend,

JAMES H. CARLETON,
Brigadier-General Commanding.

[Extract.]

DEPARTMENT OF N. M., ASSISTANT ADJUTANT-GENERAL'S OFFICE, }
Santa Fé, New Mexico, January 25th, 1865. }

[Special Orders No. 3.]

* * * * *

III. All officers commanding companies of California Volunteers serving within this department, will at once prepare a special descriptive roll of their companies, showing the full name of every officer and soldier, the county in California in which such officer or soldier was first enrolled, and, if he be a veteran re-enlisted in New Mexico, the county in California to which he desires to be accredited, to the end that the Adjutant-General of the State may know these necessary statistics in making up his returns, or in adjusting the quota of troops which California may be called upon to furnish in the prosecution of the present war to restore the union of all the States. These rolls will be sent direct to General George S. Evans, Adjutant-General of the State of California, Sacramento, California, and a letter will be written to these headquarters, certifying that it has been done, giving date when said roll was placed in the mail, as here ordered. Hereafter a copy of the periodical muster roll of each company of California Volunteers serving within this department will be forwarded to General Evans, and notification will be given to these headquarters, as here prescribed in the case of the special descriptive roll. General Evans also requires a copy of each monthly return of each company, and these likewise will be forwarded by the next ensuing mail. These rolls and returns are necessary, not only to render complete the history of the California Volunteers, but in order that those volunteers may have no delays or difficulties in the adjustment of their claims upon the State of California. Great care will be had that these papers are promptly rendered.

* * * * *

By command of Brigadier General Carleton,

ERASTUS W. WOOD,
Aid-de-Camp.

General GEORGE S. EVANS,
Adjutant-General State of California, Sacramento, Cal.

ADJUTANT-GENERAL'S OFFICE,
Sacramento, March 7th, 1865. }

GENERAL:—Your very kind letter of the twenty-sixth of January, with inclosure of special order relative to returns, is received, for which accept my thanks.

I note particularly what the mustering officer says, to wit:

"I do not consider a muster-out date as necessary to enable a discharged soldier to get his State bounty. The muster-in roll shows the date of entry, and the soldier's discharge shows the date of his leaving the service;" and in reply, beg to say that it is very true the muster-in roll shows the date of entry, and the discharge shows the date of leaving the service, but it must be borne in mind: First—That there are no muster-in rolls on file in this office—as you will remember, when the first troops were raised in this State, that there was no regular mustering officer; that the late Colonel Ringold acted as mustering and disbursing officer for the department, and that the business was done very loosely; so much so, that when General Mason took charge here as mustering and disbursing officer, nothing could be found giving any satisfactory evidence of the troops mustered in in this State—nor even the authority upon which some of the regiments were raised; and even if the muster-in rolls were here, the soldier's discharge *is not*: it is the private property of the soldier, in his own possession, and they are scattered all over the United States, so that it involves great delay, and an incalculable increase of labor in my office, to write letters to parties, informing them that there are no muster-out rolls here, and that they must go, not only to the trouble, but to the expense of having a certified copy of their discharge made out and forwarded to me, before their claims can be certified up. Then, again, when this is done, the certificate is made *on* the copy of a discharge, which is filed in the State Controller's office as a voucher, upon which the warrant is to issue; leaving no record evidence—as there undoubtedly should be—in this office of the history of the soldier.

I have had books prepared, with proper headings, and have gone back to eighteen hundred and sixty-one, and am entering up, alphabetically, the name of every man who has ever been in the service of the United States from this State, with as complete a history of him as can be obtained, and without the muster-out rolls, it cannot be made anything like complete.

I am informed by Colonel Bowie, Captain Smith, and other officers returned from your department, that they made out extra copies of muster-out rolls for this office, and I cannot, for the life of me, see why the mustering officer should refuse or neglect to forward them.

Under all the circumstances, I have again to respectfully ask that muster-out rolls of all the troops, officers, and men, who have been or may hereafter be mustered out of the service of the United States in the Department of New Mexico, who have been credited to California, be filed in the office of the Adjutant-General of the State of California.

I am, General, very respectfully,

Your obedient servant,

GEORGE S. EVANS,
Adjutant-General, State of California.

Brigadier-General JAMES H. CARLETON,
Commanding Department of New Mexico.

The want of these muster-out rolls, as stated in the correspondence, has worked great wrong to the soldier, as well as injustice to the State.

An officer of the California Volunteers should regard it as much a part of his duty to make special reports to this department when requested, for the information and benefit of the State whose commission conferred upon him his position, as to obey an order from the War Department; and any officer who has neglected to make such returns as have been required, has neglected his duty to his State, his regiment, his company, and his *men*, and should not be considered in the line of promotion. The State has delegated to him the care, equally with the command, of her brave sons, and has demanded stated accounts of their condition, conduct, promotion, success, and misfortunes, during their term of service; and if any officer culpably neglects this plain duty, or complies with it but partially or unwillingly, he should resign, in order that his place may be filled by one whose disposition and qualifications will enable him to find time to attend to all the requirements of his position.

The "California Hundred," a complete roll of whom you will find herein, following the other California Volunteers, have returned to the State, through me, their "Battle Flag," as well as a flag presented to them in Boston. I have turned these flags over to the Honorable B. B. Redding, Secretary of State. The following is the correspondence had upon the subject:

CAMP OF CAVALRY FORCES,
Fairfax Court House, Va., July 20, 1865. }

To the ADJUTANT-GENERAL,
State of California:

SIR:—The "California Hundred," the first company organized on the Pacific coast for the war in the east and the suppression of the armed rebellion, prior to their departure from San Francisco, California, December eleventh, eighteen hundred and sixty-two, were presented by Daniel Norcross, Esq., of San Francisco, with the "Bear Flag" which this letter accompanies.

This flag has been carried by the company through nearly three years of active service, including twenty-three general engagements, (as denoted upon the pennant,) and under which three of our company commanders and many of our comrades have fallen; and now at the final muster out and discharge of the company, the remaining members, whose names appear on this letter, respectfully present it through you to our adopted State, California.

The accompanying American flag was presented to the "Hundred" upon their arrival in Massachusetts, by Miss Abbie A. Lord, a patriotic young lady of Charlestown, Massachusetts, but has never been carried upon the field of battle, as it was too large for cavalry service. It has never been unfurled by the company except in one instance—to enshroud the remains of our original company commander, Captain J. S. Reed.

It is the wish of the company that the same disposition be made of this as of the "Bear Flag."

HON. B. B. REDDING,
 Secretary of State:

I have the honor to transmit herewith the "Bear Flag," or "guidon," of the California Hundred, to be placed among the archives of the State for preservation; also, the American flag presented to them by Miss Abbie A. Lord, upon their arrival in Boston. These flags were delivered to me in person, and through me to the State, by George W. Towle, Jr., one of the Hundred, with the accompanying letter, signed by all the survivors of that gallant band of patriots, who in eighteen hundred and sixty-one left their homes and their firesides, many of them wives and children, to go forth at the call of their country, and do battle for the cause of liberty and free government, and right nobly did they do it, as evidenced by the pennant attached to the "guidon," showing that they carried it victoriously through twenty-three general engagements, and lastly at Cedar Creek, under that invincible General, Phil. Sheridan.

Hoping that the letter from the survivors of the Hundred, together with their war-worn battle flag, may be received by you and placed in a conspicuous place among the archives of the State, there to be preserved for all time as a record of the loyalty and patriotism of Californians,

I have the honor to be

Respectfully your obedient servant,

GEORGE S. EVANS,
 Adjutant-General California.

OFFICE SECRETARY OF STATE,
 Sacramento, California, November 9th, 1865. }

GEORGE S. EVANS,
 Adjutant-General of California:

DEAR SIR:—The war-worn "Bear Flag" of the "California Hundred," their pennant, emblazoned with the names of twenty-three battles, and the American flag presented to them, accompanied by your letter of eighth instant, have been received.

I am proud of the opportunity which my official position gives me, of having these honored relics placed among the archives of California. They shall be displayed in a conspicuous position in the Assembly room, to be preserved and cherished as mementoes by the people of the State of the glory achieved by California soldiers, of the sacrifices they made to perpetuate liberty, to establish freedom, and preserve us a united people.

Respectfully,

B. B. REDDING,
Secretary of State.

Colonel Anderson, of the Eighth Infantry California Volunteers, also presented his regimental flag to the State, which I have also turned over to the Honorable Secretary of State, with the following correspondence :

HEADQUARTERS, EIGHTH INFANTRY, CAL. VOLS., }
Fort Point, California, October 31st, 1865. }

General GEORGE S. EVANS,

Adjutant-General State of California, Sacramento, Cal. :

GENERAL :—I have the honor to transmit with the bearers, Lieutenants Catlin and Carlson, late Adjutant and Quartermaster of the Eighth Infantry, California Volunteers, the colors of the regiment.

They have never been carried on a field of battle, but I trust that the State will accord to the regiment the credit of having done the duty allotted to them with credit, and that the authorities will not consider the colors as unworthy of preservation.

Regretting that the exigencies of the service prevented the standard from being forwarded with more ceremony,

I am, very respectfully,

Your obedient servant,

A. L. ANDERSON,
Late Col. Eighth Infantry, C. V., Brev. Lt.-Col. U.S.A.

GENERAL HEADQUARTERS, STATE OF CALIFORNIA, }
Adjutant-General's Office, Sacramento, Nov. 3d, 1865. }

A. L. ANDERSON,

Late Colonel Eighth Infantry, California Volunteers :

COLONEL :—I have the honor to acknowledge the receipt of your letter of transmittal of October thirty-first, together with the regimental colors of your regiment, delivered to me in person this day by Lieutenant Catlin, late Adjutant of your regiment.

It is true that they have never been carried on the field of battle, but that has been no fault of the officers and men of the regiment to which they belonged.

We know that the regiment was composed of the right stuff, and that they were ready and willing, at any and all times, not only to carry them on the field of battle, when ordered there, but to do battle manfully for them and the Government that they represented.

I accept the colors, on the part of the State, and will do myself the pleasure to formally transmit them to the Honorable B. B. Redding, Secretary of State, together with your letter of transmittal. They will be placed among the archives of the State, and preserved for all time, as an evidence of the loyalty and patriotism of California's sons.

I have the honor to be, Colonel,

Very respectfully, your obedient servant,

GEO. S. EVANS,
Adjutant-General of California.

GENERAL HEADQUARTERS, STATE OF CALIFORNIA, }
Adjutant-General's Office, Sacramento, Nov. 23d, 1865. }

The HON. B. B. REDDING,
Secretary of State of California, Sacramento, Cal.:

SIR:—Herewith I have the honor to present to the State of California the regimental colors of the Eighth Infantry, California Volunteers, with the letter of A. L. Anderson, late Colonel of that regiment, to me; which letter, with the colors of that regiment, I am sure, will find an honored place among the valued archives of the State, and be preserved and handed down to posterity as an evidence of the loyalty and devotion of that corps of the California Volunteers to our common country.

Very respectfully, your obedient servant,

GEO. S. EVANS,
Adjutant-General of California.

SACRAMENTO, }
November 24th, 1865. }

Brigadier-General GEO. S. EVANS,
Adjutant-General California:

SIR:—The regimental colors of the Eighth Infantry, California Volunteers, with the letter of A. L. Anderson, late Colonel of that regiment, together with your communication of this date, have been received.

These evidences of the loyalty and patriotism of California's soldiers shall be placed among the archives of the State.

While these colors bear no inscription of battles fought and victories won, they suggest that the patriotic feelings that prompted the enlistment of the soldiers who composed this regiment insured peace in our own State, and prevented the necessity of bloodshed on our own soil.

The armed patriotism which overawes treason, and by its presence enforces peace, is equally to be honored with the patriotism that secures victories on the field. It gives me great pleasure to be enabled to cause these colors to be preserved and displayed in the State Capitol.

Respectfully,

B. B. REDDING,
Secretary of State.

Upon the organization of the Tuolumne Rangers, Company E, Second Cavalry, California Volunteers, in eighteen hundred and sixty-one, the ladies of Sonora, where the company was organized, presented them with a flag, and upon the expiration of their term of service the members of the company returned their flag to the donors, who upon its receipt held a meeting and presented the colors to the State through the Honorable B. B. Redding, Secretary.

It will be seen by reference to the statement of the Recruiting Fund, that there is an amount of money still unexpended belonging to said fund in the hands of Lieutenant-Colonel A. E. Hooker of the Sixth Infantry, California Volunteers, Lieutenant-Colonel Whipple of the Mountaineers, and Colonel Brown of the First Cavalry, and as all recruiting for California Volunteers has been stopped by order of the War Department, this money should be paid into the State Treasury for the benefit of the State Military Fund. Major Vallejo of the Native Battalion has made no report or return of the three thousand five hundred and ninety-four dollars and sixteen cents drawn by him from the Recruiting Fund, and should, in my judgment, be required to do so by process of law.

MILITIA.

By the subjoined tables and roster of the militia it appears that at the present time there are mustered into service under the laws of California, one hundred and forty companies of infantry, twenty companies of cavalry, and five companies of artillery, forming the total number of one hundred and sixty-five companies, averaging each fifty men, and aggregating a force of eight thousand two hundred and fifty men. Of these companies there have been organized, armed, and equipped, since May first, eighteen hundred and sixty-four, thirty-two; and during that period seven companies were disbanded by order, for failure to maintain organization according to law, and one other by consolidation. During the same period one regiment and three battalions have been organized.

The Esmeralda Rangers and the Hooker Light Infantry, located in Aurora, Nevada, organized under our law, and included in the Third Brigade, California Militia, have been dropped from the roster and State organization, in consequence of the newly established eastern boundary line between California and Nevada, by which the location of said companies is included within the territory of the State of Nevada. The arms and accoutrements furnished by this State they still possess; and in order that the State may suffer no loss of property, and to save the considerable item of freight and transportation expense, I respectfully suggest that the Governor of Nevada, when receiving from the United States the quota of arms, etc., due that State, will, upon the application of your Excellency, turn over here, while *in transitu*, the like number and quality of arms in the possession of the said companies, belonging to this State.

On assuming office I found the State paying for the use of the present State Armory, fifty dollars per month; and for two other buildings, fifteen and twenty dollars, respectively, per month—in the aggregate, eighty-five dollars per month, and annually, one thousand and twenty dollars. In addition to this the State also paid in San Francisco, twenty

dollars per month for storage of tents. I have been enabled by converting the unoccupied basement of the present State House to use for storage of camp equipage; and erecting suspension racks in the building hired for an armory, to reduce the monthly expense for rent of buildings necessary to this department, fifty-five dollars—an annual saving of six hundred and fifty dollars. But inasmuch as the rent of the present armory is fifty dollars per month, and no other suitable building can be obtained for a less sum, there is a deficit, on this account, for the year, of one hundred dollars. Nevertheless, I have been able to extinguish any claim against the State for back rent by obtaining a reduction of office rent, and applying the same to the armory account.

California is probably the only State, except those of recent organization, which has not a State Arsenal and Armory, the property of the State, and recent events and the contingencies of the future forcibly indicate the policy of at once procuring a suitable location and erecting thereon a commodious armory; or, failing this, to make the necessary appropriation to pay the rent of the needed accommodation to be furnished by private enterprise. By reason of niggardliness in this respect hitherto, the State has sustained much loss of property by conflagration. In the term of my predecessor, a battery of seven field pieces was burned, and one howitzer wholly ruined by such cause, and the six pieces of artillery were rendered again serviceable only by the outlay of a large sum for remounting. Again, in the night of October — last, a fire occurred on Third street, between J and K streets, adjoining the rear of the armory building, and burned so fiercely as to heat the iron doors of that building and communicate with the wood work inside, and destroy one hundred tents stored therein, besides damaging, to an extent not ascertained, other State property. Every effort was made by those intrusted with the care of this property, and the Fire Department of Sacramento, to prevent its destruction; fire hose were led into the building and employed in reducing the heating of the iron doors to prevent ignition inside, but unfortunately, at a critical moment the hose burst, and before the line could be renewed, the damage above mentioned occurred.

I respectfully recommend the appointment of a Board of Survey, to make an inventory of the articles burned and of those injured, who shall report to the Commander-in-Chief the condition of the latter, and the most economical method of disposing of them, whether by condemnation and sale, or by repairing.

I take pleasure in stating that none of the arms and accoutrements are appreciably damaged. Some muskets were wet, but at small expense they were taken from the boxes, dried, oiled, and repacked, rendering their serviceable condition better than before the damage was sustained.

I am also gratified to add that all the companies of the California militia are well armed and equipped, and, with few exceptions, well uniformed; and, as a rule, equally well drilled and disciplined; so that, should necessity supervene and they be summoned to defend the State against foreign foes or domestic insurgents, they can be relied upon to respond to the call promptly, and discharge their whole duty honorably to themselves and satisfactorily to the glorious State they serve.

MILITIA LAW.

From careful observation and practical knowledge of the operation of the present militia law of this State, I desire to state emphatically that it requires many radical changes and amendments. I submit to your Excellency the following, as embracing, in my view, those which should receive immediate attention :

First—The tax for the support of the militia system of California should be levied on the property of its inhabitants, and not, as at present, *per capita*.

Second—A change is necessary in regard to the organization of new companies. Authority to that end should be vested in the Commander-in-Chief, the Adjutant-General, and Brigadier-General of the brigade to which the proposed organization will be attached. It should be required that the roll of applicants for membership be first sent to the Brigadier-General under whose jurisdiction they will be, for his consideration and indorsement of approval or otherwise, and then sent to the Adjutant-General, by whom it shall be submitted, with his views thereon, to the Commander-in-Chief. And if a majority of said officials approve said application, the Commander-in-Chief may issue his order for the election of company officers and organization of the company. The person presiding at the election should be appointed direct by the Commander-in-Chief, rather than by the County Judge, as at present provided.

Third—The minimum number required to organize a company should be fifty, rank and file, and the maximum, one hundred.

Fourth—All companies should be required to have four regular musters at stated times during every year, and as soon thereafter as may be the commanding officer shall file a copy of the muster roll of his company in the office of the Adjutant-General, certified on honor to be a correct numerical roll of the active members of his company, and a true statement of its actual condition on the date rendered.

Fifth—In cases where it appears from such rolls that the company consists of less than fifty active members, it should be disbanded, and the arms and accoutrements issued turned in to the State.

Sixth—The creation of the office of Assistant Adjutant-General is rendered positively necessary by the increasing labor in this department. As at present regulated, no commission can be issued unless signed by the Adjutant-General personally, and other matters of business require similar attention, so that in case of sudden illness or unavoidable absence of that officer, the prompt routine of the office is interrupted. Provision by law is made for deputation in every county office, and, I believe, in every State office below Governor, excepting Adjutant-General's. The proper administration of the affairs committed to that officer's care in other States, has led to the adoption therein of the recommendation herein submitted. The Assistant Adjutant-General should rank as Colonel, and receive a salary not less than twenty-four hundred dollars per annum.

Seventh—Every company now organized should be required, after thirty days notice from the Adjutant-General, to file in his office a certified copy of the muster roll of its members, and should the number of active members be less than the minimum required by law, the company should be ordered disbanded.

Eighth—The Adjutant-General should be authorized to select and appoint some practical gunsmith and worker in iron as State Armorer. For a competent person the salary should be eighteen hundred dollars per annum.

Ninth—Officers should be elected for a term of not less than two years, and not permitted to resign unless for good cause, shown in writing, of which the Commander-in-Chief should be the sole judge.

Tenth—The office of the Junior Second Lieutenant should be done away with, except, perhaps, for an artillery company, where the company has a full battery; and no regimental organization should contain more or less than eight companies.

Eleventh—I have received from Brigadier-General William H. Morris, United States Volunteers, late of United States Second Infantry, copies of his simplified infantry tactics, and am of the opinion that they are superior in very many respects to any that I have yet seen, and particularly so for the use of troops on this frontier, where the fighting is against Indians in rough mountains or in deep cañons, or in heavy timber and thick underbrush. I therefore respectfully recommend their adoption by the State for the use of her militia.

ADJUTANT-GENERAL'S OFFICE.

The extraordinary increase of clerical labor in this department within the last eighteen months has been so great that I have found it impossible to perform all the duties required of me with the limited number (but two) of clerks allowed by law. Consequently, I have been obliged to employ additional assistance, and with that, even, it has been possible only by working nearly the night through, as well as day, that the necessary labor has been accomplished.

Mr. T. W. Hubbard is the person I have employed as clerk from the first day of November, eighteen hundred and sixty four, at a salary of one hundred and fifty dollars per month. He is still necessarily in the office. An appropriation is required to pay him for past service, which I trust your Excellency will recommend.

In proof of the increase of labor in this office since I assumed its duties, I may mention that the Act of eighteen hundred and sixty-three, providing for the payment of five dollars per month extra pay to the State Volunteers, also restricted its payment to those who were honorably discharged and procured a certificate from the Adjutant-General of the amount due, etc.

The term of service of the person benefited by that act expired *after* I entered into office; so that all the labor consequent thereupon devolved on me. Again: when the term of service of the first regiments expired, in answer to the call of the Secretary of War, your Excellency issued a proclamation authorizing the formation of two new regiments, the Seventh and Eighth Infantry, besides filling up the Second and Fourth Infantry by consolidation; there were also raised two companies for the First Cavalry, and the Second Cavalry raised to the minimum; all these were enlisted under the Act of eighteen hundred and sixty-four, granting bounties to all enlisted after April fourth of that year, which also required the Adjutant-General to prepare proper blanks, certificates, powers of attorney, and give all necessary instructions, and certify to claims against the Bounty Fund. This was all new work,

requiring an entirely new set of books, and involved constant correspondence with the mustering and line officers and men.

There have been audited and certified to, in this office, since May first, eighteen hundred and sixty-four, five thousand claims against the Soldiers' Relief Fund, and fifteen thousand against the Bounty Fund. When it is considered that each of these claims must first be compared with the muster rolls and verified, and afterwards the name of the claimant, the letter of his company, the number of his regiment, when, where, and by whom he was enlisted, and the amount of the claim allowed, require to be entered in the books three several times, it can be easily perceived that the labors of two clerks are necessary in this branch of the duties of the office. During the period mentioned, there have been entered on the roster, and issued, four hundred and twenty commissions, on parchment, to officers of the California Volunteers, and eight hundred and sixty-six similar commissions to officers in the State militia. Epistolary labor has been also very onerous. Eleven hundred and fifty-nine letters, of sufficient importance as to require copies to be preserved, have been written, in addition to many hundreds of others of inferior interest, not necessary to copy, and still others returned answered by indorsement.

The additional labor I have above described was imposed by the Legislature on this department, without providing a corresponding increase of clerical force to perform it.

The routine of business in every respect, particularly in connection with the State militia, which is equal to a quarter greater than when I took charge of it, has so multiplied as to render the employment of additional clerks a matter of necessity.

In view of the foregoing facts, and others not necessary to mention herein, I respectfully suggest that your Excellency will recommend an appropriation for the services of four clerks hereafter; because, if an appropriation for such purpose be made, it will not necessarily follow that the entire amount shall be expended. It will, of course, be in the discretion of the Adjutant-General to increase or dispense with the clerical force he may employ, as the exigency of the occasion may require. He should, however, always have sufficient to insure prompt and satisfactory dispatch of business in his department with the discharged volunteer.

All of which is respectfully submitted.

GEO. S. EVANS,
Adjutant-General of the State of California.

APPROPRIATIONS AND EXPENDITURES
OF
ADJUTANT-GENERAL'S OFFICE,
FIFTEENTH, SIXTEENTH, AND SEVENTEENTH FISCAL YEARS,
FROM
May 1st, 1864, to November 30th, 1865, inclusive.

FIFTEENTH FISCAL YEAR.

SALARY OF ADJUTANT-GENERAL.

May 1, 1864—Balance in fund		\$500 00
Drawn for month of May.....	\$250 00

The foregoing data is taken principally from old returns on file, muster-out rolls, and rolls showing the history from the organization of the regiment, in 1861, to the date of the organization of the First Veteran Infantry, in 1864, not having been furnished to this office. In the return of casualties for the year 1863, the Colonel remarks as follows:

HEADQUARTERS OF THE FIRST INFANTRY REGIMENT OF CALIFORNIA VOLUNTEERS. }
FORT CRAIG, N. M., February 26, 1864.

During the year regimental headquarters have been at Fort Craig.

Company A marched from Franklin, Texas, April 18th, for Fort Union, N. M., at which place it arrived August 30th, having marched 375 miles. August 19th, Lieutenant Wood, with thirty-five rank and file, left Santa Fe for Valles Grande, returning to Santa Fe in October; 80 miles marched. September 29th seven rank and file left Fort Union for Denver City, as escort to Captain William H. Russell, U. S. A., and returned October 29th; distance marched, 680 miles. October 8th ten rank and file left Fort Union as escort to Major Wallen, A. I. General to Forts Sumner and Stanton, returning November 5th; distance marched, 750 miles.

Company B.—Private John N. Dewey died of wounds received in action while attempting to arrest a Mexican desperado at Mesilla, Arizona, August 29, 1862. Privates Higgins and Leibold wounded in action, forcing their way through Cook's Cañon, by the Apaches, whilst in charge of Government train, July 10th. Company left Mesilla, March 6th, for San Diego Crossing; arrived 10th; marched thence for Pinos Altos on 15th, arriving on 21st; marched 140 miles. Left Pinos Altos for Fort West April 27, arriving May 1st; marched 66 miles. Left Fort West September 24th, for Fort Cummings; arrived October 3d; distance 73 miles. Whole distance marched, 281 miles. June 27th, Lieutenant Phelan and twenty-two enlisted men left on a scout with Major McCleave, Cal. Cav., returning on September 15th.

Company C was stationed at Mesilla till March 27th, when it marched for Franklin, Texas, arriving on 29th; 50 miles. Marched from Franklin June 27th for Fort Wingate, arriving July 24th; 380 miles. August 22d started on an expedition against Navajo Indians; encountered a party of them on 29th at Colorado Chiquito, attacked and routed them, captured five hundred sheep, without injury to either party; marched 180 miles. November 7th marched from Fort Wingate for Fort Whipple, arriving December 7th; distance 340 miles. December 20th, left Fort Whipple for Bear Springs; arrived same day. Distance marched during the year, 1,000 miles.

Company D marched from Mesilla for Fort McLean January 6th; arrived on 22d; distance 140 miles. Left there February 16th, and arrived at Fort West on 24th; 66 miles. February 9th, Captain Mitchell and forty enlisted men left Fort McLean on a scout after Indians towards the headwaters of the Rio Mimbres, returning on 14th; marched 100 miles. March 4th, Captain Mitchell and forty rank and file left Fort West and proceeded sixty-six miles down the Gila, thence fifteen miles to Rio Prieto, striking the latter stream about eight miles above its junction with the Gila, thence up the Prieto fifty-nine miles, and thence fifty-six miles to Fort West, which they reached on 22d, distance 196 miles. Private Jacob Bay, while hunting near Fort West, November 8th, was surrounded and killed by Indians. Captain Mitchell deserted, was apprehended, tried, and cashiered, October 26th.

Company E left Franklin, January 3d, arrived at Mesilla 5th; left there 7th, arrived at Fort Craig 13th; 170 miles. March 4th, left Fort Craig for Fort McRae; arrived 6th. Left on 9th, arrived at Fort Craig 11th; distance 100 miles. April 9th, left Fort Craig to explore wagon road to Fort West; returned May 21st; marched 225 miles. Left Fort Craig September 23d for Socorro; arrived 26th. Left that place for Fort Craig October 14th; arrived 16th; marched 90 miles. December 22d, left for La Joya; arrived December 27th. Whole distance marched during the year, 660 miles.

Company F stationed at Fort Craig until August 14th, from which time till September 12th, was scouting after Indians in Socorro County; then stationed at Fort Craig until October 16th, when it marched for Los Pinos; arrived 21st; marched thence to Fort Wingate, arriving November 3d; marched thence to Fort Whipple, arriving December 21st. Marched during the year, 600 miles.

Company G left Mesilla for Franklin, April 20th; arrived 22d; 50 miles. Left Franklin June 26th for Fort McRae; arrived July 3d; distance 140 miles. Private Robert S. Johnson was killed by Indians July 19th, 1863, while driving an ambulance from Fort McRae to Fort Craig. August 9th, Captain Green and twenty men mounted left McRae in pursuit of Indians; overtook and attacked them at Alamcito Mountains, captured one thousand seven hundred sheep; arrived at Fort McRae on 20th; no casualties; marched 400 miles. August 26th, Captain Green, one subaltern, and twenty-two men, mounted, left in pursuit of Indians on the Jornada; arrived at Point of Rocks, camped till daylight, ordered back eight men, then followed the Indians' trail, overtook and attacked them at Rio de los Amigos, on Rio Grande, at 12 m., 27th; killed one and wounded three; private George S. Dickey killed; distance 95 miles. November 5th, Captain Green with eighteen men left McRae in pursuit of Indians; Captain and thirteen men returned on 8th; Sergeant Rhodes, Corporal Argus, and three men, pursued the

REGISTER OF CALIFORNIA VOLUNTEERS—First Regiment of Infantry—Continued.

Indians two hundred and twenty-five miles, and succeeded in retaking one hundred and fifty sheep, killing one and wounding four Indians; private William C. Atkinson wounded; total march, 436 miles. December 5th, Captain Green and nine men left McRae in pursuit of Indians running off stock, on afternoon of 6th overtook a flock of sheep numbering two hundred that the Indians had abandoned; secured the sheep and returned on 7th; travelled 75 miles.

Company H marched from Franklin to Fort Wingate June 30th, arriving July 24th; 344 miles. Left Wingate August 4th on scout after Navajo Indians; returned 17th; 236 miles. September 15th, went on a scout after Navajos till October 6th; returned to Wingate; 380 miles. November 20th, marched thence to Fort Craig; arrived December 16th; 170 miles. Left Fort Craig December 29th; arrived at San Pedro December 31st; distance 25 miles. Whole distance marched during the year, 1,169 miles.

Company I left Fort Craig January 22d, against Gila Apaches; arrived at Tule Rosa Valley January 31; 132 miles. Returned to Craig January 21; marched 160 miles. Marched from Fort Craig July 9th; arrived at Fort Union July 26th; 265 miles. December 1st, left Fort Union for Fort Sumner; arrived on 10th; 246 miles. Whole distance marched, 703 miles.

Company K left San Elizario January 8th; arrived at Mesilla 10th; 75 miles. Left Mesilla February 5th; arrived at Fort Craig February 11th; 120 miles. Left Fort Craig July 23d, on an Indian expedition, and returned to Fort Craig August 23d; marched 301 miles. Total marched during the year, 496 miles.

The discipline, drill, and physique, of the rank and file of this regiment is good, and will compare as well as any other regiment in the service.
EDWIN A. RIGG, Colonel First Infantry, C. V.,
Commanding the Regiment.

FORT SUMNER, N. M., August 14th, 1865.

Captain Edwin A. Rigg, Company A of the First Infantry Regiment of California Volunteers, commanded by Colonel James H. Carleton, called into the service of the United States by the President, under Act of Congress, approved July 22, 1861, at San Francisco, California, (the place of rendezvous,) on the 15th day of August, 1861, to serve for the term of three years from the date of enrolment, unless sooner discharged. The company was organized by Captain E. A. Rigg, at San Francisco, Cal., in the month of August, 1861, and was marched to the Presidio of San Francisco, Cal., where it was mustered into the service of the United States August 21, 1861. Left here for Camp Downey, near Oakland, August 25, 1861, and arrived August 28, 1861, where it remained drilling and doing camp duty until September 16, 1861, when it left for San Francisco, Cal., which it reached the same day, and embarked on board the U. S. S. Shubrick, which sailed same day for San Pedro, Cal., and arrived at the latter place September 19, 1861—from whence it marched for Camp Latham, near Los Angeles, Cal., where it remained here drilling and doing camp duty until February 8, 1862, when it marched, *via* Los Angeles, Cal., to Camp Wright, Oak Grove, San Diego County, Cal., under the command of Captain E. B. Willis, where it arrived February 17, 1862; distance marched April 8, 1862; distance marched from Camp Wright, 173 miles, and from San Pedro, Cal., 314 miles. It remained at Fort Yuma, Cal., where it arrived April 8, 1862; distance marched from Camp Wright, 173 miles, and from San Pedro, Cal., 314 miles. It remained at Fort Yuma, Cal., drilling and doing garrison duty until May 9, 1862, when it left *en route* for Tucson, Arizona, *via* Pinos Villages—being a part of the command under Major Coult, Fifth Infantry Cal. Vols.—it arrived at Tucson, A. T., June 6, 1862; distance marched from Fort Yuma, Cal., 286 miles, and from San Pedro, Cal., 600 miles. A detachment of the company, under the command of Captain E. B. Willis, marched from here June 7, 1862, for the Patagonia, or Mowry's Silver Mines, A. T., where it arrived June 13, 1862, and remained until June 30, 1862, and returned to Tucson July 2, 1862. On the 15th of July a detachment of men, four of whom were members of the company under the command of Lieut. Thompson, First Infantry Cal. Vols., were attacked in Apache Pass, A. T., by the Apache Indians, and the Indians were driven off.

The company left Tucson, A. T., July 21, 1862, in the "Column from California," *en route* for the Rio Grande, and arrived at Fort Fillmore, N. M., on the 14th day of August, 1862; distance marched from Tucson, A. T., 300 miles. Left Fort Fillmore, N. M., August 20, 1862, and arrived at Hart's Mills, Texas, August 21, 1862; distance marched, 40 miles. Total distance marched from San Pedro, Cal., 910 miles, and distant from San Francisco, Cal., 1,431 miles. The company was stationed at Hart's Mills, and at Franklin, Texas, (about 1½ miles below the mills,) until April 18, 1863, when it marched, under the command of Captain Robert M. Crandall, for Los Cruces, N. M., where it arrived April 19, 1863; distance marched, 47 miles. It marched from here July 3, 1863, to join a command at Old Fort Thorn, N. M., against the Apache Indians, where it arrived July 9, 1863; distance marched, 45 miles. The order for it to form a part of this command having been countermanded, it marched from here July 22, 1863, *en route* for Fort Union, N. M., and arrived at Santa Fé, N. M., August 14, 1863; where Lieut. Wood, and a detachment of four non-commissioned officers and thirty-two privates, marched, August 16, 1863, to a locality about 40 miles from Santa Fé, known as *Los Valles* "to operate against any Navajo or Apache Indians who may attempt to pass in that vicinity." They returned to Fort Marcy, (Santa Fé,) N. M., October 1863, where they remained on detached service until March 12, 1864, when the company, under the command of Captain R. M. Crandall, arrived at that post. The company marched from Santa Fé, N. M., August 18, 1863, for Fort Union, N. M., where it arrived August 30, 1863; distance marched from Old Fort Thorn to Fort Union, N. M., 389 miles. It was stationed at Fort Union until March 7, 1864, when it marched to Fort Marcy, N. M., where it arrived March 12, 1864. Left Santa Fé June 25, 1864, and returned to Fort Union—arriving June 30, 1864—where it was stationed until October 29, 1864; during which time it was carefully and thoroughly drilled as a company of Mounted Artillery, so far as could be done in a battery without horses. On the 31st of August, 1864, Capt. R. M. Crandall, and men who had not re-enlisted as Veteran Volunteers, were mustered out by reason of expiration of term of service, and sixteen men of Company E, First Infantry C. V., who had re-enlisted, were assigned to the company upon the muster-out of their own companies.

The company marched from Fort Union October 29, 1864, as a portion of the command against the Comanche and Kiowa Indians. The expedition under the command of Col. Christopher Carson, First Cavalry N. M. Vols., arrived at a point known as "Mule Creek," Texas, 24 miles northwest of Bent's Old Fort, on the Canadian River, Nov. 24, 1864, Texas, where the company was detailed as a guard for the supply train, the Indians having been discovered, and the remainder of the command moving forward to attack them. The company marched from here the next morning, and rejoined the command that evening near Bent's old trading post; distance marched from Fort Union, N. M., 318 miles. It left here November 27, 1864, and arrived at Fort Bascom, N. M., December 10th; remained at Fort Bascom until January 3, 1865, at which time the object of the expedition having been accomplished, it was disbanded, and the company returned to Fort

REGISTER OF CALIFORNIA VOLUNTEERS—First Regiment of Infantry—Continued.

Union, N. M., where it arrived January 10, 1865. It was stationed at Fort Union until April 18, 1865, when it marched for Fort Sumner, N. M., where it arrived April 23, 1865, and where it is now stationed. Distance marched from Fort Union here, 131 miles, and total distance marched since leaving San Pedro, Cal., 2,408 miles.

The company is composed of re-enlisted volunteers from the First California Infantry, who have now served about four years; and its instruction in infantry tactics, in the "School of the Soldier," "School of the Company," and "Instructions for Skirmishers," is excellent, and in the "School of the Battalion," "Bayonet Exercises," and "Mounted Artillery," good—and the discipline and military appearance excellent.

I certify, on honor, that this return is made out in the manner required by the Circular Letter of the Adjutant-General of the State of California, dated June 28, 1865; that it is a correct transcript from the records of Company A of the First Infantry C. V., and First Veteran Infantry C. V.; that the remarks set opposite the name of each officer and soldier are true to the best of my knowledge and belief, and that it exhibits the true state of the company from the date of its first organization to the present time.

ROBT. EDMISTON, First Lieutenant, First Veteran Infantry C. V., commanding company.

NOTE.—All the men who enlisted in 1861 are supposed to have been discharged on expiration of term.

This company was originally organized in Amador County, California, in the month of August, 1861. The records and rolls sent are imperfect and irregular. The entire original company is supposed to have been mustered out on the expiration of its term in New Mexico, and a new company formed from men discharged from the First and transferred from the Fifth Infantry. This record is taken from old returns made to this office, the company commander having failed to make a full return of the old and new organizations to this department.

Originally organized at San José, Cal., in June, 1861. Re-organized as Veterans at Las Cruces, N. M., November 29, 1864.

No.	Name and Grade.	Enlisted.	Where.	Remarks.

R E M A R K S.

CAMP WRIGHT, 1861.

Company D, under orders, left Camp Downey for Los Angeles, where they went into an encampment, at Camp Latham, under Colonel James H. Carleton, and were ordered to this station on the 10th of October, where we arrived on the 19th—a distance of 145 miles—where we are under the command of Major E. A. Rigg, First Infantry California Volunteers.

By orders from headquarters, the company took up their line of march for Camp Wright, Oak Grove Station, some 15 miles distant from last encampment, (Warner's Ranch,) where it arrived at 2 p. m., November 26, 1861. A detachment of twenty men from Company D, under the command of Lieut. D. C. Vestal, aided in the capture of Showalter and his party.

In compliance with S. O. No. 1, Headquarters District of Southern California, Fort Yuma, May 18, 1862, left Fort Yuma, May 19th, with a train for Fort Barrett; arrived at Fort Barrett June 3d; left Fort Barrett June 12th, with a train, *en route* for Tucson, in compliance with S. O. No. 13, Headquarters Fort Barrett, A. T., June 12, 1862; arrived at Tucson June 15, 1862—a distance of 287 miles from Fort Yuma.

Pursuant to S. O. No. 8, Headquarters District of Arizona, February 25, 1864, the company (then at Fort Yuma) left Tucson, in compliance with S. O. No. 4, Headquarters—Expedition against Apaches—Las Cruces, May 19, 1864, the company left Las Cruces March 1st, and arrived at Fort McRae, N. M., March 3, 1864; distance travelled, 80 miles.

Pursuant to S. O., Headquarters, Fort McRae, N. M., May 11, 1864, the company left Fort McRae, N. M., *en route* to Las Cruces, where it arrived May 14, 1864; distance marched, 80 miles. In compliance with S. O. No. 4, Headquarters—Expedition against Apaches—Las Cruces, May 19, 1864, the company left Las

REGISTER OF CALIFORNIA VOLUNTEERS—*First Regiment of Infantry*—Continued.

Cruces, N. M., May 22d, *en route* to Fort Goodwin, and arrived at Rio Mimbres 29th of May; distance marched, 80 miles. The company left Rio Mimbres June 1st, and arrived at Fort Goodwin June 23d; distance marched, 190 miles. Total distance marched since last muster, 250 miles.

Left Mesilla, A. T., Nov. 28, 1862, arrived at San Elizario, Texas, December —; travelled a distance of 74 miles since last muster. In compliance with S. O. No. 1, Headquarters, District of Arizona, January 3, 1863, the company left San Elizario, Texas, January 8th, and arrived at Mesilla, A. T., January 10th, having marched a distance of 75 miles. The company left Mesilla January 12th, pursuant to S. O. No. 4, Headquarters, District of Arizona, and arrived at Fort McLean, A. T., January 20th, having marched a distance of 90 miles.

Captain Mitchell, and forty rank and file, left Fort McLean on the 9th of February, on a scout for Indians towards the headwaters of the Rio Mimbres, and returned on the 13th, having marched a distance of 100 miles. The company left Fort McLean February 16th, pursuant to S. O. No. 15, dated Headquarters, Detachment California Volunteers, Fort McLean, February 15th, *en route* for Fort West, where it arrived February 24th, having marched a distance of 45 miles. Total distance marched since last muster, 310 miles.

The foregoing notes are taken from old rolls filed in this Department. No roll of the original organization, showing the changes and alterations incident to the company, from the organization until its muster-out, has been furnished. No muster-out rolls have been filed in the office, and the records of the company, as they appear are imperfect. All the men who appear as having enlisted in 1861, are supposed to have been mustered out on expiration of their term; when it is officially known, it is so stated opposite the name.

Relative to the new organization, the Company Commander furnishes the following notes: The company was organized as veterans at Las Cruces, N. M., on the 29th of November, 1864, by S. O. No. 45, from Headquarters, Department of New Mexico, of November 28, 1864. Left Las Cruces, N. M., February 9, 1865, and marched 85 miles to Fort McKee, pursuant to S. O. No. 2, Headquarters, Department of New Mexico, of January 19, 1865, arriving February 13, 1865. Since being stationed at Fort McKee, the company has had a detachment at La Cañada, Socorro County, N. M., an outpost distant 30 miles N. W. by W. from the post, and a picket stationed on the Jornada del Muerto, N. M., besides having scouted the country in almost every direction within a radius of a hundred miles of the post.

COMPANY E.

Organized at Sacramento, Cal., May, 1861. Re-organized as Veterans at Las Cruces, N. M., December 13, 1864.

NOTE.—This Company having failed to furnish me with the necessary history from its organization, the foregoing data is taken from old rolls. The failure on the part of the company commanders to supply this office with a full history of their companies is a serious drawback to a perfect report; however, the main

REGISTER OF CALIFORNIA VOLUNTEERS—First Regiment of Infantry—Continued.

feature in this return is the report of the men enlisted, and what became of them. So far as is known, the fact is stated opposite each name. Of the Veteran organization, since December 13, 1864, the company commander says:

Company E, First Veteran Infantry, California Volunteers, was organized at Franklin, Texas, on December 13, 1864, pursuant to Special Orders No. 45, Headquarters Department of New Mexico, November 27, 1864. The company remained quartered in Franklin, Texas, until March 26, 1865, when it marched for Fort Craig, N. M., where it arrived on April 2, 1865; distance marched, 148 miles. The company has remained in quarters to date.

COMPANY F.

Organized in August, 1861.

NOTE.—Company A, 2d Infantry, was organized and mustered into the service of the United States on the 11th day of October, 1861, at the City of San Francisco, California, and left there on the 17th of the same month for Fort Dalles, Oregon. Left Fort Dalles, March 30, 1862, for Fort Vancouver, W. T., and remained there until May 4, 1862, when it proceeded to Humboldt County, California, and for about thirteen months performed heavy scouting service against Indians. Left Fort Baker June 10, 1863; arrived at Fort Humboldt June 12, 1863; left Benicia Barracks August 12, 1863, en route for Fort Miller, arrived at Stockton same day; left Stockton on the fifteenth, and arrived at Fort Miller August 22, 1863; left Fort Miller October 1, 1864, and finally arrived at the Presidio of San Francisco October 8, 1864. (Ordered to Arizona, G. O. No. 7, Department California, August 15, 1865.) Left Presidio Barracks, August 26, 1865, on steamer Pacific; arrived at Drum Barracks August 28, 1865, en route for Arizona Territory.

COMPANY B.

Stationed at San Pedro River, Arizona Territory.

REMARKS.

Company B was received into the service of the United States on the 5th day of September, 1861; marched to Camp Lyon, from thence to Camp Sumner, and from there, on the 17th day of October, 1861, to Camp Cady, Washington Territory, where it arrived October 21, 1861. Left Camp Cady October 26, 1861, and arrived at Fort Hoskins, Oregon, October 30, 1861. Left Fort Hoskins July 14, 1862, and arrived at Fort Vancouver, W. T., July 16, 1862. Left Fort Vancouver July 26, 1862, and arrived at Alcatrazes Island August 3, 1862, and arrived at Fort Humboldt August 7, 1862. Left Fort Humboldt August 9, 1862, and arrived at Camp Curtis the same day. Company was engaged in a scout after hostile Indians through the Counties of Klamath and Humboldt from the 15th to the 22d of August, 1862, inclusive. A detachment of the company, under Lieutenant Campbell, was engaged from the 22d to 25th August, 1862, inclusive. Detachment under Lieutenant Watson joined from Fort Umpqua, O., on the 24th of August, 1862. On the 17th of September, 1862, Company left Camp Curtis, and arrived at Fort Humboldt, June 12, 1863, and arrived at Benicia, Cal., June 15, 1863. Company left Benicia Barracks August 12, 1863, en route for Fort Miller, Fresno County, Cal., and arrived at that post August 22, 1863. Left Fort Miller en route for Fort Tejon, Cal., December 28, 1863, and arrived at Visalia, Cal., December 30, 1863; distance marched, sixty miles. Left Visalia January 8, 1864, and arrived at Fort Tejon January 14, 1864; distance marched, one hundred and forty miles. Left Fort Tejon September 11, 1864; arrived at Drum Barracks, Cal., September 16, 1864; distance marched, one hundred and thirty-four miles. Remained at Drum Barracks until October 6, 1864, when company embarked on board steamer Senator, and arrived at the Presidio, S. F., October 8, 1864. In obedience to instructions from headquarters, company left Presidio, S. F., in the afternoon of April 17, 1865, for Harrison street depot, San Francisco, where they remained until May 25, 1865; from there to the Presidio. Ordered to Arizona—G. O. No. 7, Department of California—August 15, 1865. Left Presidio Barracks, Cal., August 19, 1865, on steamer Senator; arrived at Wilmington August 21, 1865, en route to Arizona.

REGISTER OF CALIFORNIA VOLUNTEERS—Second Regiment of Infantry—Continued.

REMARKS.

Company D commenced enlisting at Petaluma, California, Sept. 2, 1861; mustered into the service of the United States Sept. 14, 1861. Company left San Francisco for Fort Colville, W. T., October 17, 1861; arrived there November 17, 1861. Left Fort Colville July 12, 1862, for Fort Humboldt, Cal., (via Forts Dalles, Vancouver, and Alcatrazes Island,) where it arrived on July 31, 1862. Embarked for Fort Bragg, Cal., August 5, 1862; arrived August 7, 1862. May 3, 1863, Captain Hull, with twenty men, proceeded on a scout to Bel River and attacked a party of hostile Indians in that neighborhood, numbering thirty-five or forty, killing four, wounding three, and bringing away their women and one boy, captives, to the Indian Reservation. Returned to Fort Bragg May 21, 1863. August 3, 1863, Captain Hull, with nineteen men, proceeded to the neighborhood of Shelter Cove and Mattole River, on a scout, and returned August 23, 1863, not having seen any hostile Indians. September 13, 1863, Captain Hull, with nineteen men, left Fort Bragg on a scout for Mad River; returned October 2, 1863. January 20, 1864, Captain Hull, with twenty-four men, left on a scout for Indians in Bel River country. March 1, 1864, headquarters of company were removed to the field, leaving sufficient force to protect public property at Fort Bragg. From April 1, 1864, to May 20, 1864, company was actively engaged scouting for hostile Indians, with the following result, viz: Killed in engagements, thirty-three; Indians taken prisoners, one hundred and eighty-one (men, women, and children); surrendered themselves, one hundred and two (men, women, and children). On the first part of the scout, one hundred and twenty-five were sent to Camp Grant, to be forwarded from there to the Humboldt Reservation, in order not to embarrass the movements of the company. May 27, 1864, Captain Hull, with eighteen men, proceeded to Fort Humboldt with the remaining one hundred and fifty-eight prisoners, where he arrived May 27, 1864, and turned the prisoners over to the commanding officer of that post. Left Fort Humboldt May 30, and arrived at Fort Bragg July 20, 1864. The country through which the scouts were made being very rough and mountainous, the distance travelled cannot be accurately determined. Notwithstanding the hostile character of these savages, not one man of the company was seriously wounded during an active and continuous scout of over five months. September 30, 1864, company left Fort Bragg for the Presidio, San Francisco, Cal., awaiting transportation at Mendocino until October 17, 1864, when company embarked, and arrived at Presidio, San Francisco, Cal., October 20, 1864, where it remained until ordered to Arizona, August 15, 1865, G. O. No. 7, Department Pacific.

COMPANY E.

No.	Name and Grade.	Enlisted.	Where.	Remarks.
SERGEANTS.

REMARKS.

Company K, organized October 28, 1861, at San Francisco. Left San Francisco January 7, 1862, for Humboldt Military District; established Post Lippitt, Humboldt County, January 10, 1862. Left Post Lippitt, for Fort Lyon, March 10, 1862; arrived March 24, 1862. July, 1862, company engaged in scout in the neighborhood of Bel River; captured about two hundred Indians, and left them on the Humboldt Reservation. April 30, 1863, while a detachment of the company was escorting a Government pack train from Arcata to Fort Gaston, California, a number of concealed Indians fired on the train, killing private Andrew Smith, and wounding Corporal Patrick Agan in the arm. Company left Fort Gaston June 20, 1863, for Fort Humboldt, Cal.; left Fort Humboldt, for Benicia Barracks, June 28, 1863; left Benicia, for Chico, Butte County, Cal., August 14, 1863; arrived August 16, 1863; left Chico, for Benicia, October 26, 1863; left Benicia, for Fort Miller, Cal., December 19, 1863; arrived December 26, 1863; left Fort Miller October 1, 1864, for Presidio, San Francisco; arrived October 8, 1864. Stationed here till ordered to Arizona—(August 15, 1865.) Left Presidio Barracks August 19, 1865, on steamer Senator; arrived at Drum Barracks, Cal., August 21, 1865, en route to Arizona Territory.

HEADQUARTERS DEPARTMENT OF CALIFORNIA, San Francisco, Cal., July 29, 1865.

[General Orders, No. 4.]

The Major-General commanding the department cannot suffer Captain Ulio's Company ("K," 6th Infantry, C. V.,) to return to regimental headquarters without commending them in General Orders for their good conduct and soldierly bearing, and for the faithful discharge of the delicate duty with which they have been intrusted whilst in San Francisco. The company is a credit to their Captain, and to the service.

By command of MAJOR-GENERAL McDOWELL,

R. C. DRUM, Assistant Adjutant-General.

REMARKS.

Company re-organized and mustered into service at San Francisco, April 8, 1865. The company left Presidio, San Francisco, May 3, 1865, pursuant to Special Order No. 95, Headquarters Department Pacific, and proceeded, by steamer, to Fort Humboldt, Cal., arriving May 6, 1865. Engaged since that date in garrisoning that Fort, and in guarding Indian prisoners.

Where no remarks appear opposite the names of the men of Co. F, they were mustered out of the service pursuant to Department Special Order No. 102, November 30, 1865, the date of the muster-out of the company.

20 George Dutton.....	K	January 18, '62.....	January 18, '62.....	Resigned August 31, 1864.

NOTE.—This regiment was mustered out of service in the Department of New Mexico, in November, 1864. The men whose terms of service had not expired were transferred to the First Veteran Infantry. The rolls of the regiment following are made up from originals on file. Many of the companies have filed very few of the rolls required, and no muster-out rolls have ever been received from the company commanders, or the mustering officers. With these exceptions the report of this regiment is as perfect as it can be made.

R E M A R K S.

Company A was mustered into service as a company of U. S. Volunteers, by Captain Winder, 3d U. S. Artillery, October 21, 1862, at Alcatrazes Island, Harbor of San Francisco, California. The company remained on Alcatrazes Island until November 17, 1862, when, in obedience to Special Order No. 204, from the Headquarters of the Department of the Pacific, dated San Francisco, November 14, 1862, it proceeded to and took post at the Presidio, San Francisco. On the 9th of February, 1863, in compliance with directions from Headquarters Department of the Pacific, dated San Francisco, February 9, 1863, the company was designated as Company A, 6th Regiment, Infantry, California Volunteers. In obedience to Special Order No. 83, from Headquarters Department of the Pacific, San Francisco, California, of March 28, 1863, the company left the Presidio of San Francisco, California, on the 30th of March, 1863, en route for Benicia Barracks, Cal., at which place it arrived on the same day. It remained at Benicia Barracks, California, until August 24, 1863, when, pursuant to Special Order No. 195, current series, from Headquarters Department of the Pacific, San Francisco, California, of August 2, 1863, and Orders No. 96, from Headquarters Benicia Barracks, Cal., of August 23, 1863, the company proceeded to Butte County, Cal., at which place it arrived August 26, 1863, taking post at Camp Bidwell, near Chico, where it remained until October 24, 1863; when, pursuant to Special Order No. 210, Headquarters Department Pacific, it took its departure for Benicia Barracks, California,

R E M A R K S.

Company G, Sixth Infantry, C. V., left Benicia Barracks, California, February 15, 1864, by steamer, for Fort Humboldt, California, and arrived at Fort Humboldt on the 17th instant. Left Fort Humboldt on the 28th of February, and arrived the same day at camp near Arcata. Distance from Benicia Barracks, California, 260 miles. March 2d the company left camp near Arcata, and arrived at camp near Fort Gaston on the 5th. Left for Stephens' Camp on the 9th, scouted the South Fork of Trinity River, and returned to camp near Fort Gaston on the 17th. Left camp for Martin's Ferry, on the Klamath River, on the 22d, and arrived there the same day. Left on the 24th for a scout down the Klamath River, and returned to Martin's Ferry on the 28th, and on the 30th returned to camp near Fort Gaston. Estimated distance marched, 290 miles. Rain and snow most of the time after leaving camp near Fort Gaston. April 13, 1864, the company left camp near Fort Gaston, and arrived at Camp Jaqua, California, on the 18th. Estimated distance, fifty-six miles. Left Camp Jaqua for Fort Baker on the 22d on a scout. Returned on the 26th. Estimated distance, 130 miles. May 1st a detachment of the company left camp for the vicinity of Brown's Ranch, on a scout, and returned on the 3d. Left on the 4th for the same place. Returned on the 8th. Second detachment left on the 6th to scout on Mad River. Returned on the 9th. First detachment left on the 10th for Redwoods, and returned on the 20th. Company left for Rabbit Creek on the 12th for Pilot Creek. Returned on the 20th. A small detachment left on the 16th for Fort Baker. Returned on the 18th. Company left for Rabbit Creek on the 21st; had a fight with the Indians, killing twelve and taking four prisoners. Returned on the 25th. Estimated distance marched, including company and scouts, 480 miles. A detachment left Camp Jaqua on the 5th of June for the vicinity of Mad River, and returned on the 15th. Left again on the 25th for Redwoods and Fresh Water Slough. Returned on the 29th. Estimated distance marched, 225 miles. Captain Cook, with Company G, left Camp Jaqua on the 11th of July, 1864, for Fort Humboldt, and arrived on the 12th. Distance marched, thirty-five miles. Company left Fort Humboldt October 18, 1864, en route for San Juan South, California. Arrived at Benicia Barracks October 20, 1864. Distance, 245 miles. January 24, 1865, the company left Benicia Barracks, on route for San Juan South, California. Arrived at San José January 7th. Remained there until January 30th, as per instructions received from Lieutenant-Colonel Haven, A. D. C. on the staff of Major-General McDowell. Resumed the march January 30th. Arrived at San Juan February 2, 1865. February 15th resumed the march, and arrived at Monterey Barracks February 17th. Distance marched from Benicia Barracks to Monterey Barracks, 165 miles.

Company G was mustered out of service at the Presidio Barracks, San Francisco, per Department General Order No. 19, October 31, 1865.

NOTE.—Company H was organized at the general recruiting depot, San Francisco, February 18, 1865. Ordered to take first post at Alcatrazes Island, Harbor of San Francisco. March 18th it joined the regiment at Fort Point; marched to the Presidio and was reviewed. April 19th the company proceeded to San Francisco and joined in the funeral parade of the late President Lincoln. July 4th the company visited San Francisco, where it joined in the procession of the day.

REMARKS.

This company was re-organized on the 10th day of February, 1865, at Franklin, Texas, it being composed principally of veterans from the First Cavalry, C. V., and First and Fifth Infantry, C. V. Prior to its organization, and while a detachment, under command of First Lieutenant R. H. Orton, First Cavalry, C. V., eight men deserted, crossing the Rio Grande into Mexico, taking with them arms, ammunition, and horses, none of whom have as yet been apprehended. On the day prior to the organization of the company, one private, named Thomas Turk, died in hospital at Franklin, Texas; disease, fever. The company has been stationed most of the time at San Elizario, Texas, on outpost duty. No deaths, and but one desertion have occurred since the organization. The armament and mounting of the company has been very inferior until recently. The company is now fully armed with Sharp's new pattern carbines, and Remington pistols. The horses, seventy-one in number, are in good serviceable condition, and the health of the men is excellent.

R E M A R K S .

Company G was mustered into the service of the United States on the 12th day of June, 1863, at Camp Stanford, Cal. Left Camp Stanford for Camp Drum, July 13, 1863; arrived at said camp July 18, 1863. Left Camp Drum December 3, 1863, and arrived at Fort Yuma, December 18, 1863; distance 300 miles. Left Fort Yuma December 30, 1863; arrived at Tucson, A. T., January 16, 1864; distance 300 miles. Left Tucson, A. T., April 7, 1864, and arrived at Camp McCleave, Texas, April 22, 1864; distance 300 miles. Laid over at this post to recruit the company horses. Several scouts, etc., performed whilst at Tucson. Left Camp McCleave, Texas, May 29, 1864, and arrived at Fort Sumner, N. M., June 16, 1864; distance 250 miles. The company was in two actions against the Indians, while at this post: first, in November, 1864, under the command of Major McCleave, against the Kiawas and Camanches. Private Holzner was wounded slightly in the cheek. Second, under the immediate command of Captain Samuel A. Gorham, against the Navajo and Apache Indians. It is impossible to give the whole number of Indians killed and wounded in this fight. Ten Indians left dead on the field. In both instances the company did themselves great credit. Since arriving at this post, the company has been mostly in the saddle, on escorts, scouts, etc.. Whole distance travelled from Camp Drum to Fort Sumner, New Mexico, 1,150 miles.

REGISTER OF CALIFORNIA VOLUNTEERS—First Regiment of Cavalry—Continued.

REMARKS.

Company A was organized at Sacramento, Cal., by Captain William L. Campbell, in December, 1863, and marched thence to Fort Craig, N. M., where it arrived on the 11th day of July, 1864, a distance of 1,800 miles. Lieutenant Samburn, with fifty men, while on an expedition against Apache Indians, under command of Colonel O. M. Brown, 1st Cavalry, for sixty days, captured four squaws; distance marched, 1,200 miles, from October 1st. to November 30th, 1864. Lieutenant Billings, with ten men, went on a scout against Apache Indians for twenty days; distance marched, 600 miles. Lieutenant Samburn, with ten men, on a scout against Apaches, three days, marched 150 miles. Company left Fort Craig in separate detachments, per P. O. No. 129, Headquarters, Fort Craig, N. M., signed by Lieutenant-Colonel E. A. Riggs, 1st Veteran Infantry, commanding, to take the field in pursuit of Indians. Lieutenant Billings, with nine men, had a fight with Indians near San Andreas Pass, July 1, 1865, killing ten Indians. Private Abner C. Lull was severely wounded in the groin; one horse killed; distance marched, 600 miles. Lieutenant Samburn, with twenty men, started on a scout for Indians July 21, 1865, with ten days' rations; distance marched, 400 miles. August 12th, Lieutenant Billings, with twenty men, had a fight with Indians near White Mountains, killing four Indians; distance marched, 300 miles.

R E M A R K S .

According to instructions from Headquarters Sub-District of Plumas, and Special Order No. 21, of September 23, 1865, a detachment of Company K left Smoke Creek, Nevada, September 24, 1865, to overtake some teams loaded with Government freight, and escort them to Summit Lake. First day, September 24th, travelled northeast 28 miles; camped at Pinto Valley; rough road and hilly; good grass, plenty of wood and water. September 25th, travelled in a northeast direction 15 miles; camped at Express Springs; road very rough and mountainous—would not warrant a wagon travelling on it without being broken; good water, plenty of wood and grass. September 26th, travelled in a westerly direction 15 miles, and camped on the mountains called the Camp Cedar Point. This day, travelled on the Red Bluff road; very rough, hardly passable for a wagon; good feed, plenty of wood and water. September 27th, laid over. September 28th,

travelled 15 miles on the roughest kind of a road; camped at Grouse Springs; wood, water, and grass plenty. September 29th, met Sneath & Boorman's train, and returned to our old camp, Grouse Springs; distance travelled, 15 miles. September 30th, travelled 9 miles, and camped at Tuledad Springs; hard road, plenty of wood, water, and grass. October 1st, laid over at Tuledad Springs; stormed very hard. October 2d, distance travelled 15 miles; went to the low end of Surprise Valley; good road, and plenty of wood, grass, and water. October 3d, laid over; one of the ox teams broke axle. October 4th, travelled 13 miles; good road, plenty of wood, water, and grass; camped at Alin's ranch. October 5th, travelled 10 miles; good road, plenty of wood, water, and grass, and camped at the Milk Ranch. October 6th, travelled 20 miles on a good road to Fort Bidwell, there rationed men to the 23d; laid at Fort Bidwell until the 14th. October 14th, travelled 15 miles and camped at Soldiers' Creek, and there awaited the arrival of the balance of the ox train for Summit Lake; remained there until the 17th. October 17th, travelled 16 miles; hard road, plenty of feed and water. October 18th, travelled 8 miles and camped, to assist the train in coming over the mountains; laid over until October 21st. October 21st, travelled 25 miles, good road, and camped. October 22d, travelled 25 miles, good road. October 23d, travelled 15 miles; poor grass, no wood, plenty of sage brush. October 24th, travelled 15 miles and arrived at Summit Lake, all in good order. Remained at Summit Lake the 25th, and returned on the 26th by the Idaho road to Soldiers' Springs; distance travelled, 55 miles. October 27th, travelled 50 miles, good road, and camped at Granite Creek; at this camp, purchased forage. October 28th, travelled 42 miles, and arrived at Smoke Creek, having been out 35 days, travelling 441 miles through an Indian country, but no Indian could be found or seen.
